slopehill Professional Ionic Hair Dryer - User Manual

Model: B0DFQ58681

INTRODUCTION

Thank you for choosing the slopehill Professional Ionic Hair Dryer. This high-speed, lightweight, and compact ceramic blow dryer is designed for fast drying with advanced ionic hair care technology, reducing frizz and leaving hair lustrous and soft. It is suitable for home, salon, and travel use. Please read this manual thoroughly before use to ensure safe and optimal performance.

PRODUCT FEATURES

- **2000W Powerful High-speed Motor:** Airflow of 26 m/s and a speed of 110,000 RPM for super-fast drying.
- **Bio Ceramic and Ion Hair Care Technology:** Delivers 30 million negative ions with sophisticated temperature control (100 times/second) to reduce static electricity and enhance hair shine and softness.
- **Quiet & Portable Design:** Low noise level (under 75 dB) and lightweight (0.75 pounds/340g) for easy travel.
- **Intuitive Controls:** LED indicator shows wind direction and heat settings. Offers 12 combinations of four temperature (cold air) and three wind speed settings.
- **Automatic Cleaning & Memory Function:** Features a removable filter with auto-cleaning and a 360° magnetic attachment connection. Built-in memory activates the previous setting upon restart.
- **Safety Features:** Protection plug guards against leakage and overheating. Intelligent constant temperature output for better styling. Low radiation design is safe for children and pregnant women.

SETUP

1. **Unpacking:** Carefully remove all components from the packaging. Ensure all accessories are present.
2. **Attaching Nozzles:** The hair dryer comes with magnetic attachments. Align the desired attachment (concentrator or diffuser) with the front of the dryer and it will snap securely into place. The magnetic connection allows for 360° rotation for flexible styling.

Auto Clean Technology

Press wind button for 3 seconds, the auto cleaning will start operating for 7-8 seconds and turn off automatically.

Figure 2: Detailed view of the 360° rotatable magnetic attachment mechanism on the hair dryer.

OPERATING INSTRUCTIONS

1. **Power On/Off:** Locate the power button on the handle. Press once to turn the dryer on, and press again to turn it off.
2. **Adjusting Temperature:** Use the temperature button to cycle through four heat settings: cold air, $65^{\circ}\text{C} \pm 5^{\circ}$, $82^{\circ}\text{C} \pm 5^{\circ}$, and $95^{\circ}\text{C} \pm 5^{\circ}$. The LED indicator will display the current temperature.
3. **Adjusting Wind Speed:** Use the wind speed button to select from three speeds. The LED indicator will show the selected speed.
4. **Cold Shot Function:** While the dryer is operating on a heat setting, press the cold shot button to instantly switch to cold air. Press it again to return to the previous heat setting.
5. **Memory Function:** The dryer features a built-in memory function. When turned on again, it will automatically activate the last used settings.
6. **Using Attachments:**
 - **Concentrator Nozzles:** Use the concentrator nozzles for precise styling and smoothing sections of hair.
 - **Diffuser:** Attach the diffuser for enhancing natural curls and waves, distributing air evenly to

reduce frizz.

Enhanced 2000W High Speed Brushless Motor

Motor Speed 110000 RPM

Noise Level
≤60 dB

Only
0.7 lb

- Fast Drying
- More Powerful
- Long Life Use
- Over Heat Protection

MAINTENANCE

1. **Automatic Cleaning:** The hair dryer features an automatic cleaning function. Press the wind button for 3 seconds, and the auto-cleaning will start operating for 7-8 seconds before turning off automatically.
2. **Removable Filter:** The filter is removable for manual cleaning. Regularly clean the filter to maintain optimal airflow and performance.

30 Million High-Concentration negative Ion Hair Care

30 million negative ions can effectively lock the moisture, reducing frizz caused by static electricity.

Figure 4: Illustration of the automatic cleaning technology and the removable filter for easy maintenance.

TROUBLESHOOTING

- **No Power:** Ensure the power cord is securely plugged into a functional outlet. Check the protection plug for any tripped circuits.
- **Weak Airflow:** Clean the removable filter as described in the Maintenance section. A clogged filter can restrict airflow.
- **Overheating:** The dryer has overheating protection. If it overheats, it may shut off automatically. Unplug the device, allow it to cool down, and clean the filter before resuming use.
- **Unusual Noise:** If you notice unusual noises, ensure the filter is clean and properly seated. If the issue persists, discontinue use and contact customer support.

SPECIFICATIONS

Brand	slopehill
Model	B0DFQ58681

Product Dimensions	8 x 2 x 7 inches
Weight	2.93 Pounds (0.75 pounds/340g for the dryer itself)
Color	Premium-silver
Material	Ceramic
Wattage	2000 watts
Power Source	Corded Electric
Motor Speed	110,000 RPM
Airflow	26 m/s
Noise Level	Under 75 dB
