SETUP AND FIRST USE

Setting Your TSA Combination Lock

Your BAGSMART luggage comes with a pre-set combination lock. To set your personal combination, follow these steps:

1. Ensure the lock is set to the factory default combination (usually 0-0-0).
2. Locate the reset button (a small, recessed button, often requiring a pen or paperclip to press).
3. While holding down the reset button, set your desired 3-digit combination by turning the dials.

4. Release the reset button. Your new combination is now set.
5. Test your new combination to ensure it works correctly before securing your luggage.

CARE AND MAINTENANCE

- **Cleaning:** For general cleaning, wipe the fabric exterior with a damp cloth and mild soap. For stubborn stains, use a soft brush. Do not machine wash or tumble dry.
- **Wheels:** Periodically check the wheels for debris (hair, lint, etc.) and clean as needed to ensure smooth rolling.

- **Zippers:** Keep zippers clean and free of obstructions. If they become stiff, a small amount of zipper lubricant or wax can be applied.
- **Storage:** Store the luggage in a cool, dry place away from direct sunlight when not in use to preserve its material and color.

TROUBLESHOOTING

Handle Issues

- **Handle Stuck/Wobbly:** Ensure no items are obstructing the handle mechanism inside the lining. Gently pull and push the handle to dislodge any blockages. Avoid excessive force.

Wheel Issues

- **Wheels Not Spinning Smoothly:** Check for tangled hair or debris around the wheel axles. Carefully remove any obstructions. If the issue persists, the wheels may require professional inspection.

Lock Issues

- **Forgetting Combination:** If you forget your combination, you may need to try common combinations or contact customer support for assistance. There is no universal master key for TSA locks.
- **Lock Not Engaging:** Ensure the zipper pulls are fully inserted into the lock mechanism. If the lock still doesn't engage, re-check your combination or try resetting it.
