OCOOPA UT2s + UT4 Young

OCOOPA UT2s and UT4 Young Hand Warmers User Manual

Model: UT2s + UT4 Young

1. INTRODUCTION

Thank you for choosing the OCOOPA UT2s and UT4 Young Hand Warmers. These portable, rechargeable devices are designed to provide warmth and comfort in cold conditions. Please read this manual thoroughly before use to ensure safe and optimal operation.

2. SETUP

2.1 Charging the Hand Warmers

1. Connect the provided charging cable to the charging port on the hand warmer.
2. Connect the other end of the cable to a USB power source (e.g., wall adapter, computer, power bank).
3. The indicator lights will illuminate to show the charging status. A full charge is indicated when all lights are solid.
4. Allow approximately 3-4 hours for a full charge.

2.2 Attaching the Lanyard

Thread the lanyard through the designated loop on the hand warmer for convenient carrying and to prevent accidental

drops.

3. OPERATING INSTRUCTIONS

3.1 Powering On/Off and Adjusting Heat Levels

1. To power on, press and hold the power button for approximately 3 seconds until the indicator lights illuminate.
2. To cycle through heat levels, short press the power button. Each press will change the heat setting.
 - **Low Heat:** 100-108°F (up to 8 hours of warmth)
 - **Medium Heat:** 109-117°F (up to 6 hours of warmth)
 - **High Heat:** 118-125°F (up to 4 hours of warmth)
3. To power off, press and hold the power button for approximately 3 seconds until the indicator lights turn off.

3.2 Magnetic Connection (MagTwins Feature)

The UT2s and UT4 Young hand warmers feature a magnetic design, allowing them to snap together for easy storage and portability. This also enables them to function as a single unit or two separate units for warmth in both hands.

Snap. Attach. and Go

Magnetic design for easy storage, keeping it secure and accessible.

3.3 Usage in Cold Environments

These hand warmers are designed to fit comfortably in gloves or pockets, providing direct warmth to your hands. They are IP34 water-resistant, offering protection against splashes, and are TSA carry-on approved for travel.

Warmth That Moves With You!

Slim & sleek. Fits easily into gloves & pockets.

4. MAINTENANCE

- **Cleaning:** Wipe the surface of the hand warmers with a soft, dry cloth. Do not use abrasive cleaners or immerse in water.

- **Storage:** Store the hand warmers in a cool, dry place when not in use. Ensure they are fully charged before long-term storage to preserve battery life.
- **Battery Care:** To maintain optimal battery performance, charge the devices at least once every three months, even if not in regular use.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Low battery.	Charge the device fully.
Device not heating up.	Incorrect heat setting or device not fully on.	Ensure the device is powered on and cycle through heat settings.
Charging indicator lights not working.	Faulty cable or power source.	Try a different charging cable or USB power source.
Magnetic connection is weak.	Debris on magnetic surfaces.	Clean the magnetic surfaces of both units.
