## GeekTale F08

# GeekTale Fingerprint Deadbolt User Manual

Model: F08  
Brand: GeekTale

## INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your GeekTale Fingerprint Deadbolt (Model F08). This smart deadbolt offers multiple unlocking methods including fingerprint, app control, and traditional key, ensuring convenience and security for your home or office.

Key features include:

- **Fingerprint Deadbolt:** 99.99% recognition accuracy, one-touch unlocking, supports up to 50 unique user profiles.
- **App Control:** Manage fingerprints, Bluetooth unlocking (within 10 meters), and review access logs. No subscription fees.
- **Remote Control:** Requires a separate gateway (sold separately) for remote smartphone unlocking and real-time status notifications.
- **Built-in Rechargeable Battery:** Up to 8 months of use on a 2-hour charge, with low-battery alerts and emergency USB power.
- **Universal Application:** Suitable for indoor and outdoor use (under covered entries for exterior doors). Constructed with durable aluminum alloy.

## SETUP AND INSTALLATION

Follow these steps for proper installation of your GeekTale Fingerprint Deadbolt. Ensure you have the necessary tools before beginning.

### 1. Prepare the Door

Verify your door's dimensions are compatible with the deadbolt. The door hole diameter should be 2-1/8 inches (54mm) and door thickness between 1-3/8 inches and 2-1/8 inches (35mm to 54mm). The backset can be 2-3/4 inches (70mm) or 2-3/8 inches (60mm). If your backset is 2-3/4 inches, pull out the face plate to extend.

## OPERATING INSTRUCTIONS

### 1. Fingerprint Unlock

The deadbolt features a highly accurate fingerprint scanner. Simply place your registered finger on the sensor for instant unlocking. The lock recognizes fingerprints in approximately 0.3 seconds.

### 3. Remote Control (with Gateway)

For remote unlocking and real-time notifications from anywhere, pair your deadbolt with a GeekTale gateway (sold separately). This allows you to grant access to family or friends even when you are away.

#### 4. Key Unlock

In case of battery depletion or other issues, you can always use the traditional backup keys provided with your deadbolt to unlock the door manually.

## MAINTENANCE

### Battery Management

The GeekTale F08 deadbolt is equipped with a built-in rechargeable battery. A full charge takes approximately 2 hours and provides up to 8 months of use. The lock will provide low-battery alerts to notify you when charging is needed. In an emergency, you can power the lock via a USB cable for temporary access.

To charge, connect a USB-C cable to the port on the deadbolt. Ensure the lock is fully charged before initial use.

## TROUBLESHOOTING

If you encounter issues with your GeekTale Fingerprint Deadbolt, please refer to the following common solutions:

- **Fingerprint Not Recognized:** Ensure your finger is clean and dry. Try re-registering your fingerprint through the app. Ensure the sensor is clean.
- **Lock Not Responding:** Check the battery level. If low, charge the deadbolt using a USB-C cable.
- **App Connectivity Issues:** Ensure Bluetooth is enabled on your device and you are within 10 meters of the lock. Restart the app or your phone.
- **Remote Unlock Not Working:** Verify that your gateway is properly connected and online. Check your internet connection.
- **Physical Key Not Working:** Ensure you are using the correct key and inserting it fully.
