

Girmi FG7800

Girmi FG78 Ecofrit Black Air Fryer Instruction Manual

Model: FG7800

1. INTRODUCTION

Thank you for choosing the Girmi FG78 Ecofrit Black Air Fryer. This appliance utilizes rapid air circulation technology to cook your favorite foods with little to no oil, resulting in healthier and delicious meals. Please read this manual thoroughly before first use to ensure safe and optimal operation of your air fryer. Keep this manual for future reference.

2. IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed, including the following:

- Read all instructions before use.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electric shock, do not immerse cord, plugs, or the main unit in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.

- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to “off”, then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- Ensure the appliance is placed on a stable, level, heat-resistant surface.
- Do not block any ventilation openings.

3. PRODUCT OVERVIEW

Familiarize yourself with the components of your Girmi FG78 Air Fryer.

Image 3.1: Front view of the air fryer with the cooking basket inserted.

Components:

1. Main Unit with Digital Control Panel
2. Removable Cooking Basket (6 Liters capacity)
3. Non-stick Crisper Plate
4. Handle
5. Viewing Window with Interior Light

Image 3.2: Detailed view of the digital control panel with various cooking presets and settings.

Digital Control Panel:

The digital display shows temperature and time. Touch controls allow you to select preset programs, adjust temperature, and set cooking time.

- **Temperature Control:** Adjusts cooking temperature (60°C - 200°C).
- **Time Control:** Adjusts cooking time (up to 60 minutes).
- **Preset Programs:** 12 pre-programmed settings for common dishes like fries, chicken, fish, and more.
- **Power Button:** Turns the appliance on/off and starts/pauses cooking.
- **Shake Reminder:** An icon may illuminate to remind you to shake the basket for even cooking.

Image 3.3: Illustration of the rapid air circulation technology for even cooking.

4. SETUP AND FIRST USE

Before First Use:

1. Remove all packaging materials, stickers, and labels from the appliance.
2. Clean the cooking basket and crisper plate thoroughly with hot water, dish soap, and a non-abrasive sponge.
3. Wipe the inside and outside of the appliance with a damp cloth.
4. Ensure the crisper plate is correctly placed at the bottom of the cooking basket.

Image 4.1: The cooking basket removed from the main unit.

Placement:

Place the air fryer on a stable, level, and heat-resistant surface. Ensure there is at least 10 cm (4 inches) of free space on the back and sides of the appliance, and 10 cm (4 inches) above it, to allow for proper ventilation.

5. OPERATING INSTRUCTIONS

General Operation:

1. Plug the power cord into a grounded wall outlet. The power button will illuminate.
2. Carefully pull the cooking basket out of the air fryer.
3. Place the crisper plate inside the basket.
4. Place the ingredients into the cooking basket. Do not exceed the MAX fill line.
5. Slide the cooking basket back into the air fryer.
6. Press the power button to turn on the display.
7. **Manual Setting:** Use the temperature and time control buttons to set your desired cooking temperature (60°C - 200°C) and time (1-60 minutes).
8. **Preset Programs:** Select one of the 12 preset icons for common dishes. The air fryer will automatically set the

optimal time and temperature.

9. Press the power button again to start the cooking process.
10. During cooking, you can pull out the basket to shake or check food. The air fryer will pause automatically and resume when the basket is reinserted.
11. Once the set time has elapsed, the air fryer will beep, indicating cooking is complete.
12. Carefully pull out the basket and transfer the cooked food to a plate.

Image 5.1: Example of food, such as french fries, being cooked in the air fryer basket.

Tips for Best Results:

- For even cooking, shake the basket halfway through the cooking time, especially for smaller items like fries or nuggets.
- Lightly spray or brush a small amount of oil on fresh ingredients for a crispier result.
- Do not overcrowd the basket; cook in batches if necessary.
- The viewing window allows you to monitor cooking progress without opening the basket.

6. CLEANING AND MAINTENANCE

Regular cleaning ensures optimal performance and extends the lifespan of your air fryer.

Cleaning After Each Use:

1. Unplug the air fryer and allow it to cool down completely before cleaning.
2. Remove the cooking basket and crisper plate.
3. Wash the cooking basket and crisper plate with hot water, dish soap, and a non-abrasive sponge. The non-stick coating makes cleaning easy.
4. For stubborn food residue, soak the basket and plate in hot water with dish soap for about 10 minutes.
5. Wipe the exterior of the air fryer with a damp cloth. Do not use abrasive cleaners or scourers.
6. Clean the interior of the appliance with a damp cloth.
7. Ensure all parts are completely dry before reassembling or storing the appliance.

Image 6.1: The non-stick crisper plate, designed for easy cleaning.

Storage:

Store the appliance in a cool, dry place, away from direct sunlight and out of reach of children.

7. TROUBLESHOOTING

If you encounter any issues with your air fryer, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Air fryer does not turn on.	Appliance is not plugged in.	Ensure the power cord is securely plugged into a grounded outlet.
Food is not cooked evenly.	Basket is overcrowded; food not shaken.	Cook in smaller batches. Shake the basket halfway through cooking.
Food is not crispy.	Not enough oil (for fresh ingredients); temperature too low.	Lightly brush or spray food with oil. Increase cooking temperature.
White smoke coming from the appliance.	Grease residue from previous use; fatty ingredients.	Clean the basket and crisper plate thoroughly. For fatty foods, absorb excess oil with a paper towel.
Basket does not slide in properly.	Basket is not aligned correctly.	Push the basket in firmly until it clicks into place.

8. SPECIFICATIONS

Technical details for the Girmi FG78 Ecofrit Black Air Fryer.

- **Model:** FG7800
- **Power:** 1500 Watts
- **Capacity:** 6 Liters
- **Voltage:** 230 Volts (AC)
- **Temperature Range:** 60°C - 200°C
- **Timer:** Up to 60 minutes
- **Dimensions (L x W x H):** Approximately 28 x 37 x 29 cm
- **Weight:** 3.8 Kilograms
- **Material:** Plastic
- **Special Features:** Digital Display, Viewing Window, Interior Light, Non-stick Tray, BPA/PFOA Safe
