boAt PB400 Pro

boAt Energyshroom PB400 Pro 20000mAh Power Bank User Manual

Model: PB400 Pro

INTRODUCTION

The boAt Energyshroom PB400 Pro is a compact and powerful 20000mAh power bank designed to provide portable charging for your electronic devices. Featuring 22.5W fast charging, multiple output ports, and advanced safety protections, it ensures your smartphones, tablets, earbuds, and smartwatches remain powered throughout your day. This manual provides essential information for the safe and efficient use of your power bank.

IMPORTANT SAFETY INFORMATION

Please read and understand all safety instructions before using this product. Failure to follow these instructions may result in fire, electric shock, or injury.

- Do not expose the power bank to extreme temperatures, direct sunlight, or high humidity.
- Avoid dropping, puncturing, or disassembling the device.
- Keep away from children.
- Use only certified charging cables and adapters.
- Do not operate if the power bank is damaged.
- Dispose of the power bank responsibly according to local regulations.

PACKAGE CONTENTS

Verify that all items are present in your package:

- boAt Energyshroom PB400 Pro 20000mAh Power Bank
- USB Charging Cable
- User Manual (this document)

PRODUCT OVERVIEW

The boAt Energyshroom PB400 Pro is designed for portability and efficiency. Its compact form factor makes it easy to carry, while its robust features ensure reliable power delivery.

Key Features:

- **20000mAh Capacity:** High-capacity Lithium Polymer battery for extended charging.
- **22.5W Fast Charging:** Supports Quick Charge 3.0, Power Delivery, and PPS protocols for rapid charging of compatible devices and the power bank itself.
- **Triple Output Ports:** Includes one Type-C (2-way) port and two USB-A output ports for simultaneous charging of multiple devices.
- **Pass-Through Charging:** Allows charging of connected devices while the power bank itself is being recharged.
- **12-Layer Smart IC Protection:** Comprehensive safety features against short-circuit, overcharging, and over-discharging.
- **Durable Design:** Crafted with an aluminum casing for enhanced durability and resistance to high temperatures and scratches.

SETUP

Initial Charging of the Power Bank:

Before first use, it is recommended to fully charge your boAt Energyshroom PB400 Pro power bank.

1. Connect the provided USB charging cable to the Type-C input port on the power bank.
2. Connect the other end of the cable to a compatible USB wall adapter (not included) or a computer's USB port.
3. The LED indicators on the power bank will illuminate to show the charging status. All indicators will be solid when fully charged.

OPERATING INSTRUCTIONS

Charging Your Devices:

The power bank features one Type-C (2-way) port and two USB-A output ports to charge your devices.

1. Connect your device's charging cable to one of the available output ports (USB-A or Type-C) on the power bank.
2. Connect the other end of the cable to your device.
3. The power bank will automatically begin charging your device. If not, press the power button once to initiate charging.
4. The LED indicators will show the remaining battery level of the power bank.

Recharging the Power Bank:

To recharge the power bank, use the Type-C input port.

1. Connect the USB charging cable to the Type-C port on the power bank.
2. Connect the other end of the cable to a power source, such as a wall adapter or computer.
3. The LED indicators will flash to show the charging progress. All LEDs will be solid when fully charged.

SUPPORTS 2-WAY 22.5W Fast Charge

Quick Charge 3.0, Power Delivery & PPS

Image: The boAt Energyshroom PB400 Pro power bank, highlighting its capability for 2-way 22.5W fast charging, including Quick Charge 3.0, Power Delivery, and PPS support.

Pass-Through Charging:

The boAt Energyshroom PB400 Pro supports pass-through charging, allowing you to charge your devices while the power bank itself is being recharged. Simply connect the power bank to a power source and then connect your device to the power bank's output port. Both will charge simultaneously.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your power bank.

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the power bank. Do not use liquid cleaners or aerosols.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** For optimal battery health, fully charge and discharge the power bank at least once every three months if not in regular use.
- **Durability:** The aluminum casing provides resistance to high temperatures and scratches, but avoid intentional damage.

TROUBLESHOOTING

If you encounter issues with your power bank, refer to the following common solutions:

- **Power Bank Not Charging:**

- Ensure the charging cable is securely connected to both the power bank and the power source.
- Try a different charging cable or wall adapter.
- Verify the power source is active.

- **Device Not Charging from Power Bank:**

- Press the power button on the power bank to activate charging.
- Ensure your device's charging cable is securely connected to both the power bank and your device.
- Check if the power bank has sufficient charge.
- Try a different output port or charging cable.

- **Slow Charging:**

- Ensure both the power bank and your device support fast charging protocols (e.g., Quick Charge, Power Delivery).
- Use a high-quality, fast-charging compatible cable.
- Avoid using the device while it is charging.

- **LED Indicators Not Working:**

- The power bank might be fully discharged or fully charged.
- Press the power button to check the status.

Triple Output

Pass-Through Charging

Simultaneously Charge and Discharge the Powerbank
