

Logitech M550

Logitech Signature M550 Wireless Mouse User Manual

Model: M550 | Brand: Logitech

INTRODUCTION

The Logitech Signature M550 mouse is designed for enhanced comfort and productivity, featuring SmartWheel scrolling for versatile navigation. It offers seamless wireless connectivity and silent clicks, making it suitable for various computing environments. This manual provides instructions for setting up, operating, maintaining, and troubleshooting your Signature M550 mouse.

KEY FEATURES

- **SmartWheel Scrolling:** Provides both line-by-line precision and super-fast scrolling, automatically switching modes based on your scrolling speed.
- **Ergonomic Design:** Contoured shape with a soft thumb area and rubber side grips for comfortable use over extended periods.
- **SilentTouch Technology:** Reduces click noise by over 90% compared to standard Logitech mice, creating a quieter workspace.
- **Dual Connectivity:** Connects via Bluetooth Low Energy or the Logi Bolt USB receiver, offering a reliable wireless connection up to 10 meters.
- **Multi-Platform Compatibility:** Works with Windows, macOS, Linux, iPadOS, Android, and is Works With Chromebook Certified.
- **Extended Battery Life:** Up to 24 months of battery life with the included AA battery.
- **Programmable Buttons:** Features 3 programmable buttons for customized functionality.

SETUP

Follow these steps to set up your Logitech Signature M550 mouse:

1. **Insert Battery:** Open the battery compartment on the underside of the mouse and insert the included AA battery, ensuring correct polarity.
2. **Power On:** Turn on the mouse using the On/Off switch located on the bottom.
3. **Choose Connection Method:**

- **Logi Bolt USB Receiver:** Plug the Logi Bolt USB receiver into an available USB port on your computer. The mouse should connect automatically.
- **Bluetooth:**
 - a. Press and hold the Easy-Switch button on the bottom of the mouse until the LED light starts blinking rapidly, indicating pairing mode.
 - b. On your computer or device, go to Bluetooth settings and select "Logitech M550" from the list of available devices to pair.

4. **Install Software (Optional):** For advanced customization of buttons and SmartWheel settings, download and install the Logitech Options+ software from the official Logitech website.

OPERATING INSTRUCTIONS

The Logitech Signature M550 mouse is designed for intuitive use. Here are some key operational aspects:

- **SmartWheel Scrolling:** The scroll wheel automatically switches between line-by-line precision and hyper-fast scrolling. Scroll slowly for precise control, or flick the wheel for rapid navigation through long documents or web pages.
- **Left and Right Clicks:** Standard left and right click functionality. The SilentTouch technology ensures minimal noise during clicks.
- **Programmable Buttons:** The mouse features additional buttons that can be customized using the Logitech Options+ software. This allows you to assign specific functions, shortcuts, or gestures to these buttons for increased productivity.
- **Multi-Device Switching:** If you have paired the mouse with multiple devices using Bluetooth, use the Easy-Switch button on the bottom of the mouse to quickly switch between connected devices.

90% LESS CLICKING NOISE

Figure 3: Experience 90% Less Clicking Noise.

MAINTENANCE

- **Cleaning:** Use a soft, lint-free cloth slightly dampened with water or an electronics cleaner to wipe the surface of the mouse. Avoid using harsh chemicals or abrasive materials.
- **Battery Replacement:** The mouse uses one AA battery. When the battery indicator light (if present) signals low power, or if performance degrades, replace the battery. The battery compartment is located on the underside of the mouse.
- **Storage:** When not in use for extended periods, turn off the mouse to conserve battery life. Store in a cool, dry place away from direct sunlight.

TROUBLESHOOTING

Problem	Possible Solution
---------	-------------------

Problem	Possible Solution
Mouse not responding	<ul style="list-style-type: none">• Ensure the mouse is turned on.• Check battery level and replace if necessary.• For Logi Bolt, ensure the receiver is securely plugged into a working USB port. Try a different USB port.• For Bluetooth, ensure Bluetooth is enabled on your device and the mouse is paired. Try re-pairing the mouse.• Move the mouse closer to the receiver/device to reduce interference.
Cursor movement is erratic or jumpy	<ul style="list-style-type: none">• Clean the optical sensor on the bottom of the mouse.• Use the mouse on a clean, non-reflective surface. Avoid glass or highly reflective surfaces.
Cannot connect via Bluetooth	<ul style="list-style-type: none">• Ensure the mouse is in pairing mode (blinking LED).• Remove "Logitech M550" from your device's Bluetooth list and try pairing again.• Restart your computer/device's Bluetooth.• Ensure your device supports Bluetooth Low Energy.
