## BAYBEE BBEMJ117P

# Baybee Bronco Electric Ride-On Jeep User Manual

Model: BBEMJ117P

## INTRODUCTION

Thank you for choosing the Baybee Bronco Electric Ride-On Jeep. This manual provides essential information for the safe assembly, operation, and maintenance of your new ride-on toy. Please read all instructions carefully before use and retain this manual for future reference.

This electric jeep is designed for children aged 24 months to 8 years, with a maximum load capacity of 30 kg.

## SAFETY INFORMATION

**WARNING:** To prevent the risk of serious injury, adult supervision is required at all times. Never leave children unattended while operating this vehicle.

- Ensure the child wears appropriate safety gear, such as a helmet, when operating the jeep.
- Do not operate the vehicle near streets, cars, steep inclines or steps, swimming pools, or other bodies of water.
- Always ensure the child is seated properly and secured with the safety belt (if applicable) before starting.
- The vehicle is designed for use on flat, dry surfaces. Avoid operating on wet, muddy, or uneven terrain.
- Do not allow more than one rider at a time.
- Regularly inspect the vehicle for any damage, loose parts, or wear before each use.
- Keep hands, hair, and clothing away from moving parts.
- Charging should only be performed by an adult.

## PACKAGE CONTENTS

Before assembly, please verify that all components are present:

- One Baybee Bronco Electric Ride-On Jeep (main body)

- Wheels (4x)
- Steering Wheel
- Seats
- Windshield
- Charger (12V 1000MA)
- Rechargeable Battery (12V 4.5AH\*1)
- 2.4G Wireless Remote Controller (requires 2\*AAA batteries, not included)
- Assembly Manual (this document)
- Small parts for assembly (screws, nuts, axles, etc.)

## ASSEMBLY INSTRUCTIONS

Assembly of the Baybee Bronco Electric Ride-On Jeep is required and should be performed by an adult. Please follow these steps carefully:

1. **Prepare the Workspace:** Lay out all components on a clean, flat surface. Keep small parts organized.
2. **Install Wheels:** Attach the four wheels to the axles. Ensure they are securely fastened with the provided washers and nuts. Refer to the diagram for correct orientation.

Figure 1: Gripped Wheels. The jeep features sturdy, wear-resistant wheels designed for various surfaces like

grass, gravel, and pavement.

3. **Connect Battery:** Locate the battery compartment, usually under the seat or hood. Connect the battery terminals according to the polarity markings (+ to + and - to -). Ensure connections are firm.
4. **Install Seat and Windshield:** Securely attach the seat and windshield to the main body of the jeep using the designated screws.
5. **Attach Steering Wheel:** Connect the steering wheel to the steering column. Ensure any electrical connectors for horn or music functions are properly plugged in before securing the wheel.
6. **Final Checks:** Before first use, double-check all connections, screws, and moving parts to ensure they are securely fastened and functioning correctly.

## BATTERY CHARGING

---

The vehicle is powered by a rechargeable 12V 4.5AH battery. For optimal performance and battery life, follow these charging instructions:

- **First Charge:** Charge the battery for 8-12 hours before the first use. Do not overcharge for more than 18 hours.
- **Regular Charging:** After each use, charge the battery for 8-12 hours.
- **Charging Procedure:**
  - a. Turn off the vehicle's power switch.
  - b. Locate the charging port (typically near the battery compartment or under the seat).
  - c. Plug the charger into the charging port, then plug the charger into a standard wall outlet.
  - d. The charger indicator light will show charging status (refer to charger manual for specific light indications).
  - e. Once charging is complete, unplug the charger from the wall and then from the vehicle.
- **Battery Life:** A full charge provides approximately 40 minutes of continuous playtime, depending on usage and terrain.
- **Important:** Only use the charger provided by BAYBEE. Using an unauthorized charger may damage the battery and void the warranty.

## OPERATING INSTRUCTIONS

---

### Dual Control Modes

The Baybee Bronco offers two ways to control the vehicle:

- **Child Manual Operation:** The child can drive the jeep using the steering wheel and foot pedal.
- **Parental Remote Control:** An adult can control the jeep using the 2.4G wireless remote controller. This mode overrides manual child control for safety.

# Remote control

The Ride on Jeep can be controlled by dual control modes. Parent can help your children control this jeep with **2.4G wireless** remote controller

Realistic doors

**Figure 2: Remote Control.** The 2.4G wireless remote allows parents to control the jeep, ensuring safety and guidance.

## Starting the Vehicle

1. Ensure the battery is fully charged.
2. Turn on the main power switch, usually located on the dashboard.
3. If using the remote control, ensure it is paired with the vehicle (refer to remote control instructions for pairing).

## Driving (Child Manual Operation)

1. Have the child sit securely in the seat and fasten the safety belt.
2. Press the foot pedal to accelerate. The jeep features a slow start mechanism for smooth acceleration.
3. Use the steering wheel to control direction.
4. Release the foot pedal to brake.

## Multimedia Features

The jeep is equipped with various entertainment features:

- **Horn and Music:** Buttons on the steering wheel or dashboard activate the horn and pre-installed

music.

- **Connectivity:** The vehicle supports Bluetooth, USB, and Aux input for playing external audio. Refer to the dashboard controls for specific functions.
- **LED Lights:** Headlights, windshield lights (RGB), and other decorative lights can be activated via dashboard switches.

**Figure 3: LED Lights.** The jeep features functional headlights, RGB windshield lights, and roof-mounted lights for enhanced realism and visibility.

## Swing Mode

Some models may include a "swing mode" for stationary rocking motion. Activate this feature using the designated switch on the dashboard.

# swing mode

Watch as they swing back and forth with laughter and delight, experiencing the joy of motion like never before.

**Figure 4: Swing Mode.** This feature allows the jeep to rock back and forth while stationary, providing an additional play experience.

## MAINTENANCE

Regular maintenance ensures the longevity and safe operation of your Baybee Bronco Electric Ride-On Jeep.

- **Cleaning:** Wipe the vehicle with a soft, damp cloth. Do not use abrasive cleaners or solvents. Avoid spraying water directly onto electrical components.
- **Battery Care:**
  - Always recharge the battery after each use.
  - If storing the vehicle for an extended period, charge the battery fully once a month to maintain its health.
  - Do not store the battery in extreme temperatures.
- **Inspection:** Periodically check all screws, nuts, and connections to ensure they are tight. Inspect wheels for wear and tear.
- **Storage:** Store the vehicle in a dry, covered area away from direct sunlight and moisture.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Vehicle does not move or has low power.	Battery is not charged. Battery connection is loose. Battery is old or damaged. Motor issue.	Charge the battery for 8-12 hours. Check and secure battery terminals. Contact customer support for battery replacement. Contact customer support.
