Safety Information

Operating a motorcycle requires skill and caution. Always wear appropriate safety gear, including a helmet, eye protection, gloves, and protective clothing. Familiarize yourself with all controls before riding. This motorcycle is intended for adult use. Always follow local traffic laws and regulations.

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm (Proposition 65 Warning).

Setup and Assembly

Your HHH 125cc BD125-11 Street Motorcycle requires some assembly upon delivery. It is recommended that assembly be performed by an experienced mechanic or a person with mechanical aptitude.

Included Components:

- 125cc gas powered Street motorcycle for adults
- Front and Rear Disc Brakes
- LED lights (Super bright with a sporty look)
- Title and all documents for registration

Initial Assembly Steps (General Guidance):

1. **Unpacking:** Carefully remove all packaging materials and inspect the motorcycle for any shipping damage.
2. **Handlebar Installation:** Attach the handlebars securely, ensuring all bolts are tightened to manufacturer specifications.
3. **Front Wheel and Fender:** Install the front wheel and fender. Ensure the disc brake caliper is correctly aligned with the rotor.
4. **Battery Connection:** Connect the battery terminals. Ensure correct polarity.
5. **Fluid Checks:** Verify engine oil levels, brake fluid levels, and tire pressure before initial operation.
6. **Fueling:** Fill the fuel tank with appropriate gasoline. Refer to the specifications for fuel type.

Operating Instructions

The HHH 125cc BD125-11 features a manual transmission and an air-cooled single-cylinder four-stroke engine.

Starting the Motorcycle:

1. Ensure the motorcycle is in neutral.
2. Turn the ignition key to the 'ON' position.
3. Engage the choke if the engine is cold.
4. Press the electric start button while holding the brake lever.
5. Once started, allow the engine to warm up before riding. Disengage the choke as the engine warms.

Shifting Gears (Manual Transmission):

This motorcycle has a 4-speed manual transmission.

1. To shift up, close the throttle, pull in the clutch lever, shift the gear pedal up, and then release the clutch lever smoothly while opening the throttle.
2. To shift down, close the throttle, pull in the clutch lever, blip the throttle (briefly open and close), shift the gear pedal down, and then release the clutch lever smoothly.

Braking:

The motorcycle is equipped with front and rear disc brakes for effective stopping power. Apply both brakes smoothly and progressively. Avoid sudden, hard braking, especially at high speeds or on slippery surfaces.

Maintenance

Regular maintenance is crucial for the longevity and safe operation of your motorcycle.

Key Maintenance Areas:

- **Oil Changes:** Perform regular engine oil changes as recommended in the service schedule. Use the specified oil type.
- **Chain Maintenance:** Keep the drive chain clean, lubricated, and properly tensioned.
- **Brake System:** Regularly inspect brake pads, fluid levels, and brake lines for wear or damage.
- **Tire Pressure:** Check tire pressure before each ride. Refer to the specifications for correct pressure values.
- **Air Filter:** Clean or replace the air filter periodically to ensure optimal engine performance.
- **Spark Plug:** Inspect and replace the spark plug as needed.

Troubleshooting

This section provides basic troubleshooting steps for common issues. For complex problems, consult a qualified mechanic.

Engine Not Starting:

- Check fuel level.
- Ensure the ignition key is in the 'ON' position.
- Verify the kill switch is in the 'RUN' position.
- Check battery connections and charge.
- Inspect spark plug for fouling or damage.

Poor Engine Performance:

- Check air filter for clogging.
- Ensure proper fuel quality.
- Inspect spark plug.
- Verify carburetor settings (if applicable).

Brake Issues:

- Check brake fluid level.
- Inspect brake pads for wear.
- Check for air in the brake lines (requires bleeding).
