anyloop ALB2

anyloop B2 Activity Tracker User Manual

Model: ALB2

INTRODUCTION

Thank you for choosing the anyloop B2 Activity Tracker. This device is designed to help you monitor your health and fitness activities, providing valuable insights into your well-being. Please read this manual carefully to ensure proper use and maintenance of your new activity tracker.

SETUP

Charging the Device

Before first use, fully charge your anyloop B2 Activity Tracker. Connect the magnetic charging cable to the charging

contacts on the back of the watch. Plug the USB end into a standard USB power adapter (5V/1A recommended). A full charge typically takes about 1.5 hours.

Initial Pairing with Your Smartphone

1. Download the **ANYLOOP** app from the App Store (iOS) or Google Play Store (Android).
2. Ensure Bluetooth is enabled on your smartphone.
3. Open the ANYLOOP app and follow the on-screen instructions to create an account or log in.
4. In the app, navigate to the device pairing section and select your anyloop B2 from the list of available devices.
5. Confirm the pairing request on both your watch and smartphone.

The watch will synchronize data with the app once successfully paired.

OPERATING INSTRUCTIONS

Health Monitoring

The anyloop B2 provides continuous monitoring of key health metrics:

- **Heart Rate:** Tracks your heart rate 24/7, providing real-time data and historical trends in the app.
- **SpO2 (Blood Oxygen):** Measures your blood oxygen saturation levels.
- **Sleep Monitoring:** Analyzes your sleep patterns, including deep sleep, light sleep, and awake times, offering insights for better sleep quality.
- **Stress Level:** Monitors your stress levels throughout the day.

Note: The data provided by this device is for reference only and should not be used for medical diagnosis or treatment.

Activity Tracking

The tracker supports various sports modes and records your daily activity:

- **Steps, Distance, Calories:** Automatically tracks your daily steps, distance covered, and calories burned.

- **Sports Modes:** Choose from over 100 different sports modes, including walking, running, swimming, cycling, and more, to get specific workout data.

100+ Sport Modes

Record your exercise data and improve your sport efficiency

Notifications

Receive real-time notifications directly on your wrist:

- **Call Alerts:** Get vibrating alerts for incoming calls.
- **Message Alerts:** Receive notifications for text messages (SMS).
- **App Notifications:** Stay updated with alerts from popular apps like Facebook, Twitter, WhatsApp, and more.

Other Smart Features

Beyond core tracking, the anyloop B2 offers several convenient features:

- **Menstrual Cycle Reminder:** For female users, track and predict menstrual cycles.
- **Breathing Training:** Guided breathing exercises to help reduce stress.
- **Weather Forecast:** Get real-time weather updates.
- **Music Control:** Control music playback on your smartphone.
- **Find Phone:** Locate your misplaced smartphone.
- **Camera Control:** Use your watch as a remote shutter for your phone's camera.
- **Sedentary Reminder:** Alerts you to move after periods of inactivity.

MAINTENANCE AND CARE

Water Resistance (IP68)

The anyloop B2 Activity Tracker is IP68 waterproof, meaning it is resistant to dust and can withstand immersion in water up to 1.5 meters for up to 30 minutes. It is suitable for daily use, including hand washing, rain, and swimming. However, it is not recommended for hot showers, saunas, or diving, as steam and hot water may damage the seals.

Cleaning

To keep your device clean and functioning optimally:

- Wipe the screen and strap regularly with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive cleaners.
- Ensure the charging contacts are clean and dry before charging.

TROUBLESHOOTING

If you encounter issues with your anyloop B2 Activity Tracker, try the following solutions:

- **Device not turning on:** Ensure the device is fully charged. Connect it to the charger for at least 10 minutes.
- **Not connecting to the app:** Check if Bluetooth is enabled on your phone. Restart both the watch and your phone. Ensure the ANYLOOP app is updated to the latest version.

- **Inaccurate health readings:** Ensure the watch is worn snugly on your wrist, about one finger's width from your wrist bone. Clean the sensor on the back of the watch.
- **Notifications not appearing:** Check app notification settings on your phone and within the ANYLOOP app to ensure they are enabled. Ensure the watch is connected via Bluetooth.
- **Short battery life:** Reduce screen brightness, disable unnecessary notifications, and limit continuous heart rate monitoring if not needed.

For persistent issues, please refer to the support section in the ANYLOOP app or contact customer support.

TECHNICAL SPECIFICATIONS

Feature	Specification
Brand	anyloop
Model Number	ALB2
Color	Black
Screen Size	1.58 Inches
Screen Resolution	228 x 460 pixels
