Suupvaor B0DFP2N645

Suupvaor 10x Magnifying Mirror with Light - Instruction Manual

Model: B0DFP2N645

Brand: Suupvaor

1. INTRODUCTION

Thank you for choosing the Suupvaor 10x Magnifying Mirror with Light. This compact and versatile mirror is designed to provide enhanced visibility for detailed tasks such as makeup application, shaving, and grooming. Featuring adjustable LED lighting, a powerful 10x magnification, and a rechargeable battery, it is an ideal companion for both home and travel use. Please read this manual carefully to ensure proper use and maintenance of your new mirror.

2. SAFETY INFORMATION

WARNING:

- This product comes with suction cups for mounting. Ensure surfaces are clean and flat for proper adhesion to prevent detachment and potential injury.
- Keep out of reach of children.
- The included grooming scissors are sharp and should be handled with care to avoid injury.
- Do not expose the mirror to excessive moisture or immerse it in water.
- Avoid direct eye exposure to the LED light for prolonged periods.

3. PRODUCT FEATURES

- **10X Magnification:** Ideal for precise facial needs, allowing clear visibility of pores for detailed makeup, shaving, or deep cleaning.
- **Adjustable LED Light:** Provides natural daylight illumination with seamless dimming technology, controlled by

a touch sensor.

- **Rechargeable Battery:** Built-in USB rechargeable battery offers up to 5 hours of use at max brightness per full charge. Type-C charging cable included.
- **Compact & Travel-Ready:** Portable and lightweight design (4x4 inches, 0.15 lbs) makes it easy to store and carry.
- **Suction Cup Mounting:** Equipped with powerful suction cups for secure attachment to smooth, flat surfaces like mirrors or tiles.
- **Premium Grooming Scissors:** Stainless steel scissors included for personal care, facial hair removal, and trimming.

4. PACKAGE CONTENTS

- 1 x Suupvaor 10x Magnifying Mirror with Light
- 1 x Type-C Charging Cable
- 1 x Grooming Scissors
- 3 x Suction Cups (pre-attached to mirror)

Image: Contents of the Suupvaor 10x Magnifying Mirror package, including the mirror, charging cable, and scissors.

5. SETUP

5.1 Charging the Mirror

Before first use, fully charge the mirror. The mirror is equipped with a Type-C charging port.

1. Locate the Type-C charging port on the back of the mirror.
2. Connect the provided Type-C charging cable to the mirror and the other end to a USB power source (e.g., wall adapter, power bank, laptop, car charger).
3. The indicator light will turn red during charging and green when fully charged. A full charge typically takes approximately 2 hours.

RECHARGEABLE DESIGN

The infographic features a large image of the mirror's back with a Type-C charging cable plugged into its port. To the right, a blue box displays 'Charging time 2 Hours' and 'Working time 5 Hours'. Below this, three circular icons represent the indicator lights: a red light for 'Charging' and a green light for 'Fully Charged', with a 'Type C Charging Portry' icon. A coiled USB-C to USB-A cable is shown below the icons. At the bottom, four icons represent power sources: 'Adapter', 'Power Bank', 'Laptop', and 'Car charger'.

Video: Demonstration of the mirror's features, including charging and light dimming. This video shows the mirror rotating, dimming, and the charging process with indicator lights.

5.2 Attaching Suction Cups

The mirror comes with three powerful suction cups for easy mounting on smooth, non-porous surfaces.

1. Ensure the surface (e.g., bathroom mirror, tile, glass) is clean, dry, and smooth.
2. Press each suction cup firmly against the desired surface until it creates a strong seal.
3. To remove, gently lift the edge of each suction cup to break the seal.

Image: The mirror's suction cups and examples of its use in various settings.

6. OPERATION

6.1 Powering On/Off and Adjusting Brightness

The mirror features a touch-sensitive button on its surface to control the LED light.

1. **To Turn On/Off:** Briefly tap the touch sensor button on the mirror's surface.
2. **To Adjust Brightness:** Press and hold the touch sensor button. The light will seamlessly dim or brighten. Release the button when you reach your desired brightness level.

Long Touch to Adjust Brightness

Image: Visual guide for adjusting the mirror's brightness.

6.2 Using the 10x Magnification

The 10x magnification is designed for highly detailed tasks. Due to its concave nature, proper distance is crucial for a clear, undistorted image.

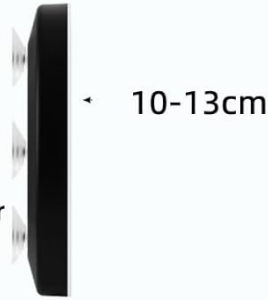

- **Optimal Viewing Distance:** For a clear image, get CLOSE to the mirror (approximately 3-4 inches or 8-10 cm) and focus on the MIDDLE AREA of the mirror.
- If the image appears distorted or upside down, move the mirror closer to your face until the image becomes clear. This is normal for high-magnification concave mirrors and does not indicate a product defect.

Suggestion on the use of distance

5/10X

Perfect choice for **new users**
of tiny detail magnifying mirror

20X

Most popular for **adept users**
for partial makeup/ shaving.

30X

Specially for **professional users** or
the one adapt to powerful mirror.

If your image is blurry, distorted and upside down, please get closer to the mirror.
The mirror itself has no quality problems!

Image: Guide on the suggested use of distance for different magnification levels.

7. MAINTENANCE

- **Cleaning the Mirror:** Use a soft, lint-free cloth to wipe the mirror surface. For stubborn spots, dampen the cloth slightly with water or a mild glass cleaner. Avoid abrasive cleaners or harsh chemicals.
- **Cleaning Suction Cups:** If suction cups lose their grip, wash them with warm, soapy water, rinse thoroughly, and let them air dry.
- **Storage:** Store the mirror in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the mirror frequently. Charge it regularly, even if not in constant use.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on or is dim.	Battery is low or depleted.	Charge the mirror fully using the provided Type-C cable.
Image is blurry, distorted, or upside down.	Incorrect viewing distance for 10x magnification.	Move your face closer to the mirror (3-4 inches) and focus on the center. This is normal for high magnification.
Suction cups do not stick.	Surface is dirty, wet, or porous; suction cups are dirty.	Clean and dry the mounting surface. Clean the suction cups with water and let them air dry. Ensure the surface is smooth and non-porous.
Light flickers or turns off unexpectedly.	Low battery or unstable power connection during charging.	Ensure the mirror is fully charged. Check the charging cable and power source for a secure connection.

9. SPECIFICATIONS

Feature	Detail
Brand	Suupvaor
Model	B0DFP2N645
Magnification	10x
Product Dimensions	4"L x 4"W
Item Weight	2.5 ounces (70.8 Grams)
Material	Glass, Acrylonitrile Butadiene Styrene (ABS)
Power Source	1 Lithium Ion battery (included)
Charging Port	Type-C
Special Features	Small Travel Pocket Size, Lighted, Magnifying
Mounting Type	Wall Mounted, Portable, Handheld

10. WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the product packaging or contact the manufacturer directly through their official website or the platform where the product was purchased. Keep your purchase receipt as proof of purchase.
