# Twinkly C9 Bulbs 40 LED RGB Smart Outdoor/Indoor Lights Instruction Manual

Brand: Twinkly | Model: TWC9040STP-GUS

## 1. OVERVIEW

The Twinkly C9 Bulbs are advanced LED string lights designed for both outdoor and indoor use. They feature RGB (Red, Green, Blue) color capabilities, offering over 16 million colors for custom animations and atmospheric lighting. These smart lights are compatible with Alexa and Google Assistant for seamless smart home integration and can be controlled via a dedicated mobile application.

Key features include:

- **Outdoor and Indoor Use:** LED lights suitable for gardens, patios, yards, balconies, and indoor decoration.
- **Mappable LEDs:** Patented technology uses your smartphone's camera and app to map each LED's location, enabling custom effects and animations.
- **Weatherproof Design:** IP44 certification ensures durability and resistance to harsh weather conditions.
- **Customizable Effects:** Offers endless bright color effects with a classic faceted surface and pinecone shape.
- **Smart Control:** Sets up in seconds using the Twinkly app for on/off, dimming, timers, and compatibility with Alexa and Google Assistant.
