6. INSTALLATION INSTRUCTIONS

This product requires hardwired installation. It is recommended to have a professional electrician perform the installation.

6.1. Pre-Installation Steps

- Prepare the Wall:** Ensure the installation area is clean, dry, and structurally sound. Turn off the main power supply to the installation area.
- Marking the Installation Points:** Use the provided template or measure carefully to mark the precise locations for the embedded box and the mounting points for the towel bars.

6.2. Embedded Box Installation

- Cut Wall Opening:** Carefully cut an opening in the wall for the embedded box according to the marked dimensions.
- Wire Connections:** Route the electrical wiring through the wall to the embedded box location. Connect the wires to the terminals inside the embedded box as per electrical codes.
- Secure Embedded Box:** Insert the embedded box into the wall opening and secure it firmly using appropriate fasteners.

6.3. Towel Bar Assembly and Mounting

- Assemble Bars:** Attach the individual rotatable towel bars to the main support structure, ensuring they are securely fastened.
- Connect to Embedded Box:** Carefully connect the wiring from the towel bar assembly to the embedded box, ensuring all connections are tight and insulated.
- Mount Towel Rack:** Align the towel rack assembly with the embedded box and secure it to the wall using the provided mounting hardware. Ensure it is level and stable.
