Semphis C968

Semphis Baby Bassinet 3-in-1 Bedside Sleeper

Model: C968 | Brand: Semphis

IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before assembly and use of this product. Failure to follow these warnings and instructions could result in serious injury or death.

- Always use the bassinet on a firm, flat, and level surface.
- Do not use the bassinet if any parts are missing, damaged, or broken. Contact Semphis customer service for replacement parts.
- Discontinue use of the bassinet when the infant begins to push up on hands and knees, or has reached the maximum weight of 20 lbs (9 kg) or height of 5 months, whichever comes first.
- To prevent suffocation, do not place additional padding, blankets, or soft bedding under or around the infant. Use only the mattress provided by the manufacturer.
- Keep small parts and packaging materials away from children during assembly.
- Ensure all locking mechanisms are securely engaged before placing the infant in the bassinet.
- When using in bedside sleeper mode, always secure the bassinet firmly to the adult bed using the provided attachment straps. Ensure there is no gap between the bassinet and the adult mattress.
- Do not use the rocking function unattended.
- Never move the bassinet with the infant inside, especially when using the rocking function.

PRODUCT OVERVIEW

The Semphis 3-in-1 Baby Bassinet is designed for versatility and comfort, functioning as a standalone bassinet, a bedside sleeper, and featuring a rocking mode. It includes breathable mesh sides for optimal airflow and visibility, adjustable height settings, and a convenient storage basket.

7. **Check Stability:** Before use, gently shake the assembled bassinet to ensure all connections are secure and the unit is stable.

OPERATING INSTRUCTIONS

1. Standalone Bassinet Mode

In this mode, the bassinet functions as a traditional standalone sleeping space for your baby. Ensure both side panels are fully raised and locked into position. The wheels allow for easy movement between rooms.

The bassinet used in standalone mode, providing a secure sleeping environment.

2. Bedside Sleeper Mode

This mode allows the bassinet to be placed directly next to your bed, providing easy access to your baby. To convert:

1. Lower one side panel by disengaging the locking mechanism (refer to the specific mechanism on your unit, typically a button or lever).
2. Adjust the bassinet height to match your adult bed mattress height (see 'Adjusting Height' section below).
3. Position the bassinet flush against your adult bed.
4. Secure the bassinet to your adult bed using the provided attachment straps. Follow the strap instructions carefully to ensure a tight and secure fit, eliminating any gaps.

Bedside sleeper mode allows for close proximity and easy access to your baby.

3. Rocking Mode

The bassinet can be converted into a rocking cradle to gently soothe your baby. To activate the rocking mode:

1. Ensure the bassinet is in standalone mode with both side panels up and locked.
2. Locate the rocking mechanism on the base of the bassinet legs.
3. Engage the rocking function by rotating the leg supports as indicated by the arrows or locking tabs. This will convert the stationary wheels to curved rocking feet.
4. To return to stationary mode, disengage the rocking function and lock the wheels back into place.

Illustration of the rocking mechanism on the bassinet base.

4. Adjusting Height

The bassinet features adjustable height settings to accommodate different bed heights or to raise/lower the bassinet as needed. To adjust the height:

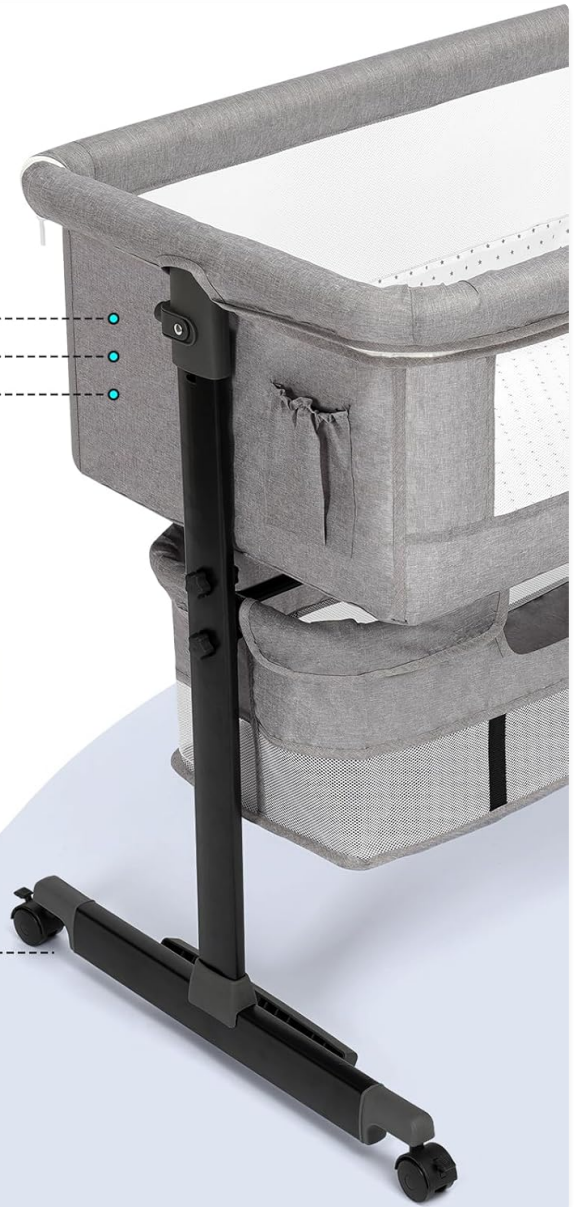

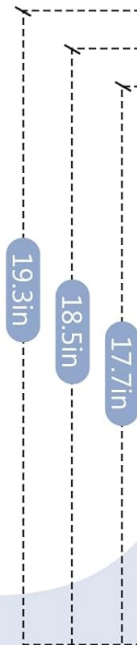

1. Locate the height adjustment buttons or levers on both sides of the bassinet frame.
2. Simultaneously press the buttons/levers and lift or lower the bassinet to the desired height.
3. Ensure both sides are adjusted to the same height and that the locking mechanisms are fully engaged before use.

3 Adjustable Heights

Height Adjustable Button

| Position | Inches |
|----------|--------|
| 1 | 17.7in |
| 2 | 18.5in |
| 3 | 19.3in |

The bassinet offers three adjustable height positions for versatility.

5. Tilt Angle Function

The bassinet can be set at a slight tilt angle (3-8 degrees) which may help with infant reflux or congestion. To adjust the tilt:

1. Adjust one side of the bassinet to a higher setting than the other using the height adjustment mechanism.
2. Ensure the tilt is gentle and within the recommended 3-8 degree range.
3. Always ensure the baby's head is at the higher end of the tilt.

The bassinet can be tilted slightly to assist with infant reflux.

6. Storage Basket

The integrated storage basket provides a convenient space for baby essentials such as diapers, wipes, and small toys. Ensure items are placed securely and do not obstruct the bassinet's stability or airflow.

SPACIOUS STORAGE

Storage for baby's daily essentials

The bassinet features a spacious storage basket for baby's daily essentials.

7. Breathable Mesh and Mosquito Net

The bassinet features breathable mesh sides for optimal air circulation and visibility of your baby. A removable mosquito net is also included to protect your baby from insects. Attach the mosquito net by securing it to the designated points on the bassinet frame.

Breathable Mesh & Mosquito Net

Focus on the safety and breathability of the baby

The breathable mesh sides and optional mosquito net enhance safety and comfort.

CARE AND MAINTENANCE

- **Fabric Components:** The fabric parts of the bassinet should be hand washed only with mild soap and cold water. Do not bleach, tumble dry, or iron. Allow to air dry completely.
- **Frame:** Wipe the metal and plastic frame components with a damp cloth and mild soap. Dry thoroughly. Do not use abrasive cleaners or solvents.
- **Mattress:** The mattress cover can be removed and hand washed. The mattress pad itself can be spot cleaned with a damp cloth and mild soap. Ensure it is completely dry before reinserting.
- **Regular Checks:** Periodically inspect the bassinet for any signs of wear, loose fasteners, or damaged parts. Tighten any loose screws and replace damaged components immediately.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|------------------------------------|------------------------------------|--|
| Bassinet feels unstable or wobbly. | Loose connections; uneven surface. | Ensure all frame connections are securely locked. Place the bassinet on a flat, level surface. |

| Problem | Possible Cause | Solution |
|---|---|--|
| Height adjustment mechanism is stuck. | Buttons not fully pressed; obstruction. | Ensure both height adjustment buttons are pressed simultaneously and fully. Check for any fabric or debris obstructing the mechanism. |
| Rocking mode is not engaging or is stiff. | Mechanism not fully rotated; obstruction. | Ensure the leg supports are fully rotated to engage the rocking feet. Check for any objects blocking the movement. |
| Bassinet does not attach securely to adult bed. | Straps not tightened correctly; incompatible bed frame. | Re-read the bedside sleeper attachment instructions and ensure straps are pulled taut. Verify your adult bed frame is compatible with the attachment system. |
