Samsonite UpLIFT Large Checked Hardside Luggage

Samsonite UpLIFT Large Checked Hardside Luggage

INSTRUCTION MANUAL

Product Overview

The Samsonite UpLIFT Hardside luggage is engineered for lightweight durability and ease of travel. Constructed from a specially formulated polycarbonate shell, it offers robust protection without excessive weight. This manual provides essential information for the setup, operation, maintenance, and care of your luggage.

Key Features

- **Innovative Lightweight Durability:** Crafted from a specially engineered polycarbonate shell, this luggage offers exceptional strength without adding extra weight. The ultra-lightweight expandable large size suitcase weighs approximately 8 pounds, facilitating easier handling during travel.

Demonstration of the luggage's lightweight design.

- **Lightweight Handle System:** Features a custom telescopic handle with multiple height adjustments, providing a tailored fit for travelers. The handle is finished with an ergonomic, wipe-clean grip for comfortable and secure handling.

The adjustable telescopic handle system.

- **Effortless Glide with Advanced 360° Suspension Wheels:** Equipped with proprietary suspension wheels, this luggage delivers smooth and stable mobility, even on uneven surfaces. Precision-engineered wheels reduce strain and enhance maneuverability.

Setup

Adjusting the Telescopic Handle

To adjust the handle, press the button located on the top of the handle grip. Extend or retract the handle to your desired height. Release the button to lock the handle in place. Ensure the handle is fully retracted when checking the luggage or storing it.

Setting the TSA Combination Lock

1. The lock is preset to 0-0-0 at the factory.
2. Locate the small reset button (usually recessed and requires a pen tip to press).
3. Press the reset button until you hear a click.
4. Set your desired 3-digit combination by turning the dials.
5. Push the main latch button (where the zipper pulls insert) firmly until you hear a click. This sets your new combination.
6. Test your new combination by scrambling the numbers and then entering your set combination to open the lock.

Important: Remember your combination. Samsonite does not retain personal lock combinations.

Operating Instructions

Packing Your Luggage

Utilize the dual zippered compartments to organize your belongings. Place heavier items at the bottom near the wheels for better balance. Use the internal dividers to separate clothing, shoes, and accessories, keeping contents secure and minimizing shifting during transit.

Using the Spinner Wheels

The 360° spinner wheels allow for effortless movement in any direction. Push or pull the luggage upright, or tilt it to roll on two wheels over rougher surfaces. The suspension system helps absorb shock for a smoother glide.

Maintenance

- **Cleaning the Shell:** Wipe the polycarbonate shell with a soft cloth dampened with mild soap and water. Avoid abrasive cleaners or solvents.
- **Wheel Care:** Periodically check wheels for debris. Remove any hair or lint that may impede smooth rolling. Lubricate axles with a silicone-based spray if wheels become stiff.
- **Handle Care:** Keep the telescopic handle clean and free of obstructions. If it becomes difficult to extend or retract, apply a small amount of silicone lubricant to the telescoping tubes.
- **Zipper Maintenance:** Ensure zippers are free of debris. If they stick, apply a zipper lubricant or rub a graphite pencil along the teeth.

Troubleshooting

- **Lock Not Opening:** Double-check your combination. If forgotten, contact Samsonite customer support for assistance. Do not force the lock.
- **Handle Sticking:** Refer to the 'Handle Care' section under Maintenance. Ensure no items are obstructing the handle mechanism inside the lining.
- **Wheels Not Rolling Smoothly:** Refer to the 'Wheel Care' section under Maintenance. Ensure wheels are not damaged or excessively worn.
- **Zipper Issues:** Refer to the 'Zipper Maintenance' section. Avoid overpacking, which can strain zippers.

Specifications

Feature	Detail
Model Name	UpLIFT Large Checked Hardside Luggage
External Dimensions (with wheels)	28.5in x 19.5in x 12in
Interior Packing Dimensions	27in x 19in x 12in
