## 4. SETUP

---

### 4.1 Connecting the Monitor

The HotYeah portable monitor offers flexible connection options:

- **USB-C Connection (Single Cable):** If your device (laptop, phone, tablet) has a full-function Type-C port (supporting Thunderbolt 3.0/4.0 or USB 3.1 Type-C DP ALT-MODE), you can use a single USB-C to USB-C cable for both power and video transmission.
- **HDMI Connection (Dual Cables):** For devices with an HDMI output, use the Mini-HDMI to HDMI cable for video. An additional USB-A to USB-C cable connected to the power adapter is required for power.

## 5.3 On-Screen Display (OSD) Menu

The OSD menu allows you to adjust various settings such as brightness, contrast, color temperature, and input source. Use the menu buttons on the side of the monitor to navigate and select options.

## 6. MAINTENANCE

To ensure the longevity and optimal performance of your HotYeah portable monitor, follow these maintenance guidelines:

- **Cleaning:** Use a soft, lint-free cloth to gently wipe the screen. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals.
- **Storage:** When not in use, store the monitor in its smart cover to protect the screen from scratches and dust.
- **Handling:** Avoid applying excessive pressure to the screen or dropping the device.
- **Environment:** Keep the monitor away from extreme temperatures, direct sunlight, and high humidity.
