2. IMPORTANT SAFETY INFORMATION

To reduce the risk of electric shock, burns, fire, or injury, always follow basic safety precautions when using electrical appliances.

- Read all instructions before using this appliance.
- Keep away from water. Do not use while bathing or showering.
- Do not place or store the appliance where it can fall or be pulled into a tub or sink.
- Do not reach for an appliance that has fallen into water. Unplug immediately.
- Always unplug this appliance immediately after using.
- Unplug before cleaning.
- Do not operate any appliance with a damaged cord or plug, or if the appliance malfunctions or has been dropped or damaged.

- Keep the cord away from heated surfaces. Do not wrap the cord around the appliance.
- Never block the air openings of the appliance or place it on a soft surface, such as a bed or couch, where the air openings may be blocked.
- Never use while sleeping.
- Never drop or insert any object into any opening.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Do not use an extension cord with this appliance.
- Do not direct hot air towards eyes or other heat-sensitive areas.
- Attachments may be hot during use. Allow them to cool before handling.
- Do not place the appliance on any surface while it is operating.
- This appliance is intended for household use only.

3. PACKAGE CONTENTS

- Fast Dryer Nozzle x 1
- Auto-Wrap Barrel x 1
- Smoothing Brush x 1
- Round Volumizing Brush x 1

- Flyaway Attachment x 1
- User Guide x 1

4. PRODUCT OVERVIEW

The Dreame AirStyle system consists of a main power unit and five interchangeable styling attachments, each designed for a specific styling purpose.

4.1 Main Unit

The main unit houses the motor and controls for power, temperature, and airflow speed. It features a comfortable handle and a durable power cord.

Styling without High Heat

The heat setting strikes a balance between styling effectiveness and hair preservation, creating an airy, textured look while reducing heat damage, culminating in a sleek finish.

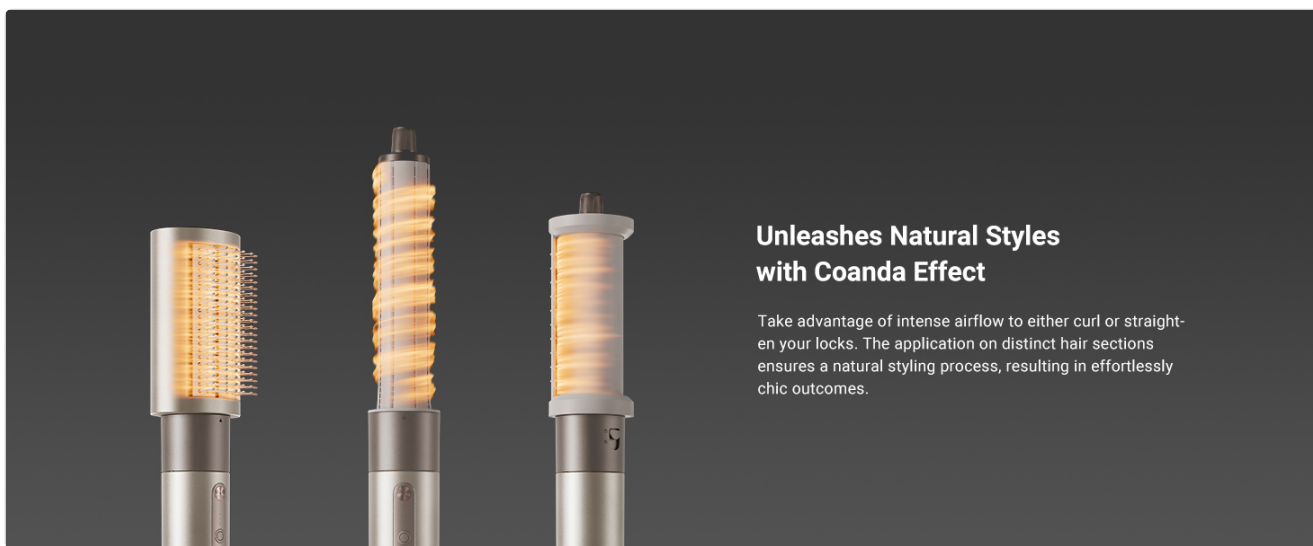

Enables hair styling through airflow rather than excessive heat, unlike conventional styling devices.

Image: The main unit displaying its control panel for settings adjustment.

4.2 Attachments

- **Fast Dryer Nozzle:** Designed for rapid and efficient hair drying.

Unleashes Natural Styles with Coanda Effect

Take advantage of intense airflow to either curl or straighten your locks. The application on distinct hair sections ensures a natural styling process, resulting in effortlessly chic outcomes.

Image: The Fast Dryer attachment in use, demonstrating rapid drying.

- **Auto-Wrap Barrel:** Utilizes the Coanda effect to automatically wrap hair for effortless curling.

Create Playful Curls

Auto-wrap Barrel directs airflow from the inside out, maintaining a certain gap for gentle styling. By automated wrapping and setting, it effortlessly provides bouncy curling results.

Image: The Auto-Wrap Barrel attachment creating curls.

- **Smoothing Brush:** Designed to control stubborn hair and achieve a smooth, straight finish.

Effortless Straight & Smooth

Smoothing Brush is adept at controlling stubborn hair. It makes the styling process easy, letting you craft a smooth, straight hairstyle with less effort.

Image: The Smoothing Brush attachment in action, providing a sleek finish.

- **Round Volumizing Brush:** Adds soft, natural volume and lifts hair without high heat.

Instantly Volumized and Smoothed Styling

Round Volumizing Brush adds soft, natural volume without high heat, gently lifting and fluffing hair—the brush aids in creating voluminous beehive hairstyles and establishing inner buckle styles.

Image: The Round Volumizing Brush attachment creating natural volume.

- **Flyaway Attachment:** Manages flyaways and reduces frizz for a sleek, polished hairstyle using precise airflow.

Reduce Frizz and Flyaway

Flyaway Attachment effectively tames stray hairs using airflow, leading to a smooth, refined finish. It assists in creating a sleek hairstyle that feels practically weightless.

5. SETUP AND ASSEMBLY

Follow these steps to set up your Dreame AirStyle system for first use.

1. **Unpack:** Carefully remove all components from the packaging. Retain the packaging for future storage or transport.
2. **Inspect:** Check the main unit and all attachments for any signs of damage. Do not use if damaged.
3. **Attach Styling Head:** Select the desired styling attachment. Align the attachment with the main unit's connection point and push firmly until it clicks into place. Ensure it is securely fastened before use.
4. **Connect Power:** Plug the power cord into a suitable electrical outlet. Ensure the voltage matches the appliance's requirements (1200 Watts).

To remove an attachment, gently twist and pull it away from the main unit. Always ensure the device is unplugged and cooled down before changing attachments.

6. OPERATING INSTRUCTIONS

The Dreame AirStyle offers flexible settings for temperature and airflow to suit various hair types and styling needs.

6.1 Power On/Off and Basic Controls

- **Power Button:** Press the power button to turn the device on or off.
- **Temperature Settings:** The device features three temperature settings. Press the temperature button to cycle through low, medium, and high heat.
- **Airflow Speed Settings:** The device features three airflow speed settings. Press the airflow button to cycle through low, medium, and high speed.
- **Cool Shot:** Press and hold the cool shot button for 1 second to activate a burst of cool air, which helps to set your style.

Styling without High Heat

The heat setting strikes a balance between styling effectiveness and hair preservation, creating an airy, textured look while reducing heat damage, culminating in a sleek finish.

Enables hair styling through airflow rather than excessive heat, unlike conventional styling devices.

Image: Controls for temperature, airflow, and cool shot function.

6.2 Using the Attachments

Ensure your hair is damp (unless specified otherwise) and detangled before styling.

1. **Fast Dryer Nozzle:**

- Attach the Fast Dryer nozzle.
- Turn on the device and select your desired heat and speed settings.
- Direct the airflow towards your hair, moving the dryer continuously to avoid concentrating heat in one area.
- Use to quickly dry hair before styling with other attachments, or for a general quick dry.

2. Auto-Wrap Barrel (for Curling):

- Attach the Auto-Wrap Barrel. Ensure hair is damp, not wet.
- Take a section of hair and hold the barrel near the ends. The Coanda effect will automatically wrap the hair around the barrel.
- Hold for a few seconds until the curl is formed, then use the cool shot to set the curl.
- Gently release the hair. Repeat for all sections.

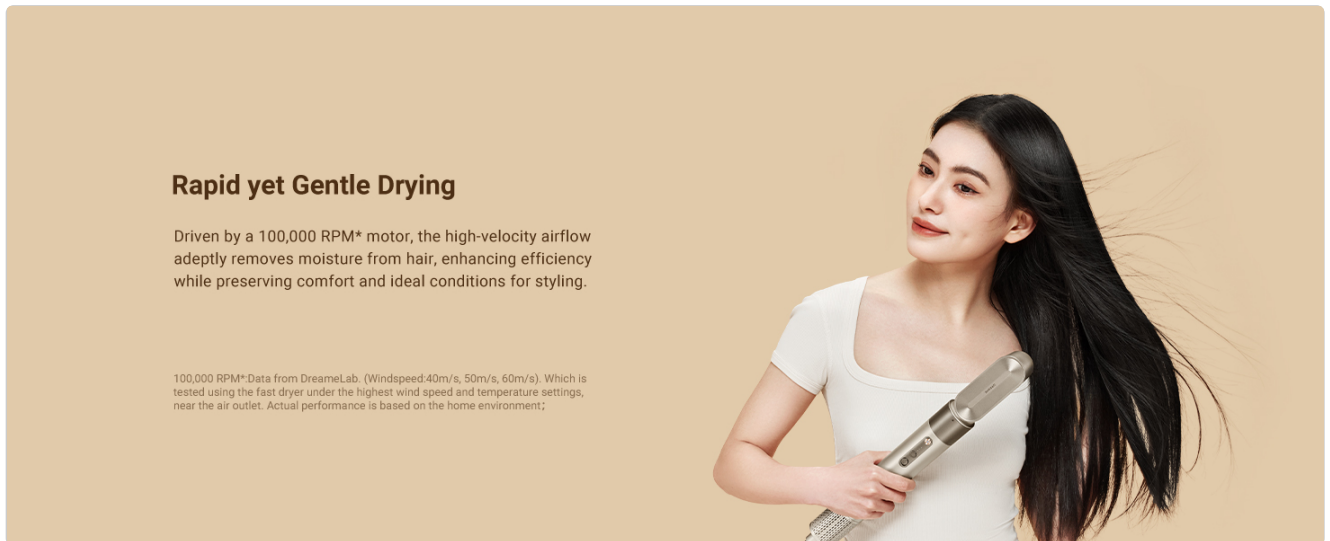

Image: Hair being automatically wrapped by the Auto-Wrap Barrel for curling.

3. Smoothing Brush (for Straightening):

- Attach the Smoothing Brush. Can be used on damp or dry hair.
- Take a section of hair and brush through it from root to tip, applying gentle tension.
- The brush's design helps to smooth and straighten hair, reducing frizz.
- For best results, work in small sections.

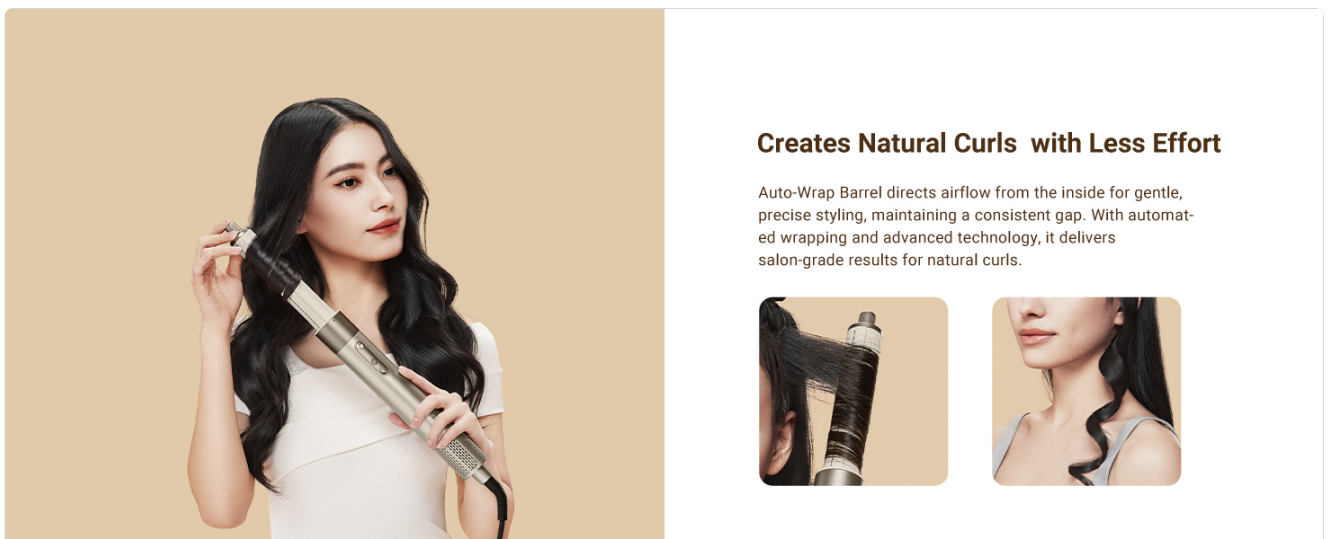

Image: The Smoothing Brush in use for straightening hair.

4. Round Volumizing Brush (for Volume):

- Attach the Round Volumizing Brush. Use on damp hair for best results.
- Section your hair. Place the brush near the roots and lift upwards while directing airflow.
- Roll the brush through the hair section, maintaining tension, to create volume and shape.
- Use the cool shot to set the volume at the roots.

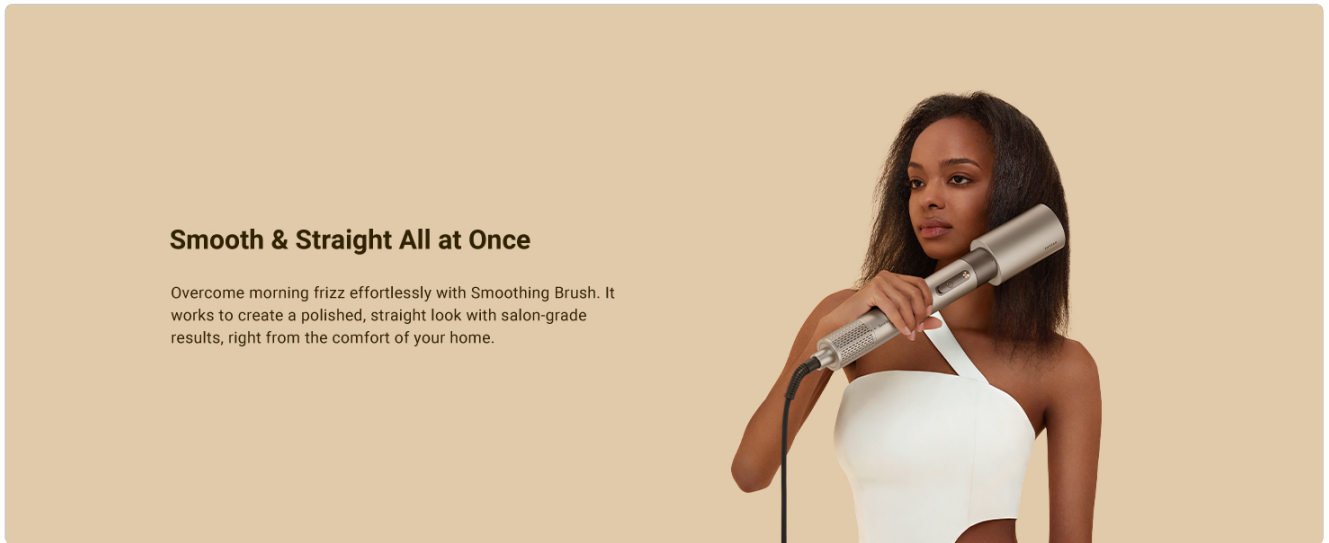

Image: The Round Volumizing Brush providing gentle lift for natural volume.

5. Flyaway Attachment (for Frizz Reduction):

- Attach the Flyaway Attachment. Use on dry, finished hair.
- Hold the attachment close to your hair surface, allowing the Coanda effect to attract and smooth down flyaways.
- Move slowly over sections of hair to achieve a sleek, polished look without frizz.

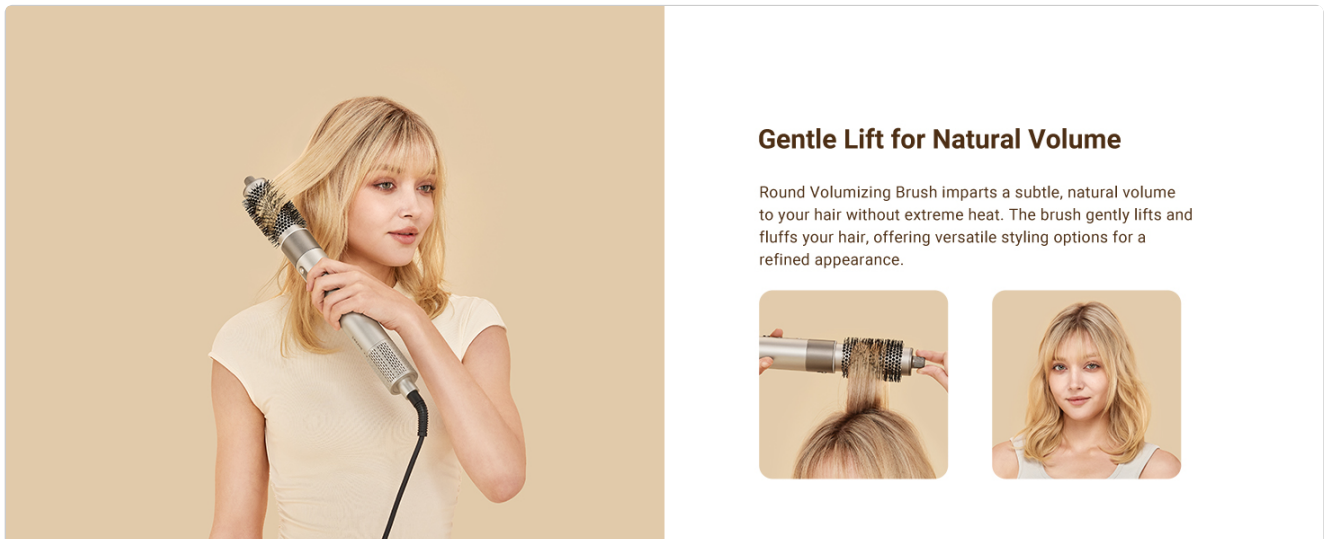

Image: The Flyaway Attachment reducing frizz for a smooth finish.

Important: The Dreame AirStyle is designed for styling without extreme heat, utilizing controlled airflow. This helps prevent heat damage to your hair.

Frizz Reduction for Smooth Styling

Flyaway Attachment efficiently tackles frizz using strong airflow, resulting in a smooth, refined hairstyle. It delivers a lightweight, elegant look with a shiny, sleek finish.

7. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will ensure the longevity and optimal performance of your Dreame AirStyle.

- 1. **Unplug Before Cleaning:** Always ensure the appliance is unplugged from the power outlet and has completely cooled down before cleaning.
- 2. **Clean the Main Unit:** Wipe the exterior of the main unit with a soft, damp cloth. Do not use abrasive cleaners or immerse the unit in water.
- 3. **Clean Attachments:**
 - Remove any hair or debris from the brushes and barrels using your fingers or a small brush.
 - Wipe the surfaces of the attachments with a soft, damp cloth.
 - Ensure attachments are completely dry before reattaching or storing.
- 4. **Air Inlet Filter:** Periodically check the air inlet filter at the bottom of the main unit for dust and lint buildup. Gently clean it with a soft brush or cloth to maintain optimal airflow.
- 5. **Storage:** Store the appliance and its attachments in a dry, safe place, away from direct sunlight and moisture. Use the provided storage case if available.

8. TROUBLESHOOTING

If you encounter any issues with your Dreame AirStyle, refer to the following table for common problems and solutions.

Problem	Possible Cause	Solution
Device does not turn on.	Not plugged in; power outlet malfunction; damaged cord/plug.	Ensure the power cord is securely plugged into a working outlet. Check for damage to the cord or plug.
Weak airflow or reduced performance.	Air inlet filter blocked; attachment not properly secured.	Clean the air inlet filter. Ensure the attachment is firmly clicked into place.

Problem	Possible Cause	Solution
Attachments are not curling/smoothing effectively.	Hair is too wet/dry; incorrect technique; hair section too large.	Ensure hair has the appropriate dampness for the attachment. Review operating instructions for correct technique. Use smaller hair sections.
Device overheats and shuts off.	Airflow blockage; prolonged use.	Unplug the device and allow it to cool down. Clean the air inlet filter. Avoid blocking air vents during use.

If the problem persists after trying these solutions, please contact customer support.
