## Yeego YEG-WS24-1

# Yeego Wine Fridge Cooler Instruction Manual

Model: YEG-WS24-1 | Brand: Yeego

## 1. IMPORTANT SAFETY INFORMATION

---

Please read all instructions carefully before using your new Yeego Wine Fridge Cooler. Retain this manual for future reference.

- **Electrical Safety:** Ensure the appliance is connected to a properly grounded outlet. Do not use extension cords.
- **Placement:** Allow adequate ventilation around the unit. Do not block the front grille.
- **Stability:** Use the adjustable leveling feet to ensure the fridge is stable on uneven floors.
- **Child Safety:** This unit features a safety lock to prevent unauthorized access, especially by children. Always engage the lock when not in use.
- **Handling:** For optimal cooling performance, allow the fridge to stand upright for 24-36 hours before turning it on after transport.
- **UV Protection:** The double-layered tempered glass door blocks over 90% of UV rays, protecting your wine from harmful light.

## 2. PRODUCT OVERVIEW

---

The Yeego Wine Fridge Cooler is designed to provide optimal storage conditions for your wine collection, featuring precise temperature control and a sleek design.

Figure 2.1: Front view of the Yeego 24-inch Single Zone Wine Fridge Cooler.

### Key Features:

- **Capacity:** Holds up to 47 standard Bordeaux bottles.
- **Shelves:** 5 removable and adjustable wooden shelves made of FSC-Certified wood, designed to minimize friction and vibration.
- **Temperature Control:** Precise 1°F temperature control with a range of 40-65°F (5-18°C). Features a power failure memory function.
- **Cooling System:** Advanced compressor with 360° air circulation system for fast, even cooling, low noise (41-43 dB), and minimal vibrations.

- **Door:** Double-layered tempered glass door with a black insulating layer to block UV rays. Sleek silver stainless steel frame and handle.
- **Lighting:** Blue LED interior lighting for elegant display and visibility.
- **Air Purification:** Carbon purification system to eliminate odors and maintain fresh interior air.
- **Installation:** Versatile for built-in, under-counter, or freestanding use.

## 3. SETUP AND INSTALLATION

---

### Unpacking:

Carefully remove all packaging materials. Inspect the unit for any shipping damage. If damage is found, do not operate the unit and contact customer support immediately.

### Placement:

Choose a location with a stable, level surface. Ensure adequate clearance around the unit for proper ventilation. The unit can be used freestanding, built-in, or under-counter.

# Easy installation

Multiple installation methods

Figure 3.1: The wine fridge can be installed as a freestanding unit or integrated into cabinetry as a built-in or under-counter appliance.

## Adjustable Feet

- Leveling on uneven floors
- Cabinet base alignment for embedded setups

Figure 3.2: Adjustable feet allow for leveling on uneven floors and proper alignment for embedded setups.

## Front Ventilation

Enhanced heat dissipation, ideal for built-in installation

*Figure 3.3: The upgraded front grille ensures optimal airflow and heat dissipation, crucial for built-in installations.*

### Initial Setup:

1. After placing the unit, allow it to stand upright for 24-36 hours before plugging it in. This allows the refrigerant to settle.
2. Plug the unit into a dedicated, grounded electrical outlet.
3. Set the desired temperature using the control panel (refer to Section 4).
4. Load your wine bottles onto the wooden shelves. The shelves are designed to be adjustable and removable to accommodate various bottle sizes.

## 4. OPERATING INSTRUCTIONS

---

### Control Panel:

The control panel is located at the top interior of the unit, featuring touch controls for temperature adjustment and lighting.

Figure 4.1: The LED control panel allows precise temperature adjustment and control of the interior blue light.

### Temperature Setting:

- Press the "Temp +/-" buttons to adjust the desired temperature. The temperature range is 40-65°F (5-18°C).
- The digital display will show the set temperature.
- The power failure memory function ensures the unit returns to the last set temperature after a power interruption.

### Interior Lighting:

- Press the "Light" button (light bulb icon) on the control panel to turn the blue LED interior lighting on or off.

## The Blue LED Light

It creates a refined, elegant ambiance while ensuring clear interior visibility of the wine cabinet for effortless bottle retrieval.

Figure 4.2: The blue LED light enhances the visual appeal of your wine collection and provides clear visibility.

## Safety Lock:

The unit is equipped with a safety lock located at the bottom of the door. Use the provided key to lock or unlock the door, preventing accidental opening or access by children.

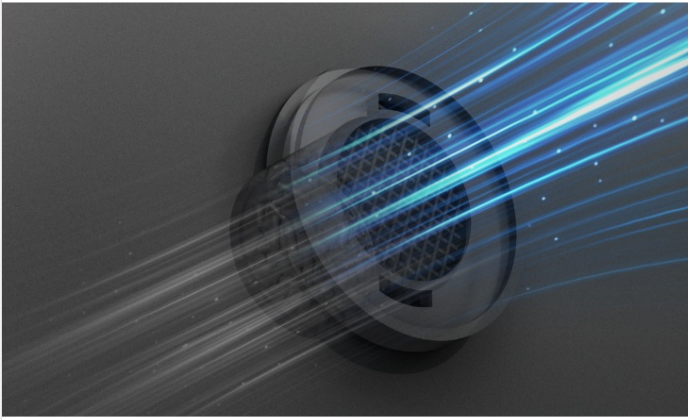

Figure 4.3: The sleek stainless steel door frame and handle are fingerprint-resistant and easy to clean. The lock mechanism is integrated into the bottom of the door.

## 5. MAINTENANCE AND CARE

---

### Cleaning:

- **Interior:** Clean the interior with a mild detergent and warm water. Do not use abrasive cleaners or solvents.
- **Exterior:** Wipe the exterior surfaces with a soft cloth and mild cleaner. The stainless steel is fingerprint-resistant and easy to clean.
- **Shelves:** The wooden shelves can be removed for cleaning. Wipe them with a damp cloth and dry thoroughly before returning them to the unit.
- **Activated Carbon Filter:** The wine refrigerator has a carbon purification system that eliminates odors. Replace the filter periodically as recommended by the manufacturer (check product packaging or Yeego website for replacement intervals).

## Activated Carbon Filter

Equipped with an activated carbon filter that effectively removes odors, ensuring the air inside remains fresh and pure.

Figure 5.1: The activated carbon filter ensures the air inside the wine cooler remains fresh and pure.

## Power Saving Tips:

- Avoid opening the door too frequently.
- Ensure the door seal is tight and free from obstructions.
- Keep the unit away from direct sunlight or heat sources.

## 6. TROUBLESHOOTING

### Common Issues and Solutions

Problem	Possible Cause	Solution
Unit does not operate.	No power; power cord unplugged; circuit breaker tripped.	Check power supply; ensure plug is secure; reset circuit breaker.
Temperature is not cold enough.	Door not closed properly; excessive door openings; warm items added; poor ventilation.	Ensure door is sealed; reduce door openings; allow new items to cool; check for proper airflow around unit.
Unit is noisy.	Unit not level; items vibrating inside; normal compressor operation.	Adjust leveling feet; rearrange bottles; normal operation noise is 41-43 dB.
Door does not close completely.	Shelves are out of position; unit not level; door gasket dirty/damaged.	Push shelves in fully; adjust leveling feet; clean or replace door gasket.

If issues persist after attempting these solutions, please contact Yeego customer support.

## 7. PRODUCT SPECIFICATIONS

- **Model Info:** YEG-WS24-1
- **Product Dimensions:** 22.4"D x 23.4"W x 32.3"H (56.9 x 59.4 x 82.0 cm)
- **Capacity:** 5.12 Cubic Feet (47 standard Bordeaux bottles)
- **Annual Energy Consumption:** 194 Kilowatt Hours Per Year

- **Installation Type:** Freestanding/Built In/Under-Counter
- **Special Features:** Digital Temperature Control, Energy Efficient, Automatic Defrost, Low Noise, Adjustable Shelves, Touch Control
- **Color:** Silver
- **Voltage:** 115 Volts (AC)
- **Shelves:** 5 Wooden Shelves
- **Door Material Type:** Stainless Steel/Glass
- **Certification:** ETL
- **Included Components:** Wine cooler fridge, 5 Wooden Shelves, Stainless Steel Handle, Instruction Manual, L-Shaped Screwdriver
