ASSEMBLY INSTRUCTIONS

Assembly of this micro building set requires patience and attention to detail. Follow the included instructions carefully, building layer by layer.

General Assembly Tips:

- The bricks are very tiny. It is highly recommended to use a pair of tweezers (not included) for easier handling and placement of pieces.
- Organize your pieces by color and shape before starting.
- Follow the instruction manual layer by layer. Each layer builds upon the previous one.
- If a piece does not fit easily, double-check the instructions and the placement of surrounding pieces. Do not force pieces together.
- The initial layers may be challenging. As more layers are completed, the structure will become more stable and

easier to build.

Using the Brick Separator (if included):

Some sets may include a brick separator tool to help detach tightly connected pieces. If your set includes one, follow these steps:

1. **Identify the tool:** The brick separator is typically a flat, lever-like tool.
