Ancient Wonders Dig Kit Instruction Manual

Brand: **PIBEX** | Model: **EC712**

PRODUCT OVERVIEW

The PIBEX Ancient Wonders Dig Kit offers an engaging archaeological experience for children aged 6 and up. This kit allows users to excavate six miniature historical landmarks and six unique treasure stones from Earth-shaped plaster balls. It combines hands-on discovery with educational content, providing insights into ancient history, cultures, and geology.

Each kit includes digging tools, a protective mat, and a full-color learning guide with educational flashcards to identify and learn about each discovery.

SAFETY INFORMATION

Warning: Choking Hazard - Small Parts. Not suitable for children under 3 years old.

All figurines are manufactured from non-toxic, BPA-free resin, ensuring a safe play experience.

SETUP

- 1. Prepare Your Workspace:** Choose a flat, stable surface for excavation. Unfold the included protective mat and place it on your chosen surface to contain any mess from the digging process.
- 2. Gather Tools:** Ensure you have the digging tools (hammer, chisel, brush) and the spray bottle readily available.
- 3. Unpack Digging Balls:** Carefully remove the bronze Earth-shaped plaster balls from the packaging.

OPERATING INSTRUCTIONS

Follow these steps to unearth your ancient wonders and mystical stones:

1. **Soften the Plaster Ball:** Use the spray bottle to lightly mist the plaster ball with water. This will help soften the material, making excavation easier. Apply more water as needed throughout the digging process.
2. **Begin Excavating:** Carefully use the digging tools (hammer and chisel) to chip away at the plaster. Work slowly and gently to avoid damaging the hidden treasures.
3. **Clean Your Finds:** Once a treasure is exposed, use the brush to gently remove any remaining plaster dust.
4. **Identify and Learn:** Refer to the included full-color Learning Guide and the 12 educational flashcards. These cards provide detailed information about each of the six historical landmarks (Parthenon, Angkor Wat, Pantheon, Moai Statues, Great Sphinx, Potala Palace) and the six mystical stones (Green Mica, Sunstone, Lazurite, Pink Opal, Labradorite, Rose Quartz).

MAINTENANCE

- **Cleaning Tools:** After each use, clean the digging tools (chisel, hammer, brush) with water to remove any plaster residue. Allow them to air dry completely before storing.
- **Cleaning Figurines and Stones:** Gently wipe the unearthed historical landmarks and mystical stones with a soft, damp cloth to remove any dust. Do not use harsh chemicals.
- **Storage:** Store all kit components, including the tools, unearthed items, and learning cards, in a dry place away from direct sunlight to preserve their condition. The original packaging can be used for convenient storage.

TROUBLESHOOTING

- **Difficulty Excavating:** If the plaster ball is too hard to dig, apply more water using the spray bottle. Allow the water to

soak in for a few minutes to soften the material further. Repeat as necessary.

- **Excessive Mess:** Ensure the protective mat is properly laid out and that digging is confined to its surface. For easier cleanup, consider placing newspaper or a larger protective sheet under the mat.
- **Missing Pieces:** Carefully check all plaster debris and the protective mat for any small pieces that may have been overlooked during excavation.
