# Cumrige Self Cleaning Litter Box Instruction Manual

Model: M2

## 1. INTRODUCTION

Thank you for choosing the Cumrige Self Cleaning Litter Box. This automatic litter box is designed to provide a clean and convenient solution for cat owners, ensuring a fresh environment for your feline companion. Please read this manual thoroughly before operation to ensure proper use and maintenance.

### Key Features:

- **Cat Safety Priority:** Advanced sensors detect your cat's presence, pausing cleaning cycles for their safety.
- **Large Drum Capacity:** 95 L roller capacity suitable for cats weighing 2.2 to 33 lbs.
- **Extended Waste Bin Capacity:** 15 L waste bin lasts up to 15 days, compatible with clump litter types.
- **Quieter Operation:** Designed for whisper-quiet performance, ensuring undisturbed rest for both you and your cat.
- **Effortless Cleanup & Odor Control:** Deodorizing design prevents leakage and odors, maintaining a pristine and fresh living space.
- **Smart APP Control:** Manage hygiene remotely with the Tuya Smart APP, offering automatic cleaning, one-touch waste disposal, litter changes, and health tracking. Compatible with 2.4G WiFi only.

## 2. IMPORTANT SAFETY INSTRUCTIONS

**Please follow these instructions strictly to ensure safe operation and prevent injury to your pet or damage to the unit:**

1. Use the original power cord and adapter to avoid damage and safety hazards.
2. Turn off the power before cleaning and disassembling. Do not soak or clean the base and circuit parts with water.
3. Place the product on a stable, flat surface. Do not place it on a high surface to avoid fall hazards.
4. Not suitable for kittens under 3 months of age. Make sure pets are properly guided when using it and prevent them from chewing on the cord.
5. The self-cleaning cat litter box is only for cats over 2.2 lbs (1 kg) and it is recommended that cats do not exceed a maximum weight of 33.1 lbs (15 kg).
6. Please do not tilt the machine while it is in operation.
7. Please do not stack any objects on the top cover, otherwise it will affect the normal operation of the machine.
8. Do not put your hands into the rolling mechanism while the machine is running.
9. Do not switch between cleaning and emptying tasks; you must wait until the current task is completed.
10. Failure to follow safety guidelines may result in accidental injury to your pet.

## 3. SETUP GUIDE

### 3.1 Unpacking and Placement

Carefully remove all components from the packaging. Place the Cumrige Self Cleaning Litter Box on a firm, level surface in a location accessible to your cat and near a power outlet. Ensure there is enough space around the unit for proper operation and maintenance.

Image: The Cumrige Self Cleaning Litter Box in a home setting, showcasing its design and the accompanying mobile application interface.

### 3.2 Adding Litter

Open the top cover of the litter box. Fill the drum with clumping cat litter, ensuring it reaches the indicated fill line. The 95L drum capacity is designed for optimal performance with various clumping litter types.

# EXTRA LARGE CAPACITY

Great for cats weighing 2.2-33lbs

Image: Diagram illustrating the extra-large capacity of the Cumrige litter box, including its 95L drum and 15L waste bin, along with overall dimensions.

## 3.3 Power Connection

Connect the provided power adapter to the litter box and plug it into a wall outlet. The unit will power on and perform an initial calibration cycle.

## 3.4 App Connection (Tuya Smart APP)

Download the Tuya Smart APP from your device's app store. Follow the in-app instructions to connect your Cumrige litter box. Please note that the app only supports 2.4G WiFi band connectivity.

# Smart APP Remote Control Say goodbye to tedious

Intelligent Health Monitoring at Your Fingertips

Only supports 2.4GHz  
WiFi band connectivity

## 4. OPERATION

### 4.1 Automatic Cleaning Cycle

The Cumrige litter box is equipped with advanced sensors that detect when your cat has used the litter box. After a set delay (configurable via the app), the unit will automatically initiate a cleaning cycle, sifting waste into the enclosed waste bin.

Image: Visual representation of the Cumrige litter box's safety features, including sensors that detect a cat's approach and automatically pause operation to ensure safety.

## 4.2 Manual Cleaning & Emptying

You can initiate a cleaning cycle or empty the waste bin manually using the control panel on the unit or through the Tuya Smart APP. The app also allows for one-touch litter changes.

## 4.3 Health Monitoring

The Tuya Smart APP provides intelligent health monitoring, tracking your cat's usage patterns. It can send alerts for full litter boxes or irregularities, helping you keep track of your cat's well-being.

## 4.4 Quiet Operation

The Cumrige litter box operates at a whisper-quiet level ( $\leq 33\text{dB}$ ), ensuring it does not disturb your household, even during nighttime cleaning cycles.

Image: Illustration demonstrating the low noise level ( $\leq 33\text{dB}$ ) of the Cumrige automatic litter box, ensuring a peaceful environment for both pets and owners.

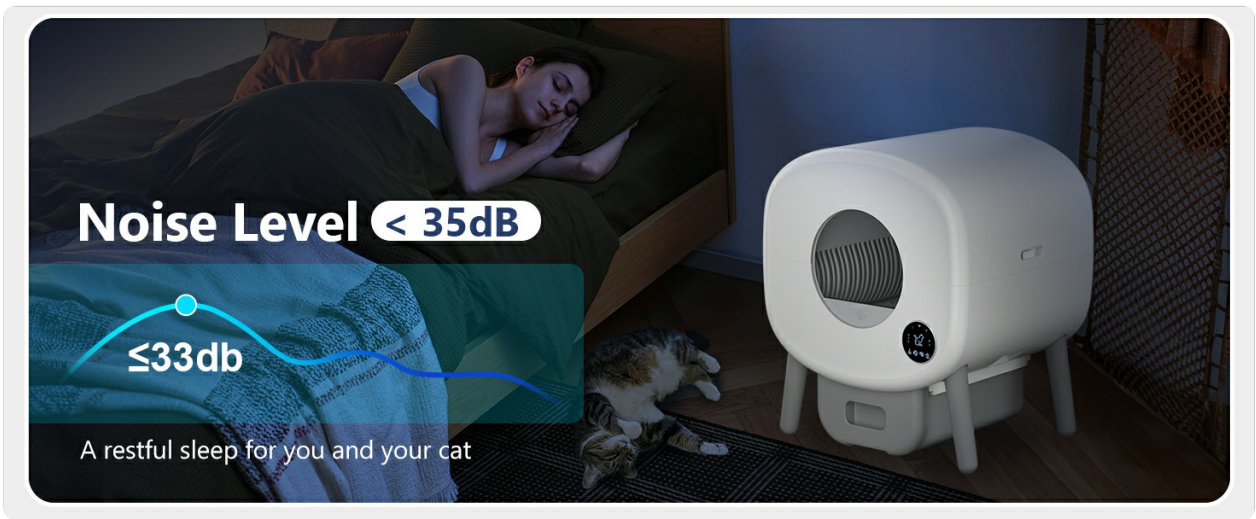

Image: A graphic indicating the low noise level of the Cumrige litter box, stated as less than 35dB, promoting a restful environment.

#### 4.5 Built-in LED Ambient Light

Customize the ambient lighting within your cat's litter box using your smartphone. This feature enhances your cat's toilet experience and can be adjusted to your preference.

## 5. MAINTENANCE

### 5.1 Emptying the Waste Bin

The 15L waste bin should be emptied regularly, typically every 15 days for a single cat, or more frequently for multiple cats. Simply pull out the drawer at the bottom of the unit, dispose of the waste, and replace the liner and bin.

# Free up your hands

Image: A visual representation of the Cumrige litter box's cleaning mechanism, showing how waste is separated and deposited into the lower bin, allowing for easy disposal.

## 5.2 Deep Cleaning

For a thorough cleaning, the unit can be disassembled. Turn off and unplug the device before beginning. The drum and waste bin can be removed for washing. Do not submerge the main base unit or any electrical components in water. Allow all parts to dry completely before reassembly.

## 5.3 Odor Control

The litter box features a deodorizing design to minimize odors. Regular emptying of the waste bin and proper use of clumping litter are key to maintaining a fresh environment. Ensure the waste bin is properly sealed when inserted.

## 6. TROUBLESHOOTING

If you encounter any issues with your Cumrige Self Cleaning Litter Box, please refer to the following common solutions:

- **Unit Not Responding:** Check power connection. Ensure the unit is placed on a stable, flat surface.
- **Cleaning Cycle Not Initiating:** Verify that the waste bin is properly inserted and not full. Check for any obstructions in the drum. Ensure no cat is currently inside or near the unit, as safety sensors will pause operation.
- **App Connectivity Issues:** Confirm your home WiFi is 2.4G. Restart your router and the litter box. Re-attempt the pairing process in the Tuya Smart APP.
- **Unusual Noises:** Ensure the drum is properly seated and there are no foreign objects inside.
- **Odor Persistence:** Empty the waste bin more frequently. Ensure you are using a high-quality clumping litter. Perform a deep clean of the unit.

For persistent issues or technical support, please contact Cumrige customer service.
