fezawio A523

fezawio 2025 Android 14 Tablet Instruction Manual

Model: A523

Brand: fezawio

INTRODUCTION

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your new fezawio 2025 Android 14 Tablet. Please read this manual thoroughly to ensure proper use and to maximize the performance and longevity of your device.

The fezawio 2025 Android 14 Tablet is a versatile 2-in-1 device featuring a 10.1-inch HD IPS display, a powerful Octa-core processor, 20GB RAM (6GB physical + 14GB virtual), 128GB ROM (expandable up to 1TB), 5G WiFi 6 connectivity, and a 6000mAh battery. It comes with a keyboard, mouse, and protective case, transforming into a mini-laptop for enhanced productivity.

WHAT'S IN THE Box

- 10.1 inch Tablet
- Premium protective Case
- 3-layer Screen Protector
- Charging Adapter with Type-C Cable
- Bluetooth Keyboard
- Wireless Mouse

Image: All components included with the fezawio tablet.

SETUP

Initial Power On and Setup

- Charge the Tablet:** Before first use, fully charge the tablet using the provided Type-C cable and charging adapter.
- Power On:** Press and hold the power button located on the side of the tablet until the screen lights up.
- Initial Configuration:** Follow the on-screen prompts to select your language, connect to a Wi-Fi network, and set up your Google account.
- Screen Protector:** The tablet comes with a pre-applied screen protector. An additional 3-layer screen protector is included in the box for future use.

Connecting Accessories (Keyboard & Mouse)

The fezawio tablet transforms into a 2-in-1 laptop with the included Bluetooth keyboard and wireless mouse.

1. Bluetooth Keyboard:

- Turn on the Bluetooth keyboard.
- On your tablet, go to **Settings > Connected devices > Pair new device**.
- Select the Bluetooth keyboard from the list of available devices and follow the pairing instructions.

2. Wireless Mouse:

- Open the battery cover of the mouse and insert the required batteries (not included).
- Take out the USB signal receiver from the mouse's battery compartment.
- Connect the provided USB Type-C adapter to the tablet's Type-C port.
- Insert the USB signal receiver into the female end of the adapter. The mouse should now be connected and ready for use.

6000mAh Enduring Battery

With an extra-large 6000mAh battery, you're guaranteed a smooth ride on long hikes, binge-watching movies or long days at work.

MAINTENANCE

Battery Care

The tablet is equipped with a 6000mAh battery for extended use. To prolong battery life:

- Avoid extreme temperatures.
- Do not let the battery completely drain frequently.
- Use the original charging adapter and cable.

Blue light protection

The Tablet PC is equipped with anti - blue light technology, and when you turn on the anti - blue light mode, the screen light becomes soft and comfortable.

Parent Control

Set up with Google's built-in parental controls called Family Link.

Set screen time limit, monitor app usage. Remotely lock devices, see the location of your child's tablet.

Image: 6000mAh enduring battery features.

Screen Protection

The tablet's HD IPS display includes built-in blue light protection. For physical protection, ensure the screen protector is properly applied and use the provided protective case.

Wireless Projection

When linked to the same WiFi, you can cast your screen content to your TV.

TROUBLESHOOTING

If you encounter any issues with your tablet, please refer to the following common troubleshooting steps:

- **Tablet Not Turning On:** Ensure the tablet is fully charged. Connect it to the charger and wait a few minutes before attempting to power it on again.
- **Screen Unresponsive:** If the touchscreen is unresponsive, try restarting the tablet by holding down the power button for about 10-15 seconds until it reboots.
- **Wi-Fi Connectivity Issues:** Check if your Wi-Fi router is working correctly. Restart both the tablet and the router. Ensure you are within range of the Wi-Fi signal.
- **App Crashing/Freezing:** Close the problematic app and reopen it. If the issue persists, clear the app's cache and data in **Settings > Apps**. As a last resort, uninstall and reinstall the app.
- **Slow Performance:** Close unnecessary background apps. Clear cached data regularly. Consider uninstalling apps you no longer use to free up storage space.
- **Factory Reset:** If problems persist, you may need to perform a factory reset. Go to **Settings > System > Reset options > Erase all data (factory reset)**. *Warning: This will erase all data on your tablet. Back up important files before proceeding.*
