YITAHOME MAYIHUOOa

YITAHOME Floor to Ceiling Cat Tree Tower

INSTRUCTION MANUAL - MODEL MAYIHUOOa

Introduction

Thank you for choosing the YITAHOME Floor to Ceiling Cat Tree Tower. This manual provides essential information for the safe assembly, operation, and maintenance of your new cat tree. Designed for 1-2 small cats weighing under 15 pounds each, this adjustable tower offers a space-saving solution for your feline companions to climb, scratch, and rest.

Please read these instructions carefully before assembly and retain them for future reference.

Safety Information

- **Adult Assembly Required:** This product contains small parts and requires adult assembly.
- **Two-Person Assembly:** For safety and ease of installation, two people are required for assembly, especially when extending the adjustable rod to secure it against the ceiling.
- **Weight Limit:** This cat tree is designed for 1-2 cats, each weighing under 15 pounds. Exceeding this weight limit may compromise stability.
- **Ceiling Height:** Ensure your ceiling height is within the adjustable range of 99 inches (251 cm) to 112 inches (285 cm).
- **Placement:** For added stability, position the cat tree against a wall.
- **Regular Inspection:** Periodically check all screws and connections to ensure they remain tight and secure.
- **Avoid Water:** Do not expose the cat tree to water or excessive moisture.

Parts List

Before beginning assembly, verify that all components listed below are present and undamaged:

- Cat Condo Base
- Sisal Scratching Posts (various lengths)
- Platforms (multiple sizes)
- Adjustable Tension Rod
- Dangling Spring Ball Toy
- Hardware Pack (screws, bolts, Allen wrench)
- Instruction Manual (this document)

Setup and Assembly

Follow these steps carefully to assemble your YITAHOME Cat Tree Tower. Refer to the provided diagrams for visual guidance.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Check against the parts list.
2. **Assemble Base:** Attach the first scratching post to the cat condo base using the provided hardware. Ensure it is securely tightened.
3. **Attach Platforms:** Continue to attach the platforms and subsequent scratching posts in the designated order, working upwards. Ensure each connection is firm.
4. **Install Adjustable Rod:** Once the main structure is assembled, insert the adjustable tension rod into the top section of the cat tree.
5. **Position and Secure (Two-Person Step):** With the help of a second person, carefully lift the assembled cat tree into its desired position. Extend the adjustable rod by rotating it until it creates firm tension between the top of the cat tree and the ceiling. Ensure the cat tree is vertical and stable. For optimal stability, place it against a wall.
6. **Attach Accessories:** Secure the dangling spring ball toy to its designated location on one of the platforms.

FLOOR TO CEILING DESIGN

Easy to install and no drill on ceiling

Adjustable Height:
(99-112") 251.4-284.4CM

Operating Instructions

The YITAHOME Cat Tree Tower provides multiple activity zones for your cat:

- **Climbing and Jumping:** Cats can utilize the various platforms to climb, jump, and explore different heights.
- **Scratching:** The sisal-wrapped posts are designed for scratching, helping to maintain your cat's claws and protect your furniture.
- **Resting:** The cozy condo at the base and the plush top perch offer comfortable spots for napping and relaxation.
- **Playing:** The dangling spring ball toy provides an interactive element for play and hunting instincts.

HIGH QUALITY SISAL

Convenient for cat scratching

Figure 3: A cat engaging with the high-quality sisal scratching post, which measures 3.5 inches (9 cm) in diameter.

Maintenance

- **Cleaning:** The cat tree should be spot cleaned only. Use a damp cloth and mild detergent for soiled areas, then air dry. Do not machine wash or immerse in water.
- **Stability Check:** Regularly check the tension of the adjustable rod and the tightness of all screws to ensure the cat tree remains stable and secure.
- **Sisal Post Wear:** Sisal scratching posts are consumable items. Replace them if they become excessively worn to maintain their effectiveness.

Troubleshooting

- **Cat Tree Feels Unstable:**
 - Ensure the adjustable tension rod is fully extended and creating firm pressure against the ceiling.
 - Verify all screws and connections are tightened.
 - Confirm the cat tree is placed against a wall for additional support.
- **Cats Not Using the Tree:**
 - Place catnip on the scratching posts or platforms to attract your cat.
 - Ensure the tree is in a location your cat frequently visits or where they can observe their surroundings.
 - Note that this tree is designed for small cats (under 15 lbs). Larger cats may find the platforms too small for comfortable use.
- **Missing Parts:** If any parts are missing upon unboxing, please contact YITAHOME customer support.
