## 3. SETUP

### Charging the Power Bank

Before first use, it is recommended to fully charge your VIYISI Power Bank. This ensures optimal battery performance.

1. Connect the built-in USB-C cable from the power bank to a compatible USB power adapter (not included) or a computer's USB port.
2. Alternatively, use the provided USB-A to USB-C cable to connect the power bank's USB-C input port to a USB power adapter.
3. The digital LED display will show the charging progress. Once it reaches 100%, the power bank is fully charged and ready for use.

## 4. OPERATING INSTRUCTIONS

### Charging Your Devices

The VIYISI Power Bank offers versatile charging options for various devices.

1. **Using the Built-in USB-C Cable:** Extend the built-in USB-C cable and plug it directly into your compatible

USB-C device (e.g., iPhone 15 series, Samsung Galaxy, Google Pixel).

2. **Using Other Ports:** For devices requiring a different connection, use your own USB-A to USB-C cable or a USB-C to USB-C cable and connect it to the corresponding output port on the power bank.
3. Charging will automatically begin once a device is connected. The power bank's LED display will show its remaining charge.

## 5. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your power bank.

- **Cleaning:** Use a dry, soft cloth to clean the surface of the power bank. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight, extreme temperatures, and humidity.
- **Battery Care:** If the power bank is not used for an extended period, recharge it at least once every three months to maintain battery health.
- **Avoid Physical Damage:** Do not drop, crush, or expose the power bank to strong impacts.

## 6. TROUBLESHOOTING

If you encounter any issues with your VIYISI Power Bank, please refer to the following common solutions:

- **Power Bank Not Charging:**
  - Ensure the charging cable is securely connected to both the power bank and the power source.
  - Verify that the power adapter and wall outlet are functioning correctly.
  - Try using a different charging cable or power adapter.
- **Device Not Charging from Power Bank:**
  - Check if the power bank has sufficient charge by pressing the power button.
  - Ensure the charging cable connecting your device to the power bank is not damaged and is securely connected.
  - Try using a different output port on the power bank.
  - Confirm your device is compatible with the power bank's output specifications.
- **Slow Charging:**

- Ensure both the power bank and your device support fast charging protocols.
- Use a high-quality, fast-charging compatible cable.
- Avoid using your device extensively while it is charging, as this can slow down the charging process.

If the issue persists after trying these steps, please contact customer support for further assistance.
