HOSPAOP B0DFGZ65YN

HOSPAOP 8-in-1 Baby Bottle Warmer User Manual

Model: B0DFGZ65YN

INTRODUCTION

The HOSPAOP 8-in-1 Baby Bottle Warmer is an essential device designed to quickly and evenly warm breast milk, formula, and baby food. It ensures optimal temperature control to preserve nutrient quality and prevents overheating through automatic regulation. This versatile warmer offers multiple functions to simplify your daily routine.

This manual provides detailed instructions for the safe and efficient operation, maintenance, and troubleshooting of your HOSPAOP 8-in-1 Baby Bottle Warmer. Please read it thoroughly before first use and keep it for future reference.

SAFETY PRECAUTIONS

- Always keep the appliance out of reach of children.
- Do not immerse the main unit in water or other liquids.
- Ensure the power supply matches the specifications (220V).
- Unplug the appliance when not in use and before cleaning.
- Do not operate the appliance if it has a damaged cord or plug, or if it malfunctions or has been damaged in any manner.
- Use only accessories recommended by the manufacturer.
- Always check the temperature of the milk or food before feeding your baby.
- Avoid direct contact with the heating plate during operation.

PACKAGE CONTENTS

- 1 x HOSPAOP Baby Bottle Warmer
- 1 x Removable Bottle Basket
- 1 x User Manual

PRODUCT OVERVIEW

The HOSPAOP 8-in-1 Baby Bottle Warmer features a compact design with intuitive controls. It includes a digital display for temperature and time settings, and a removable basket for safe handling of bottles.

SETUP

- Unpack:** Carefully remove all components from the packaging.
- Clean:** Before first use, clean the removable bottle basket and the interior of the warmer with a damp cloth. Do not immerse the main unit in water.
- Placement:** Place the bottle warmer on a stable, flat, and heat-resistant surface, away from direct sunlight and heat sources.
- Power Connection:** Plug the power cord into a standard 220V electrical outlet.

OPERATING INSTRUCTIONS

The HOSPAOP 8-in-1 Baby Bottle Warmer offers multiple functions for various needs:

Wie verwende ich?

heizen Sie den Flaschenheizer innerhalb weniger Minuten schnell auf

1

Put milk bottle
into bottle

Milch

Suppe

warmes Wasser

Image: Visual guide showing four steps for using the bottle warmer: 1. Place milk bottle into warmer, 2. Add water, 3. Set function, 4. Rotate to OFF after use.

- 1. Prepare Bottle:** Place the baby bottle with milk or food into the removable bottle basket.
- 2. Add Water:** Pour the appropriate amount of purified water into the heating chamber. The amount of water depends on the function selected (refer to specific function details below).
- 3. Place Basket:** Carefully lower the bottle basket with the bottle into the warmer.
- 4. Select Function:** Press the power button to turn on the device. Use the function selection buttons to choose your desired mode.
- 5. Set Temperature/Time:** Adjust the temperature or time using the '+' and '-' buttons as needed.
- 6. Start:** The device will start heating automatically after selection.
- 7. Completion:** The device will beep and automatically shut off when the process is complete.
- 8. Remove Bottle:** Carefully lift the bottle basket out of the warmer. Always check the temperature of the contents before feeding.

Functions:

- **Quick Warming (Fast):** Heats milk or food rapidly in 2 to 7 minutes. Ideal for immediate feeding. Add approximately 40ml of water for this mode.
- **Defrosting:** Safely thaws frozen breast milk or baby food, preserving nutrients.
- **Keep Warm (24H):** Maintains milk at a desired temperature (e.g., 40°C) for up to 24 hours. Useful for night feedings.
- **Baby Food Warming (Food):** Gently heats baby food jars or pouches to a suitable temperature (e.g., 70°C).
- **Steaming:** Can be used to steam small items or food.
- **Sterilizing:** Sterilizes baby bottles and accessories at 100°C. Add 100-150ml of water for sterilization.
- **Timer Function:** Allows for delayed start or specific heating durations.
- **Adjustable Temperature:** Preset temperature levels include 30°C, 40°C, 70°C, and 100°C, with the ability to adjust within ranges.

MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and hygiene of your bottle warmer.

1. **Unplug:** Always unplug the appliance from the power outlet before cleaning.
2. **Cool Down:** Allow the appliance to cool completely before cleaning.
3. **Exterior:** Wipe the exterior of the warmer with a soft, damp cloth. Do not use abrasive cleaners or solvents.
4. **Interior/Heating Plate:** The heating plate and interior can be wiped with a damp cloth. For stubborn mineral deposits (limescale), use a descaling solution suitable for kitchen appliances or a mixture of white vinegar and water. Run a cycle with the descaling solution, then rinse thoroughly by running a cycle with clean water. To prevent limescale buildup, use distilled or purified water.
5. **Bottle Basket:** The removable bottle basket can be washed with warm soapy water and rinsed thoroughly.
6. **Storage:** Store the appliance in a dry place when not in use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in; power outlet malfunction; appliance malfunction.	Ensure the power cord is securely plugged into a working outlet. Try a different outlet. If problem persists, contact support.
Milk/food not warming up.	Insufficient water; incorrect function selected; heating plate malfunction.	Add sufficient water as per instructions for the selected function. Ensure the correct function and temperature are set. If problem persists, contact support.
Overheating or burning smell.	No water or too little water; foreign object on heating plate.	Immediately unplug the appliance. Ensure sufficient water is always present during operation. Clean the heating plate. If problem persists, discontinue use and contact support.
Limescale buildup.	Hard water usage.	Descal the appliance regularly using a suitable descaling solution or vinegar. Use distilled or purified water to prevent future buildup.

SPECIFICATIONS

- **Product Dimensions:** 12 x 12 x 28 cm (4.7 x 4.7 x 11 inches)
- **Weight:** 597 grams (approx. 1.3 lbs)
- **Material:** Food-grade PP, BPA-free
- **Power Supply:** 220V
- **Heating Time:** 2-7 minutes (depending on quantity and initial temperature)
- **Temperature Ranges:** 30°C, 40°C, 70°C, 100°C
- **Functions:** Warming, Defrosting, Keep Warm, Steaming, Baby Food Warming, Sterilizing, Timer, Adjustable Temperature
- **Compatibility:** Suitable for all common baby bottles
