

## XWNV 12V AC DC Adaptor Charger

# XWNV 12V AC DC Adaptor Charger for Intempo EE0995 Bluetooth Jukebox User Manual

Model: 12V AC DC Adaptor Charger

## INTRODUCTION

This manual provides essential instructions for the safe and efficient use of your XWNV 12V AC DC Adaptor Charger. Please read this manual thoroughly before operating the device and retain it for future reference. This adaptor is designed to provide a stable power supply for compatible electronic devices, including the Intempo EE0995 Bluetooth Jukebox.

## SETUP

---

1. **Verify Compatibility:** Before connecting, ensure your device requires a 12V DC input and has a compatible round charging port. Refer to your device's specifications.
2. **Inspect the Adaptor:** Check the adaptor and cable for any visible damage. Do not use if damaged.
3. **Connect to Device:** Insert the DC output plug of the adaptor firmly into the charging port of your electronic device.
4. **Connect to Power Outlet:** Plug the AC input prongs of the adaptor into a standard 100-240V AC 50/60Hz wall outlet.
5. **Power On:** Once connected, your device should begin receiving power or charging.

# Charging Port

check the shape of your charging port before purchase.

Round Tip

U53-0

The XWNV 12V AC DC Adaptor Charger operates automatically once connected. It provides a consistent power supply to your compatible device. No user intervention is required during operation.

- Ensure the adaptor is plugged into a functional power outlet.
- Confirm the device is receiving power (e.g., charging indicator light on the device).
- Disconnect the adaptor from the power outlet when not in use for extended periods.

# Consistent Power supply

## SAFETY INFORMATION

To ensure safe operation and prevent damage, please observe the following precautions:

- **Indoor Use Only:** This adaptor is designed for indoor use. Do not expose to rain, moisture, or extreme temperatures.
- **Ventilation:** Ensure adequate ventilation around the adaptor during use. Do not cover it or place it on heat-sensitive surfaces.
- **Voltage Compatibility:** Only connect to power outlets within the specified input voltage range (100-240V AC).
- **Avoid Overloading:** Do not connect devices that exceed the adaptor's output specifications.
- **Handle with Care:** Do not drop, disassemble, or attempt to repair the adaptor.
- **Children and Pets:** Keep the adaptor out of reach of children and pets.
- **Disconnect When Not in Use:** Unplug the adaptor from the wall outlet when not in use for extended periods or during electrical storms.

# Multiple Protection

Multiple international certifications, safe charging without damage to the device.

## MAINTENANCE

- **Cleaning:** Disconnect the adaptor from power before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or solvents.
- **Storage:** Store the adaptor in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Cable Care:** Avoid bending or kinking the cable excessively. Do not place heavy objects on the cable.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not receiving power.	<ul style="list-style-type: none"><li>• Adaptor not properly plugged in.</li><li>• Wall outlet is not functional.</li><li>• Device charging port is damaged.</li><li>• Incompatible device.</li><li>• Adaptor is faulty.</li></ul>	<ul style="list-style-type: none"><li>• Ensure both ends of the adaptor are securely connected.</li><li>• Test the wall outlet with another device.</li><li>• Check the device's charging port for damage.</li><li>• Verify device compatibility (12V DC, round connector).</li><li>• Contact customer support if the adaptor is suspected to be faulty.</li></ul>
Adaptor feels hot during use.	<ul style="list-style-type: none"><li>• Normal operation (slight warmth).</li><li>• Poor ventilation.</li><li>• Overloaded.</li></ul>	<ul style="list-style-type: none"><li>• A slight warmth is normal.</li><li>• Ensure the adaptor is in a well-ventilated area.</li><li>• Disconnect if it becomes excessively hot and ensure the connected device does not exceed specifications.</li></ul>

## SPECIFICATIONS

- **Input:** 100-240V AC, 50/60Hz
- **Output:** 12V DC
- **Cable Length:** Approximately 4 feet (1.2 meters)
- **Connector Type:** Round DC plug
- **Dimensions:** Approximately 3.12 x 2.58 x 1.2 inches (L x W x H)
- **Weight:** Approximately 3 ounces
- **Protection Features:** Over Voltage Protection, Over Current Protection, Short Circuit Protection, Over Heat Protection.

## COMPATIBILITY

This XWNV 12V AC DC Adaptor Charger is compatible with various electronic devices requiring a 12V DC input and

featuring a round charging port. Known compatible devices include:

- Intempo EE0995 Bluetooth Jukebox
- Speakers
- Tablets (with compatible port and voltage)
- Routers (with compatible port and voltage)
- Stereo systems (with compatible port and voltage)
- Game machines (with compatible port and voltage)
- Small desk lamps (with compatible port and voltage)
- Shavers (with compatible port and voltage)
- CCTV cameras (with compatible port and voltage)

Always verify the voltage and connector type requirements of your specific device before use.
