## SETUP

1. **Unboxing:** Carefully remove the die-cast car from its packaging. Ensure all protective materials are removed.
2. **Initial Inspection:** Examine the model for any visible damage or loose parts.
3. **Placement:** Place the model on a flat, stable surface for display or interaction.

## OPERATING FEATURES

The die-cast model includes several interactive features:

- **Opening Doors:** Gently pull the doors outwards to open them and reveal the detailed interior.
- **Opening Hood:** Lift the front hood to view the simulated engine compartment or storage area.
- **Opening Rear Engine Cover:** Carefully lift the rear cover to inspect the detailed engine replica.

When closing, gently push the parts back into their original position until they sit flush with the body.

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to gently wipe the surface of the model. Avoid abrasive cleaners or solvents, as these can damage the paint finish.
- **Dust Removal:** For intricate areas, use a soft brush or compressed air to remove dust.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures to prevent fading or material degradation.
- **Handling:** Handle the model by its main body to avoid damaging delicate parts like mirrors or spoilers.

## TROUBLESHOOTING

- **Stiff Moving Parts:** If doors, hood, or engine cover feel stiff, apply gentle, even pressure. Do not force them open or closed.
- **Loose Parts:** If any small parts become loose, they can often be reattached with a small amount of model-safe adhesive. Ensure the adhesive is suitable for the materials (metal, plastic).
- **Paint Damage:** Minor paint chips can sometimes be touched up with model paint, but this is not recommended for maintaining collectible value.
