## Nuwave Brio Plus Air Fryer 8qt

# Nuwave Brio Plus 8 Qt Air Fryer Instruction Manual

Model: Brio Plus Air Fryer 8qt

## 1. INTRODUCTION

---

Thank you for choosing the Nuwave Brio Plus 8 Qt Air Fryer. This appliance is designed to provide a healthier way to cook your favorite foods using advanced Turbo Convection Technology and a PFAS-Free ceramic non-stick coating. This manual provides essential information for safe operation, maintenance, and optimal performance of your new air fryer.

## 2. IMPORTANT SAFEGUARDS

---

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons. Read all instructions before using the appliance.

- Do not touch hot surfaces. Use handles or knobs.
- To protect against electric shock, do not immerse cord, plugs, or main housing in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions or has been damaged in any manner.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Do not use appliance for other than intended use.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off", then remove plug from wall outlet.
- Ensure the basket is properly inserted and locked before operating.

## 3. PRODUCT OVERVIEW

---

The Nuwave Brio Plus 8 Qt Air Fryer features a sleek design with advanced digital controls and a spacious cooking capacity.

It is equipped with a PFAS-Free ceramic non-stick coating for healthier cooking and easy cleanup.

## Key Components:

- **Digital Touch Screen Control Panel:** Intuitive interface for setting temperature, time, and selecting functions.
- **8-Quart Cooking Basket:** Large capacity for family-sized meals.
- **PFAS-Free Ceramic Non-Stick Air Fry Base Tray:** Ensures food doesn't stick and is easy to clean.
- **PFAS-Free Ceramic Non-Stick Circulation Riser:** Promotes even cooking and crisping.
- **Advanced Turbo Convection Technology:** Utilizes a 6-blade 4.5-inch heating fan for rapid and even heat distribution.
- **Linear T Technology:** Monitors and adjusts power to maintain precise temperature for consistent results.

## 4. SETUP

### Unpacking:

1. Carefully remove all packaging materials from the air fryer and its accessories.
2. Check that all components are present: main unit, cooking basket, air fry base tray, and circulation riser.

### Initial Cleaning:

1. Wash the cooking basket, air fry base tray, and circulation riser with warm, soapy water. Rinse thoroughly and dry completely.
2. Wipe the exterior of the main unit with a damp cloth. Do not immerse the main unit in water.

### Placement:

- Place the air fryer on a stable, heat-resistant surface.
- Ensure there is adequate space (at least 6 inches) around the appliance for proper air circulation.
- Plug the power cord into a grounded electrical outlet.

## 5. OPERATING INSTRUCTIONS

---

### Power On/Off:

- To turn on, press the Power button (⏻) on the digital touch screen. The display will illuminate.
- To turn off, press the Power button again. The display will turn off, except for the Power button icon.

Video: Nuwave Brio 8QT Plus Air Fryer How-To Video. This video demonstrates basic operations including power on/off, setting temperature and time, using presets, and other functions.

### Setting Temperature and Time:

- After powering on, the default temperature (350°F) and time (00:15 minutes) will be displayed.
- Use the Up/Down arrows (⬆️) to adjust the temperature (50°F to 400°F in 5°F increments) and time (up to 99 hours and 59 minutes).
- Press the Start/Pause button (⏻) to begin cooking. The colon on the time display will flash.
- To pause cooking, press the Start/Pause button again. The button will flash.
- If the basket is opened during cooking, the unit will automatically pause and display "Open". Cooking will resume automatically once the basket is reinserted.

### 7 One-Touch Cook Functions & 150 Presets:

The Brio Plus offers 7 versatile functions and 150 presets for various cooking needs.

- **Functions:** Air Fry, Bake, Roast, Dehydrate, Toast, Reheat, Preheat.
- **Presets:** 100 preprogrammed recipes and 50 DIY slots. Refer to the included Quick Start Guide and Recipe Book for detailed preset information.
- To select a preset, press the "Preset" button and use the Up/Down arrows to scroll through the options.
- The time and temperature for each preset can be adjusted to your preference.

## Wattage Control:

The Brio Plus features three wattage options (700W, 1500W, 1800W) for flexible use in different electrical environments.

- Press the "Watts" button to cycle through the available wattage settings.
- The selected wattage will remain active even after powering the unit off and on.
- To lock a wattage setting, press and hold the "Watts" button until you hear a beep. Repeat to unlock.

## Preheat Function:

- Preheat is off by default. To enable, press the "Preheat" button and then Start.
- The Preheat indicator and cooking temperature will blink while the unit preheats.
- Once the target temperature is reached, the Brio will beep and show "Ready" on the display, indicating it's time to add food.
- To enable auto-preheat for all cooking cycles, press and hold the "Preheat" button until you hear two beeps.

### **Shake Reminder:**

For even cooking and crisping, the Brio Plus can remind you to flip, turn, or shake your food.

- To activate, set your desired cooking temperature and time, then press the bell icon (🔔) before pressing Start.
- During cooking, the bell icon will flash, and the display may show "FLIP", "TURN", or "SHAKE" at the halfway point.

## Control Panel Lock:

- To lock the control panel, press and hold the "Air Fry" and "Bake" buttons simultaneously until "LOCK" appears on the display.
- When locked, only the Power button will function.
- To unlock, press and hold the "Air Fry" and "Bake" buttons again, or power the unit off and on.

## 6. CLEANING AND MAINTENANCE

---

Regular cleaning ensures the longevity and optimal performance of your Nuwave Brio Plus Air Fryer.

### **Daily Cleaning:**

1. Always unplug the air fryer and allow it to cool completely before cleaning.
2. The cooking basket, air fry base tray, and circulation riser are dishwasher safe. Alternatively, wash them with warm, soapy water and a non-abrasive sponge.
3. Wipe the exterior of the main unit with a damp cloth. Do not use abrasive cleaners or scouring pads.
4. Clean the interior of the air fryer with a damp cloth and mild detergent if necessary. Ensure it is completely dry before next use.

## PFAS-Free Coating Care:

- The Duralon Blue G10 Ceramic Coating is designed to be durable and non-stick. Avoid using metal utensils that could scratch the surface.
- For stubborn food residue, soak the parts in warm, soapy water for a few minutes before cleaning.

## 7. TROUBLESHOOTING

---

If you encounter any issues with your Nuwave Brio Plus Air Fryer, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in; Power button not pressed.	Ensure the power cord is securely plugged into a grounded outlet; Press the Power button.
Food is not cooked evenly.	Basket overloaded; Food not shaken/turned.	Do not overload the basket; Use the Shake Reminder function or manually shake/turn food halfway through cooking.
White smoke coming from appliance.	Grease/oil residue from previous use; Cooking fatty food.	Clean the basket and tray thoroughly after each use; For fatty foods, add a small amount of water to the bottom of the outer pan to prevent smoke.
Initial odor during first few uses.	Manufacturing residues burning off.	This is normal. Run the air fryer empty for 10-15 minutes at 400°F before first use to burn off any residues. Ensure good ventilation.
Temperature not reaching set point.	Faulty heating element or sensor.	Contact customer support for assistance.
