Hiseeu WK-12V-8HB315-CT

Hiseeu 12-inch LCD Monitor Integrated NVR Wireless Security Camera System (5MP, 8-Camera Set, 3TB HDD) Instruction Manual

Your comprehensive guide to setting up, operating, and maintaining your Hiseeu wireless security camera system.

INTRODUCTION

Thank you for choosing the Hiseeu 12-inch LCD Monitor Integrated NVR Wireless Security Camera System. This system provides high-resolution 5MP video, two-way audio, and advanced AI motion detection for comprehensive indoor and outdoor surveillance. This manual will guide you through the installation, configuration, and operation of your new security system.

The system features a 12-inch LCD monitor integrated with the NVR, offering a compact and convenient setup. With 8 wireless cameras and a built-in 3TB HDD, you can record continuously for over 60 days (with 8 cameras). Remote viewing is available via PC software (EseeCloud) and smartphone app (EseeCloud), allowing you to monitor your property from anywhere.

PACKING LIST

Please check the contents of your package against the list below. If any items are missing or damaged, please contact customer support.

- 1 x 12-inch LCD Monitor Integrated NVR (with 3TB HDD)

SETUP

1. Initial Connection

1. **Connect NVR:** Plug the NVR power adapter into the NVR's DC 12V port and then into a power outlet.

2. **Connect Cameras:** Plug each camera's power adapter into the camera's power input and then into a power outlet. The cameras will automatically pair with the NVR.

3. **Connect Mouse:** Plug the USB mouse into one of the NVR's USB ports.

4. **Optional: Connect to Router for Remote Viewing:** Connect the NVR to your home router using the provided LAN cable. This is necessary for remote access via the mobile app or PC software.

5. **Optional: External Display:** If you wish to use an external monitor or TV, connect it to the NVR via the HDMI or VGA port.

2. Initial System Configuration

Once powered on, the NVR will boot up. Follow the on-screen wizard for initial setup:

1. **Language Selection:** Select your preferred language (e.g., English). The system may restart.
2. **Password Setup:** Set a strong password for the 'admin' user.
3. **Network Configuration:** If connected to a router, the NVR will attempt to obtain an IP address automatically.
4. **Camera Search:** The NVR will automatically search for and connect to the wireless cameras. This may take a few moments.

OPERATING THE SYSTEM

1. Live View and Recording

- **High-Resolution Display:** The 5MP cameras provide 1920P ultra-high-definition video, ensuring clear and detailed images day and night.

- **Recording Modes:** The system supports continuous recording, scheduled recording, and motion-triggered recording. You can configure these settings via the NVR interface.

- **H.265+ Compression:** Advanced H.265+ video compression technology saves more than twice the storage space compared to H.264, allowing for longer recording times on the 3TB HDD.
