Samsonite 152031-5963

Samsonite UpLIFT X-Large Checked Hardside Luggage Instruction Manual

Brand: Samsonite | **Model:** 152031-5963

1. PRODUCT OVERVIEW

The Samsonite UpLIFT X-Large Hardside Luggage is engineered for lightweight durability and ease of travel. Constructed from a specially formulated polycarbonate shell, it offers robust protection for your belongings while remaining exceptionally light. This luggage features advanced spinner wheels, an adjustable handle system, and an integrated TSA-approved lock for enhanced security and maneuverability.

Special Lightweight Polycarbonate Shell Material

CARRY-ON:

22" x 14" x 9"

5.1lbs

LARGE:

28.5" x 19.5" x 12"

8.09 lbs

EXTRA LARGE:

32.4" x 22" x 13.75"

10.69 lbs

2. KEY FEATURES

- **Innovative Lightweight Durability:** Crafted from a specially engineered polycarbonate shell for exceptional strength without added weight.
- **Lightweight Handle System:** Custom telescopic handle with multiple height adjustments and an ergonomic, wipe-clean grip.
- **Effortless Glide with Advanced 360° Suspension Wheels:** Proprietary suspension wheels provide smooth and stable mobility on various surfaces.
- **Enhanced Security with TSA-Approved Lock:** Fully flush-mounted TSA lock mechanism allows secure travel and inspection by authorities without damage.
- **Thoughtful Packing Features:** Designed with dual lining zipper dividers and open layout compartments for efficient organization.

3. SETUP AND INITIAL USE

3.1 Setting the TSA Combination Lock

Your luggage comes with a pre-set combination of 0-0-0. To set your personal combination:

1. Ensure the lock is set to the default 0-0-0 combination.
2. Locate the small reset button (usually a small, recessed button) next to the dials.
3. Using a pen or a pointed object, press and hold the reset button until you hear a click.
4. While holding the reset button, set your desired 3-digit combination by turning the dials.
5. Release the reset button. You should hear another click, confirming your new combination is set.
6. Test your new combination by scrambling the dials and then entering your set code to open the lock.

4. OPERATING INSTRUCTIONS

4.1 Using the Telescopic Handle

The telescopic handle can be adjusted to multiple heights for comfortable maneuvering. Press the button located on the top of the handle to extend or retract it. Ensure the handle is fully extended or retracted until it

locks into place.

Thoughtful Packing Features

Designed with dual lining zipper dividers with open layout compartments for effortless packing.

Figure 3: Demonstrating the adjustable telescopic handle.

4.2 Maneuvering with Spinner Wheels

The 360° spinner wheels allow for effortless movement in any direction. You can push, pull, or glide the luggage alongside you, even in tight spaces. The suspension system helps absorb shock on uneven surfaces.

4.3 Opening and Closing the Luggage

This luggage features a zipperless design for enhanced security. To open, slide the TSA lock mechanism to

the open position. To close, align the two halves of the shell and slide the lock mechanism to the closed position until it clicks securely.

5. PACKING TIPS

The interior of the UpLIFT luggage is designed for optimal organization. Utilize the dual lining zipper dividers to separate items and keep contents secure. The open layout compartments provide ample space for various belongings.

6. MAINTENANCE

- **Cleaning the Shell:** Wipe the polycarbonate shell with a soft, damp cloth and mild soap. Avoid abrasive cleaners.
- **Cleaning the Interior:** Spot clean the interior lining with a damp cloth and mild detergent. Allow to air dry completely.
- **Wheel Care:** Periodically check wheels for debris and clean as needed. Lubricate axles with a silicone-based spray if wheels become stiff.
- **Handle Care:** Keep the telescopic handle clean and free of debris to ensure smooth operation.

- **Storage:** Store luggage in a cool, dry place away from direct sunlight.

7. TROUBLESHOOTING

- **Lock Not Opening:** Ensure the correct 3-digit combination is entered. If forgotten, contact Samsonite support.
- **Handle Sticking:** Check for debris in the handle mechanism. Apply a small amount of silicone lubricant if necessary.
- **Wheels Not Rolling Smoothly:** Inspect wheels for tangled hair or debris. Clean thoroughly.
- **Shell Damage:** For minor scratches, a plastic polish may help. For significant damage, refer to warranty information.
