ULANZI BG-2 Pro

ULANZI BG-2 Pro Battery Handle Grip Instruction Manual

Model: BG-2 Pro

1. PRODUCT OVERVIEW

The ULANZI BG-2 Pro Battery Handle Grip is a versatile accessory designed to provide extended power and enhanced handling for action cameras, mirrorless cameras, and smartphones. It integrates a 5500mAh power bank with 18W Power Delivery (PD) and Quick Charge (QC) capabilities, ensuring fast charging for your devices. Its ergonomic design and 180-degree tilt adjustment offer flexibility and comfort during use.

The ULANZI BG-2 Pro Battery Handle Grip connected to an action camera and a mirrorless camera, demonstrating its use as a power source and grip.

Key Features:

- **Universal Compatibility:** Functions as both a grip and a power bank for various devices, suitable for indoor and outdoor use.
- **Fast Charging:** Features 18W dual-direction fast charging (PD and QC) with a 5500mAh capacity, fully charging in approximately 80 minutes via the Type-C port.
- **Flexible Angles:** The integrated ball head allows for 180° tilt adjustment, providing versatile shooting angles.
- **Universal Mounting:** Equipped with a 1/4" screw mount at the top and a 1/4" threaded hole at the bottom, compatible with most tripods, extension poles, smartphones, cameras, and action cameras.
- **Ergonomic Design:** Lightweight and portable with an anti-slip design for comfortable one-handed grip.

2. SETUP

2.1 Charging the Battery Handle Grip

Before first use, fully charge the ULANZI BG-2 Pro. Connect a compatible USB-C charging cable to the Type-C port on the grip and to an 18W (or higher) power adapter. The LED indicators will show the

charging status. A full charge takes approximately 80 minutes.

18W Dual-Direction Fast Charging

Supporting PD and QC fast charging, this 5500mAh power grip can be fully charged in 80mins with the Type-C port.

2.2 Attaching Your Device

The BG-2 Pro features a universal 1/4" screw mount at the top for attaching cameras, action cameras, or smartphone holders. Secure your device by screwing it onto the mount until snug. Do not overtighten.

Universal 1/4" Mount

Reliable powerhouse for your smartphones, cameras, action cameras. With a 1/4" threaded hole on the bottom, it is suitable for most tripods and extension poles.

2.3 Connecting to Tripods/Extension Poles

A 1/4" threaded hole is located at the bottom of the grip, allowing it to be mounted onto tripods, monopods, or extension poles for increased stability and versatility.

3. OPERATING INSTRUCTIONS

3.1 Using as a Hand Grip

Hold the BG-2 Pro comfortably in one hand. Its anti-slip design ensures a secure grip, making it ideal for handheld shooting and vlogging.

180° Tilt Adjustment

The ball head on the top can be tilt adjusted 180° for flexible angles.

A hand holding the ULANZI BG-2 Pro Battery Handle Grip, emphasizing its lightweight and anti-slip design for comfortable one-handed use.

3.2 Powering Your Devices

Connect your camera, action camera, or smartphone to the BG-2 Pro using a suitable USB cable (USB-A or USB-C output). The grip will automatically begin charging your device. The LED indicators on the grip will show the remaining battery level.

3.3 Adjusting the Tilt Angle

The ball head at the top of the grip allows for 180° tilt adjustment. Loosen the independent locking knob, adjust your device to the desired angle, and then tighten the knob to secure it in place.

3.4 Versatile Applications

The BG-2 Pro can be used in various scenarios, including handheld vlogging, as a mini tripod for stable shots, or as a power source for extended recording sessions.

4. MAINTENANCE

- Keep the device dry. Do not expose it to moisture or rain.
- Clean the exterior with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- Store in a cool, dry place away from direct sunlight and extreme temperatures.
- Avoid dropping or subjecting the grip to strong impacts.

5. TROUBLESHOOTING

- **Device not charging or charging intermittently:**
Ensure you are using a high-quality USB-C cable. Some included cables may be inferior and cause connectivity issues. Try a different, known-good cable.
- **USB-A output issues:**
If experiencing unreliable charging or disconnection with the USB-A port, try using the USB-C output for a more stable connection, especially for power-intensive devices.

- **Action camera (e.g., GoPro Hero 9) stops charging during recording:**

Some action cameras may stop drawing power from external sources when actively recording to prevent overheating or manage power delivery. A common workaround is to remove the camera's internal battery and power the camera directly from the BG-2 Pro. This may require a specialized battery door with a cable pass-through, and will render the camera non-waterproof.

- **Grip not holding a charge:**

Ensure the grip is fully charged using a reliable power source and cable. If the issue persists, contact customer support.

- **Ball head becoming loose:**

Regularly check and tighten the independent locking knob on the ball head to maintain desired angles. If a small hex wrench is required for further tightening, ensure you have the appropriate tool.

6. SPECIFICATIONS

Feature	Detail
Model Number	ULANZI BG-2 Pro
Battery Capacity	5500mAh
Charging Power	18W (PD & QC compatible)
Tilt Adjustment	180°
Mounting Options	Universal 1/4" screw mount (top), 1/4" threaded hole (bottom)
