› ZERTRAN ZT-V2108C Android Car Stereo User Manual for Mitsubishi ASX (2010-2015)

ZERTRAN ZT-V2108C

ZERTRAN ZT-V2108C Android Car Stereo User Manual

For Mitsubishi ASX Models (2010-2015)

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your ZERTRAN ZT-V2108C Android Car Stereo. This 10-inch touchscreen head unit is designed for Mitsubishi ASX models from 2010 to 2015, offering features such as CarPlay, Android Auto, FM Radio, GPS Navigation, and support for a backup camera.

COMPATIBILITY AND IMPORTANT NOTES

Before installation, carefully compare your car's dashboard with the provided images to ensure compatibility. It is crucial to select the correct unit for your specific vehicle configuration.

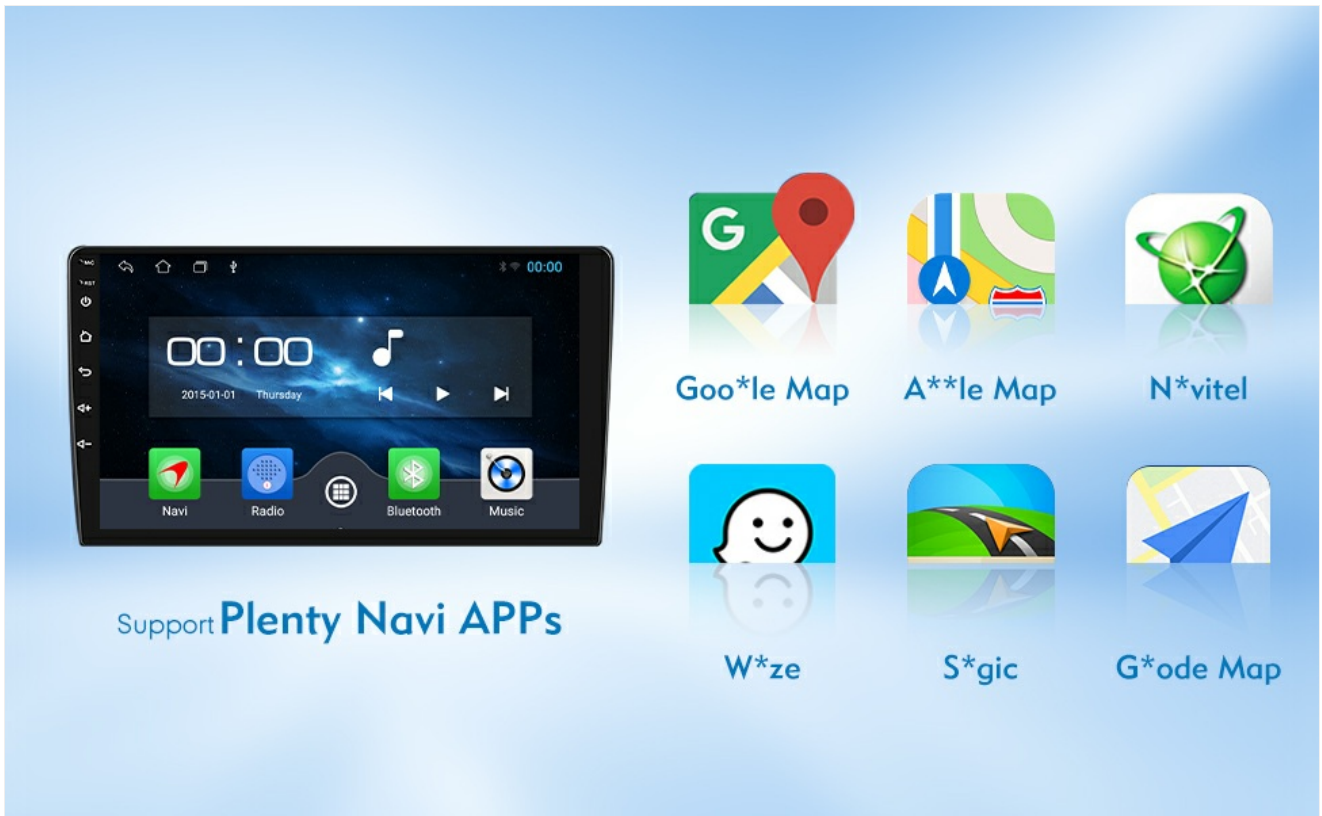

Image: Comparison of different Mitsubishi ASX dashboard configurations. The image highlights the correct and incorrect dashboard types for this stereo unit, emphasizing the need to choose the appropriate model.

Amplifier System Note: If your original car radio displays a "Rockford" logo or a colorful screen, your vehicle may be equipped with an extra amplifier. In such cases, you might need to purchase an additional CANBUS decoder to activate the audio system. Without this, you may not hear any sound from the new stereo. Please contact the seller for assistance if your car has this amplifier system.

SETUP AND INSTALLATION

Installation of the ZERTRAN ZT-V2108C car stereo involves connecting the main unit, power cables, RCA wire harness, camera input, USB cables, and GPS antenna. Professional installation is recommended to ensure correct wiring and functionality.

Package Contents

Verify that all components are present in the package:

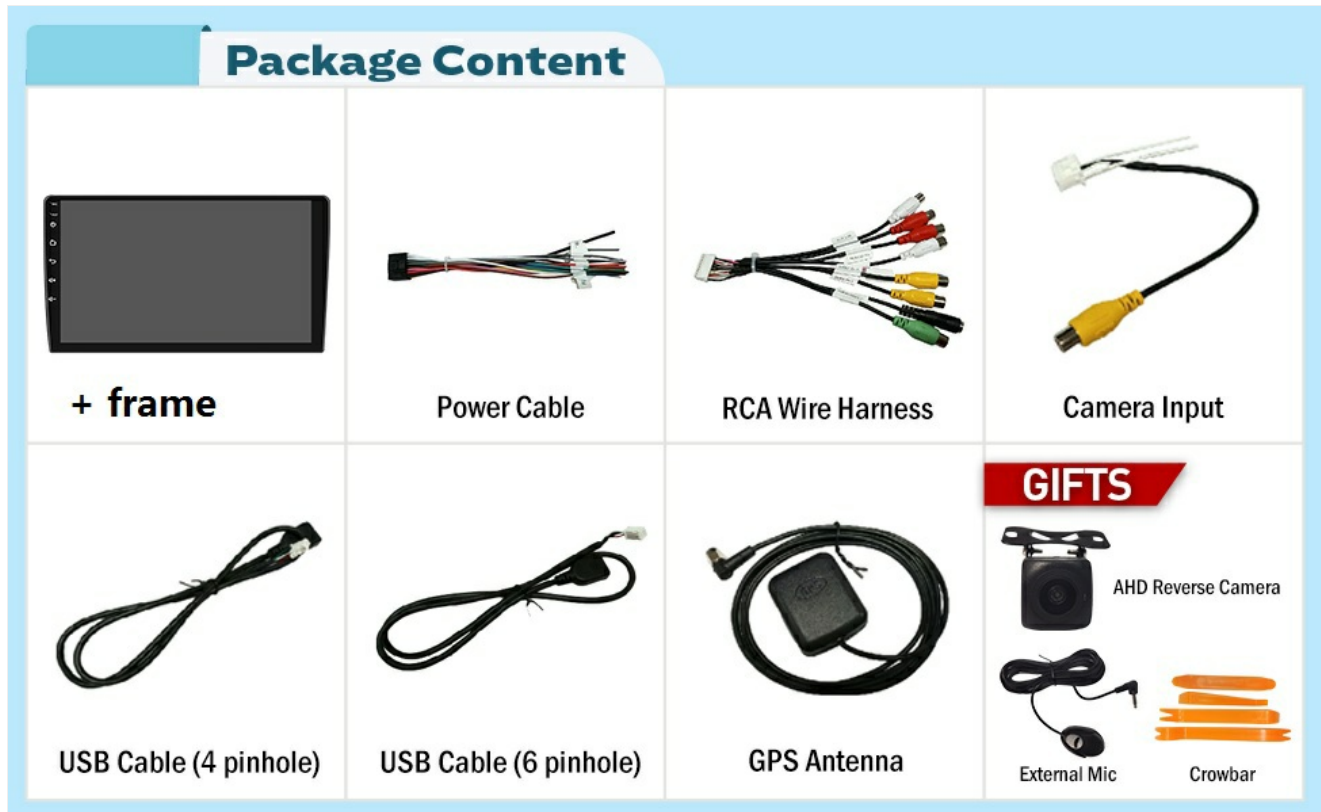

Image: An overview of the package contents, including the main unit with frame, power cable, RCA wire harness, camera input cable, USB cables (4-pin and 6-pin), GPS antenna, AHD reverse camera, external microphone, and crowbar.

- Main Unit + Frame
- Power Cable
- RCA Wire Harness
- Camera Input Cable
- USB Cable (4-pin)
- USB Cable (6-pin)
- GPS Antenna
- AHD Reverse Camera (Gift)
- External Microphone (Gift)
- Crowbar Tools (Gift)

Wiring Connections

Connect the power cable to your vehicle's wiring harness. Ensure all RCA connections for audio and video are correctly routed. The camera input cable connects the included reverse camera to the head unit. The GPS antenna should be mounted in a location with a clear view of the sky for optimal signal reception. USB cables provide connectivity for external devices and data transfer.

OPERATING INSTRUCTIONS

1. CarPlay and Android Auto

The stereo supports both Wireless Apple CarPlay and Wireless Android Auto, allowing seamless integration with your iOS or Android device. Connect via USB or Bluetooth for access to navigation, music, calls, and messages directly on the car stereo screen. Voice assistants can be used to control functions, enhancing safety by minimizing driver distraction.

8. Other Functions

- **Bluetooth (BT):** For hands-free calling and audio streaming.
- **Video Playback:** Enjoy various video formats on the 10-inch display.
- **Music Playback:** Play music from various sources, including USB, Bluetooth, and installed apps.
- **App Expansion:** Based on the Android system, the unit allows for the installation of user-friendly applications, expanding its capabilities beyond standard OEM equipment.

MAINTENANCE

To ensure the longevity and optimal performance of your ZERTRAN car stereo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the touchscreen and exterior. Avoid abrasive cleaners or solvents that could damage the screen or finish.

- **Software Updates:** Periodically check for software updates provided by ZERTRAN to ensure the system runs efficiently and has the latest features and security patches. Connect to Wi-Fi to download updates.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.

TROUBLESHOOTING

If you encounter issues with your car stereo, consider the following basic troubleshooting steps:

- **No Power:** Check all power connections and fuses. Ensure the unit is properly seated in its harness.
- **No Sound:** Verify speaker connections. If your car has an amplifier (e.g., Rockford Fosgate), ensure the CANBUS decoder is correctly installed and configured. Check volume levels and mute settings.
- **Touchscreen Unresponsive:** Try restarting the unit. If the issue persists, a factory reset might be necessary (note: this will erase personal settings).
- **GPS Signal Issues:** Ensure the GPS antenna is securely connected and mounted in a location with a clear view of the sky, away from obstructions.
- **CarPlay/Android Auto Connection Problems:** Ensure your phone's Bluetooth and Wi-Fi are enabled. Try reconnecting the device. Update your phone's operating system and the stereo's software if available.

For persistent issues or complex problems, please refer to the warranty and support section to contact ZERTRAN customer service.
