## 5. SETUP

### 5.1 Initial Charging of the Power Bank

Before first use, fully charge your power bank. You can charge the power bank using either the built-in Lightning cable or the Type-C port.

- **Using Built-in Lightning Cable:** Connect the built-in Lightning cable to a compatible USB power adapter (not

included) and plug it into a wall outlet.

- **Using Type-C Port:** Connect a USB-C to USB-C cable (not included) to the power bank's Type-C port and a compatible USB-C power adapter (not included), then plug it into a wall outlet.

The LED display will show the charging progress. Once it reaches 100%, the power bank is fully charged.

## 6. OPERATING INSTRUCTIONS

### 6.1 Charging Your Devices

The B695 power bank offers multiple ways to charge your devices simultaneously.

The power bank supports charging up to 4 devices simultaneously.

- **Wired Charging (USB-A, USB-C, Built-in Cables):**

Connect your device to the power bank using the appropriate cable. The power bank features a USB-A port, a USB-C port, and integrated USB-C and Lightning cables for convenience. The built-in cables are designed to be securely stored when not in use, allowing the power bank to be carried like a bag charm.

The integrated USB Type-C and Lightning cables offer convenient 2-way charging and portability.

- **Wireless Charging (Smartphones):**

Place your Qi-compatible smartphone on the main wireless charging pad. Ensure the phone is centered for optimal charging. The power bank's strong magnetic attraction will hold your device securely during charging.

Powerful magnetic wireless charging securely holds your smartphone, watch, and earphones while charging.

- **Wireless Charging (Apple Watch):**

Place your Apple Watch on the dedicated smaller wireless charging pad.

- **Compatible Devices for Wireless Charging:**

The wireless charging feature supports MagSafe-compatible devices such as iPhone series, Apple Watch series, AirPods, Samsung Galaxy, Huawei, and other Qi-enabled smartphones, earphones, and watches. It can support two devices simultaneously via wireless charging.

## 6.2 Checking Battery Level

The large LED display on the power bank shows the remaining battery percentage at a glance. This allows you to easily monitor the power bank's charge status.

## 7. MAINTENANCE

### 7.1 Cleaning

Wipe the power bank with a soft, dry cloth. Do not use abrasive cleaners or solvents.

### 7.2 Storage

Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures. If storing for an extended period, charge the power bank to about 50-70% every three months to maintain battery health.

## 8. TROUBLESHOOTING

- Power bank not charging:** Ensure the charging cable is securely connected to both the power bank and the power source. Try a different cable or power adapter.

- **Device not charging from power bank:** Ensure the power bank has sufficient charge. Check if the charging cable is properly connected to both the power bank and your device. For wireless charging, ensure your device is Qi-compatible and correctly positioned on the charging pad.
- **Slow charging:** Ensure you are using a fast-charging compatible cable and adapter for the power bank's input. For device output, ensure your device supports the power bank's fast charging protocols (e.g., PD20W).
- **LED display not working:** Press the power button to activate the display. If it remains off, the power bank might be completely discharged or require service.
