2. WHAT'S IN THE BOX

Upon opening your Boult Q Headphones package, you will find the following items:

- Q Headphones
- User Manual
- Type-C Fast Charging Cable
- Warranty Card

3. SETUP GUIDE

3.1 Charging the Headphones

1. Connect the provided Type-C Fast Charging Cable to the charging port on your Boulton Q headphones.
2. Connect the other end of the cable to a compatible USB power adapter (not included) or a computer's USB port.
3. The LED indicator on the headphones will show the charging status. A full charge takes approximately 60 minutes.
4. A 10-minute charge provides up to 10 hours of playtime.

The illustration features two views of the Boulton Q headphones. The top view shows the headphones in an open position, highlighting the large ear cups and the headband with the 'BOULTON' brand name. A battery icon with a lightning bolt is shown next to the text 'upto 70 hours total battery backup'. The bottom view shows the headphones folded, with a line pointing to the hinge mechanism labeled 'foldable design'. To the right of the folded headphones, text states 'Power that lasts for days' and '10 mins charging = 10 hours playtime'.

3.2 Pairing with a Bluetooth Device

1. Ensure your Boulton Q headphones are fully charged.
2. Turn on the headphones by pressing and holding the power button until the LED indicator flashes blue and red, indicating pairing mode.
3. On your device (smartphone, tablet, laptop), go to Bluetooth settings and turn on Bluetooth.
4. Search for available devices and select "Boulton Q" from the list.
5. Once connected, the LED indicator on the headphones will turn solid blue or flash slowly.

6. The headphones support Bluetooth v5.4 for stable and fast connections.

4. OPERATING INSTRUCTIONS

4.1 Basic Controls

The Boulton Q headphones feature easy-to-use controls for managing your audio and calls.

- **Power On/Off:** Press and hold the power button.
- **Play/Pause:** Single press the multi-function button.
- **Volume Up/Down:** Use the dedicated volume buttons.
- **Next Track:** Press and hold the Volume Up button.
- **Previous Track:** Press and hold the Volume Down button.
- **Answer/End Call:** Single press the multi-function button.

- **Reject Call:** Press and hold the multi-function button.
- **Activate Voice Assistant:** Double-press the multi-function button.

Image: Highlights the IPX5 water resistance and voice assistant integration of the headphones.

4.2 EQ Modes

Switch between different EQ modes to optimize your listening experience for various content types:

- **Music Mode:** Balanced sound for general music listening.
- **Movie Mode:** Enhanced bass and treble for cinematic audio.
- **News Mode:** Clearer vocals for podcasts and news.
- **Vocal Mode:** Optimized for vocal clarity.

Refer to the user manual for specific button presses to cycle through EQ modes.

4.3 Wired Connectivity (AUX Option)

For situations where wireless connectivity is not preferred or battery is low, you can use the included 3.5mm AUX cable (if provided) to connect your headphones directly to an audio source.

Image: Depicts the flexibility of using the headphones in both wired and wireless modes.

5. MAINTENANCE AND CARE

- **Cleaning:** Use a soft, dry cloth to clean the headphones. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, store the headphones in a cool, dry place, away from direct sunlight and extreme temperatures. The foldable design allows for compact storage.
- **Water Resistance:** While IPX5 water-resistant, avoid submerging the headphones in water or exposing them to heavy rain. Dry thoroughly if they get wet.
- **Ear Cushions:** The memory foam ear cushions are designed for comfort. Avoid excessive pressure or sharp objects that could damage them.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Headphones not turning on	Low battery	Charge the headphones fully using the Type-C cable.
Cannot pair with device	Headphones not in pairing mode; Device Bluetooth off; Too far from device	Ensure headphones are in pairing mode (flashing blue/red). Turn on Bluetooth on your device. Keep devices within 10 meters.

Problem	Possible Cause	Solution
No sound	Volume too low; Not connected; Incorrect audio output selected on device	Increase volume. Re-pair headphones. Check device's audio output settings.
Poor call quality (ENC Mic)	Excessive background noise; Mic obstructed	Move to a quieter environment. Ensure the microphone is not covered.
