7. Troubleshooting

If you encounter any issues with your bed frame, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Bed frame is wobbly or unstable.	Loose fasteners; uneven assembly.	Check and tighten all screws and bolts. Ensure the frame is on a level surface. Re-check assembly steps.
LED lights are not working.	Power adapter unplugged; loose connection; app/remote issue.	Ensure the power adapter is securely plugged into a wall outlet and the light strips. Check connections. Restart the app or replace remote batteries.
Charging station is not providing power.	Bed frame not plugged into wall outlet; device cable faulty.	Confirm the bed frame's main power cord is plugged into a functional wall outlet. Test with a different device cable.
Storage drawers are difficult to open/close.	Debris in tracks; misaligned wheels.	Clear any obstructions from the drawer wheels and tracks. Ensure drawers are properly aligned.

If the problem persists, please contact DOGIBIXO customer service for further assistance.
