Forget RGB. THINK NEON!

Image: Rear view of the Blaupunkt ATOMIK OMG speaker, displaying the protective flap covering the input ports. These ports typically include USB, TF card slot, AUX-in, and charging port.

Control Panel:

- **Power Button:** Press and hold to turn the speaker ON/OFF.
- **Play/Pause Button:** Press to play or pause audio.
- **Volume Up (+):** Press to increase volume. Hold to skip to the next track.
- **Volume Down (-):** Press to decrease volume. Hold to go to the previous track.
- **Mode Button (M):** Press to switch between Bluetooth, AUX, USB, and TF card modes.
- **Light Button:** Press to cycle through different neon light patterns or turn them off.

Input Ports (located under protective flap):

- **USB Port:** For USB drive playback.
- **TF Card Slot:** For TF (MicroSD) card playback.
- **AUX-in Port:** For connecting external audio devices via a 3.5mm audio cable.

- **Charging Port:** For connecting the charging cable.

SETUP

Initial Charging:

1. Before first use, fully charge the speaker.
2. Connect the charging cable to the speaker's charging port and a suitable USB power adapter (not included).
3. The charging indicator will show the charging status. Once fully charged, the indicator may change or turn off.

OPERATING INSTRUCTIONS

Power On/Off:

- To power on, press and hold the Power button until the speaker indicates it's on (e.g., a sound prompt or lights activate).
- To power off, press and hold the Power button again until the speaker indicates it's off.

Bluetooth Pairing:

1. Turn on the speaker. It will automatically enter Bluetooth pairing mode, indicated by a flashing light or sound prompt.
2. Enable Bluetooth on your mobile device (smartphone, tablet, etc.).
3. Search for "Blaupunkt ATOMIK OMG" in the list of available Bluetooth devices.
4. Select the speaker to connect. Once connected, the speaker will provide an audio confirmation.
5. If prompted for a password, enter "0000".

Auxiliary Input (AUX):

1. Connect one end of the 3.5mm audio cable to the AUX-in port on the speaker.
2. Connect the other end to the audio output jack of your external device.
3. Press the Mode button on the speaker until it switches to AUX mode.
4. Audio will now play through the speaker from your connected device.

USB/TF Card Playback:

1. Insert a USB drive or TF (MicroSD) card into the respective port on the speaker.
2. The speaker will automatically detect the storage device and begin playing audio files.
3. If it does not start automatically, press the Mode button to switch to USB or TF card mode.

True Wireless Stereo (TWS) Pairing:

TWS allows you to pair two Blaupunkt ATOMIK OMG speakers together for a stereo sound experience.

1. Ensure both ATOMIK OMG speakers are powered on and not connected to any Bluetooth device.
2. On one speaker (this will be the primary speaker), press and hold the TWS pairing button (if available, otherwise refer to specific model instructions for TWS pairing, often a dedicated button or a long press of the Mode button).
3. The primary speaker will search for the secondary speaker. Once connected, both speakers will provide an audio confirmation.
4. Now, connect your mobile device to the primary speaker via Bluetooth as described in the "Bluetooth Pairing" section.
5. Audio will play in stereo through both speakers.

Neon Light Modes:

The speaker features multiple neon light patterns to enhance your listening experience.

- Press the Light button to cycle through the available light modes.
- Continue pressing to find your preferred pattern or to turn the lights off.

CHARGING

The Blaupunkt ATOMIK OMG speaker is equipped with four 1800mAh batteries, totaling 7200mAh, providing an average playtime of 12 hours.

1. When the battery is low, the speaker may provide an audio prompt or a visual indicator.
2. Connect the provided charging cable to the speaker's charging port and a standard USB power source (e.g., wall adapter, computer USB port).
3. The charging indicator will illuminate during charging.
4. Charging time may vary. Disconnect the charger once fully charged to preserve battery life.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the speaker. Do not use abrasive cleaners or solvents.
- **Water and Dust Resistance:** The speaker is IPX6 rated, meaning it is protected against high-pressure water jets from any direction and is dust-tight. However, it is not designed for submersion in water. Ensure the protective flap over the ports is securely closed when exposed to water or dust.
- **Storage:** Store the speaker in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the speaker regularly, even if not in use for extended periods.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Speaker does not turn on.	Battery is depleted.	Charge the speaker fully.
Cannot pair via Bluetooth.	Bluetooth is not enabled on device; speaker is already connected to another device; speaker is too far from device.	Ensure Bluetooth is on. Disconnect from other devices. Move speaker closer to your device (within 10 meters). Restart both speaker and device.
No sound from speaker.	Volume is too low; incorrect mode selected; audio cable not fully inserted.	Increase volume on both speaker and connected device. Press Mode button to select correct input (Bluetooth, AUX, USB, TF). Ensure cables are securely connected.
TWS pairing fails.	Speakers are too far apart; one speaker is already connected to a Bluetooth device.	Ensure both speakers are close to each other and not connected to any other device before initiating TWS pairing.
Neon lights are not working.	Lights are turned off; battery is very low.	Press the Light button to activate. Charge the speaker.
