MARVO WM106W-WH

Marvo WM106W Wireless Office Mouse

Model: WM106W-WH

INTRODUCTION

This user manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your Marvo WM106W Wireless Office Mouse. Please read this manual thoroughly before using the product to ensure optimal performance and longevity.

PACKAGE CONTENTS

- Marvo WM106W Wireless Office Mouse
- USB Receiver (typically stored in the mouse battery compartment)
- User Manual
- (Battery not included, typically requires 1x AA battery)

PRODUCT OVERVIEW

Familiarize yourself with the components and features of your Marvo WM106W Wireless Office Mouse.

Figure 1: Top View. Shows the scroll wheel, DPI adjustment button, and left/right click buttons. The mouse features a clean, ergonomic design in white.

Figure 2: Angled View with Side Buttons. Illustrates the ergonomic contour of the mouse and the two conveniently placed side

buttons for enhanced navigation.

Figure 3: Front Angled View. Highlights the scroll wheel and the dedicated DPI adjustment button, allowing for quick sensitivity changes.

Figure 4: Side Profile. Demonstrates the ergonomic shape designed for comfortable long-term use, reducing hand strain.

Figure 5: Mouse in Use (Top View). The Marvo WM106W mouse positioned on a wooden desk, illustrating its compact size and clean aesthetic in a typical office setup.

Figure 6: Mouse in Use (Angled View). Another perspective of the mouse on a desk, showcasing its ergonomic contours and how it fits naturally into a workspace.

Key Features:

- **Ergonomic Design:** Shaped for a natural grip, reducing hand strain during extended use.
- **Silent Clicks:** Features silent buttons for a quiet working environment.
- **Adjustable DPI:** Sensitivity settings from 800 to 1600 DPI for precise control.
- **6 Buttons:** Includes standard left/right click, scroll wheel, DPI button, and two side buttons.
- **Wireless Connectivity:** Operates wirelessly with a transmission distance of up to 10 meters.

SETUP

1. **Insert Battery:** Open the battery compartment on the underside of the mouse. Insert one AA battery (not included), ensuring correct polarity.
2. **Retrieve USB Receiver:** The USB receiver is typically stored inside the battery compartment or a dedicated slot on the mouse for safekeeping. Remove it carefully.
3. **Connect Receiver:** Plug the USB receiver into an available USB port on your computer.

4. **Power On:** Turn on the mouse using the power switch located on the underside.
5. **Automatic Connection:** The mouse should automatically connect to your computer. If not, move the mouse slightly or try a different USB port. For Bluetooth connection (if applicable), ensure your computer's Bluetooth is enabled and pair the mouse via your operating system's Bluetooth settings.

Note: For optimal performance, ensure the mouse is within 10 meters of the USB receiver and there are no significant obstructions.

OPERATING INSTRUCTIONS

Basic Functions:

- **Left Click:** Primary button for selecting items, opening files, and interacting with software.
- **Right Click:** Secondary button for accessing context menus and additional options.
- **Scroll Wheel:** Roll up or down to scroll through documents and web pages. Press the scroll wheel for middle-click functionality (if supported by software).
- **Side Buttons:** Typically function as "Forward" and "Backward" in web browsers and file explorers. Their function may vary depending on the application.

DPI Adjustment:

The Marvo WM106W mouse features an adjustable DPI (Dots Per Inch) setting, allowing you to change the cursor's sensitivity and speed. This is useful for different tasks, such as precise graphic design work or fast-paced browsing.

- Locate the DPI button, usually positioned behind the scroll wheel.
- Press the DPI button to cycle through the available sensitivity settings (800 DPI, 1200 DPI, 1600 DPI).
- Observe the cursor speed on your screen to select the desired sensitivity.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the mouse. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid using harsh chemicals or abrasive materials.
- **Sensor Cleaning:** Occasionally, dust or debris may accumulate around the optical sensor on the underside of the mouse. Use a cotton swab or compressed air to gently clean the sensor area.
- **Battery Replacement:** When the mouse performance degrades or it stops responding, it's likely time to replace the battery. Open the battery compartment and replace the old battery with a new AA battery, ensuring correct polarity. Dispose of old batteries responsibly.
- **Storage:** When not in use for extended periods, turn off the mouse to conserve battery life. Store the USB receiver inside the mouse to prevent loss.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Mouse not responding	Low battery; USB receiver not connected; Mouse power off; Driver issue.	Replace battery; Ensure USB receiver is firmly plugged in; Turn on mouse; Try a different USB port; Restart computer.

Problem	Possible Cause	Solution
Erratic cursor movement	Dirty optical sensor; Uneven surface; Interference.	Clean the optical sensor; Use the mouse on a clean, flat surface or mouse pad; Move closer to the receiver or away from other wireless devices.
Side buttons not working	Application specific; Driver issue.	Ensure the application supports side button functions; Check for updated mouse drivers (usually automatic for basic functions).
Short wireless range	Obstructions; Interference.	Reduce distance between mouse and receiver; Remove obstructions; Avoid placing receiver near other electronic devices that may cause interference.
