K&F CONCEPT JPSKU.2318-US

K&F Concept JPSKU.2318-US 2-in-1 Electric Air Duster and Suction Blower User Manual

Model: JPSKU.2318-US

Introduction

Thank you for choosing the K&F Concept JPSKU.2318-US 2-in-1 Electric Air Duster and Suction Blower. This device is designed for efficient and versatile cleaning, offering both powerful blowing and suction capabilities. It features a high-performance brushless motor, stepless speed regulation, and a portable design, making it suitable for various applications from electronics to household cleaning.

Product Features

- **Brushless Motor:** Equipped with a three-phase brushless motor for high performance and an extended lifespan of 7-10 years. Achieves a maximum speed of 150,000 RPM and a wind force of up to 180G.
- **2-in-1 Functionality:** Easily switches between blowing and suction modes to meet diverse cleaning requirements.
- **Stepless Speed Regulation:** Allows for precise control over air volume, adapting to different cleaning scenarios.
- **Rechargeable Battery:** Features a built-in 5000mAh large-capacity battery, providing up to 180 minutes of continuous operation on low speed. Supports USB-Type C fast charging up to 10W.
- **Versatile Nozzles:** Includes 6 sets of nozzles/brushes and 5 vacuum cleaning cloths for various applications, such as cleaning laptops, car interiors, cameras, and inflating items.
- **Portable Design:** Compact and lightweight (223.59g, 13.5*10.5*3.5 cm) for easy carrying and comfortable handling. Constructed from durable ABS plastic.

What's in the Box?

Verify that all components are present upon unboxing:

- Main Body of Air Blower
- Vacuum Nozzle
- Inflatable Nozzle
- Long Nozzle
- Short Nozzle
- Dust Collection Cup
- Brush Nozzle

- Multi Language User Manual
- Type-C USB Charging Cable
- Storage Bag
- Vacuum Cleaning Cloths (x5)

Image: An organized display of all items included in the product packaging, clearly labeled.

Setup

Before first use, ensure the device is fully charged. Connect the USB-Type C charging cable to the device and a compatible power source (e.g., adapter, car charger, PC USB port, mobile power bank).

Attaching Nozzles

1. Select the appropriate nozzle for your cleaning task.
2. Align the nozzle with the device's output port (for blowing) or input port (for suction).
3. Gently push and twist the nozzle until it is securely attached.

Operating Instructions

Power On/Off and Mode Selection

- **Blowing Mode:** Press the power button once to start the blowing function.
- **Suction Mode:** Press the power button three times to activate the suction function.
- To turn off the device, press the power button again.

Stepless Speed Control

The device features stepless speed regulation. Use the sliding button on the side of the unit to adjust the airflow intensity. Slide it up for higher speed and down for lower speed, allowing you to customize the power for different cleaning tasks.

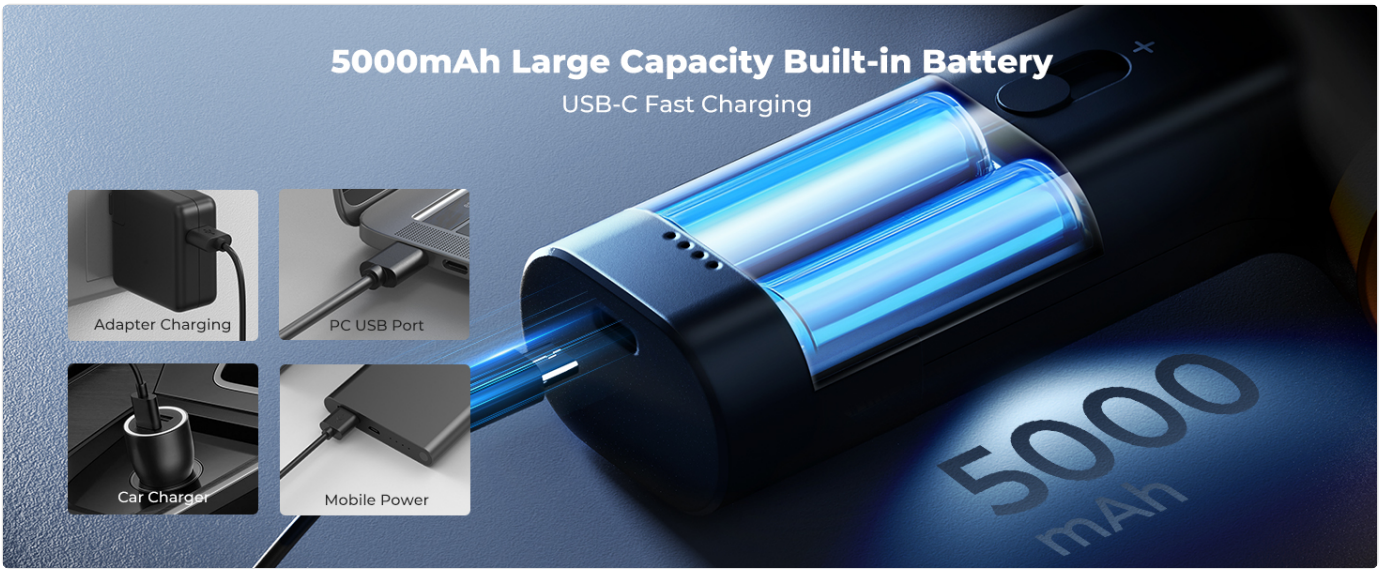

Image: Illustration of the stepless speed control mechanism, demonstrating how to adjust air volume for various scenarios.

Application Examples

- **Electronics:** Use the long nozzle for keyboards, computer components, and camera lenses.
- **Automotive:** Clean car interiors, vents, and hard-to-reach areas.
- **Household:** Dust furniture, window gaps, and inflate swimming rings or air mattresses.
- **Outdoor:** Clear fallen leaves or assist with starting fires for picnics.

Image: Examples of the 6 replaceable nozzles in use across various applications, including car interiors, keyboards, cameras, and inflatable items.

Maintenance

Cleaning the Dust Collection Cup

When using the suction function, regularly empty and clean the dust collection cup to maintain optimal performance. To clean, detach the cup, discard collected debris, and rinse with water if necessary. Ensure it is completely dry before reattaching.

Cleaning the Device and Nozzles

Wipe the main body of the air duster with a soft, dry cloth. The nozzles can be cleaned with a damp cloth or rinsed with water. Ensure all parts are dry before storage or next use.

Battery Care

To prolong battery life, avoid fully discharging the device frequently. Charge the device using the provided USB-Type C cable and a compatible charger. Store the device in a cool, dry place when not in use for extended periods.

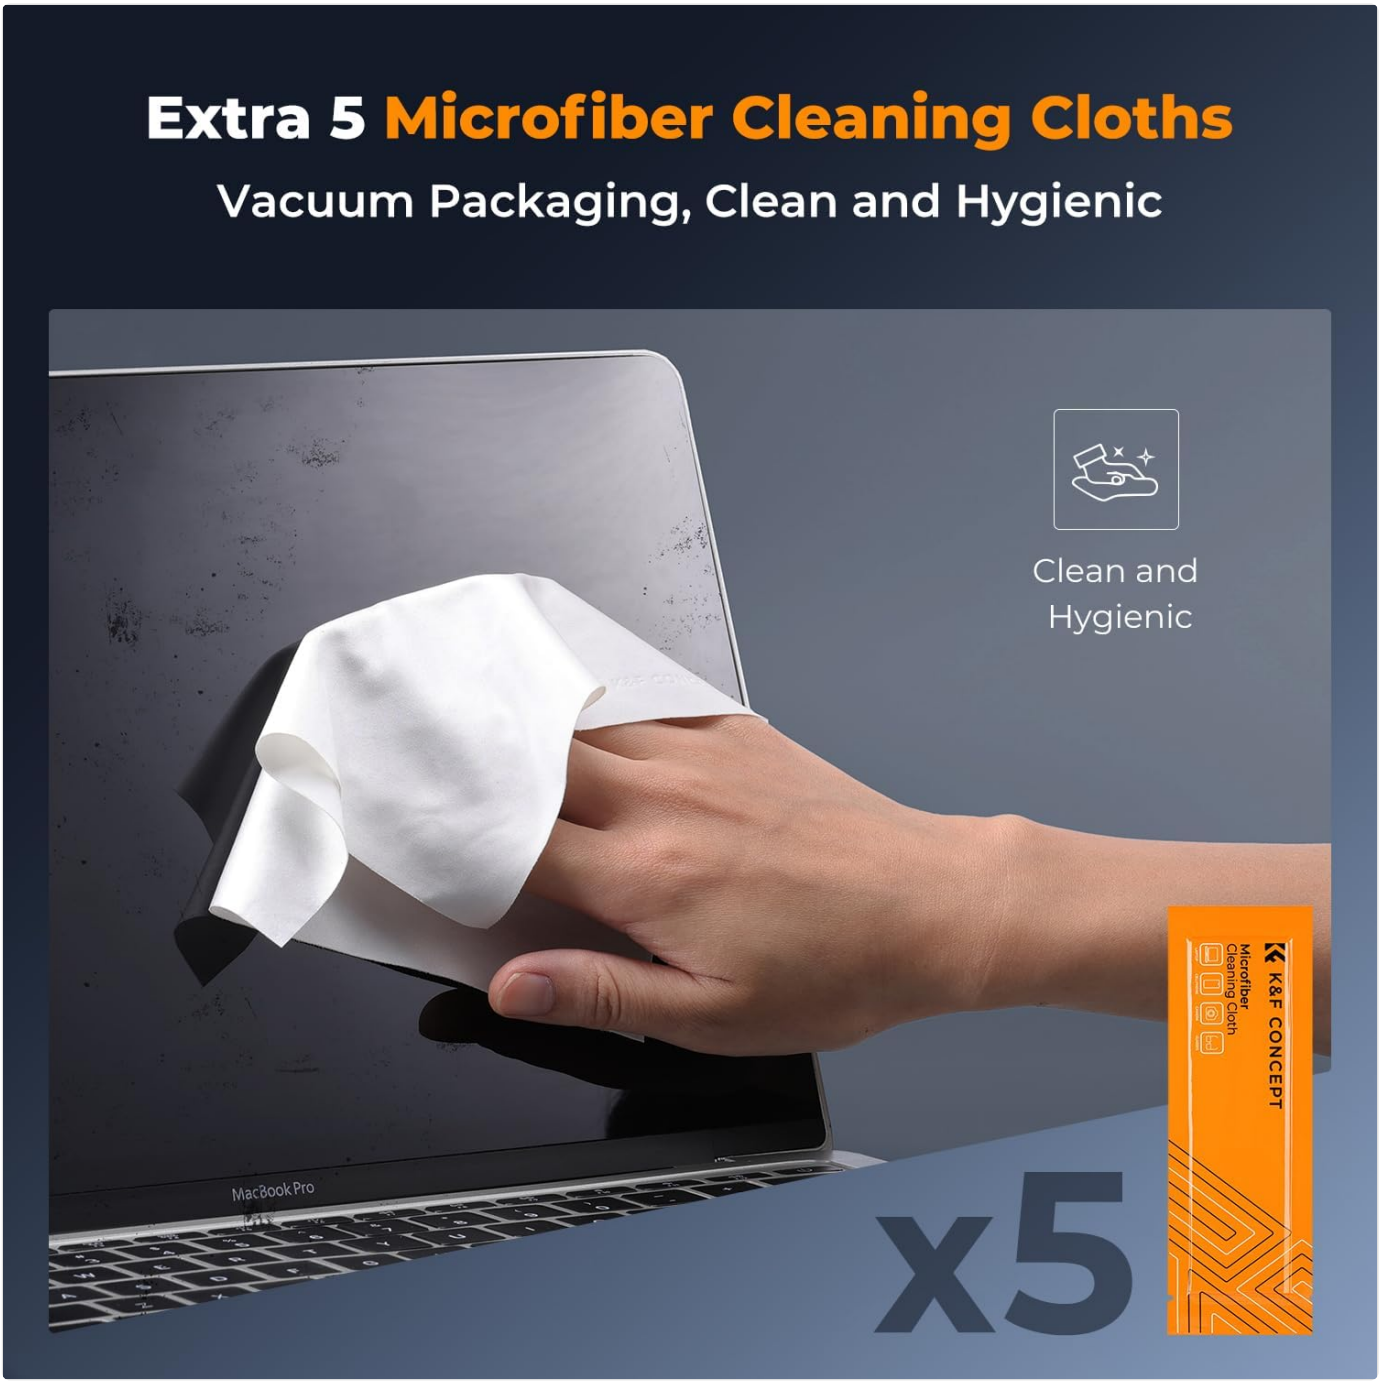

Image: Microfiber cleaning cloths provided for maintaining cleanliness of surfaces after dusting.

Troubleshooting

- **Device not turning on:** Ensure the battery is charged. Connect the device to a charger and wait a few minutes before attempting to power on again.
- **Weak airflow/suction:** Check if the nozzle is securely attached. For suction mode, ensure the dust collection cup is not full and is properly installed. The battery level might also affect performance; recharge if necessary.
- **Battery not charging:** Verify that the USB-Type C cable is correctly connected to both the device and the power source. Try a different charging cable or power adapter.

- **Unusual noise or vibration:** Discontinue use immediately. Check for any obstructions in the air intake or output ports. If the issue persists, contact customer support.

Specifications

Feature	Detail
Brand	K&F CONCEPT
Model Number	JPSKU.2318-US
Motor Type	Three-phase Brushless Motor
Max Rotation Speed	150,000 RPM
Max Wind Speed	54 m/s
Wind Force	Up to 180G
Battery Capacity	5000mAh Lithium Ion
Continuous Working Time (Low Gear)	Up to 180 minutes
Charging Port	USB-Type C
Max Charging Power	10W (5V=2A)
Item Weight	10 ounces (283.5g)
Product Dimensions	13.5 x 10.5 x 3.5 cm (5.3 x 4.1 x 1.4 inches)
Material	ABS Plastic

Safety Information

- Keep out of reach of children.
- Do not point the air duster directly at eyes or sensitive body parts.
- Avoid operating the device in wet conditions or near flammable liquids/gases.
- Do not disassemble or attempt to repair the device yourself. Contact qualified personnel for service.
- Use only the provided charging cable and compatible power adapters.
- Do not block the air intake or output vents during operation.

Warranty and Support

K&F Concept products are designed for reliability and performance. For warranty information, technical support, or service inquiries, please refer to the contact details provided in the multi-language user manual included with your product or visit the official K&F Concept website.
