CODONOVA CA3

CODONOVA CA3 Wireless CarPlay & Android Auto Adapter with 48W Fast Car Charger - Instruction Manual

Model: CA3

PRODUCT OVERVIEW

The CODONOVA CA3 is an innovative 3-in-1 device designed to enhance your in-car experience. It combines a wireless CarPlay adapter, a wireless Android Auto adapter, and a powerful 48W fast car charger into a single, compact unit. This device aims to reduce cable clutter and provide seamless connectivity for navigation, music, and communication.

3 in 1 for Unique Experience

SETUP INSTRUCTIONS

- 1. Insert the Device:** Plug the CODONOVA CA3 into your car's cigarette lighter socket. The device will illuminate, indicating it is powered on.
- 2. Connect to Car's USB Port:** Connect the USB cable from the CA3 to your car's USB data port. If your car has a USB-C port, use the provided USB-C adapter.
- 3. Enable Bluetooth and Wi-Fi on your Phone:** Ensure both Bluetooth and Wi-Fi are enabled on your iPhone (iOS 10+) or Android device (Android 11+).

4. **Pair with the Adapter:** On your car's infotainment system or your phone's Bluetooth settings, search for available devices. Select the CODONOVA adapter (e.g., "Wireless-Adapter-XXXX" or "smartBox-XXXX") and follow the on-screen prompts to pair.
5. **Confirm Connection:** Once paired, your car's display should automatically switch to CarPlay or Android Auto.

OPERATING INSTRUCTIONS

Wireless CarPlay / Android Auto Functionality:

- The adapter utilizes a dual-core CPU, Bluetooth V5.3, and 5.8GHz Wi-Fi for fast, stable, and lag-free connections, ensuring 100% image and sound reproduction.
- Access all original apps compatible with iPhone CarPlay and Android Auto directly on your car screen, including music, navigation, calendar, messaging, and calling.
- Control methods include voice commands (Siri, Google Assistant), touch screens, steering wheel controls, and factory knobs.

Original Control Mode Available

Fast Charging Capabilities:

- The integrated 48W car charger supports fast charging for two devices simultaneously.
- It features PD 30W Max (USB-C) and QC 18W Max (USB-A) outputs.
- Capable of charging compatible iPhones/iPads to 80% in approximately 30 minutes.
- Ensures stable voltage for reliable data transmission, preventing audio and navigation interruptions.

MAINTENANCE

- Keep the device clean and free from dust and debris. Use a soft, dry cloth for cleaning.
- Avoid exposing the device to extreme temperatures or direct sunlight for prolonged periods.
- Ensure all connections are secure to maintain optimal performance.

TROUBLESHOOTING

- **No Connection:**

- Ensure the device is properly plugged into the cigarette lighter and the USB data port.
- Verify that Bluetooth and Wi-Fi are enabled on your phone.
- Restart your phone and the car's infotainment system.
- Check if your car model is compatible (cars since 2016, iOS 10+, Android 11+).

- **Intermittent Connection/Audio Issues:**

- Ensure the device is receiving stable power from the car charger.
- Minimize interference from other wireless devices.
- Check for any loose cable connections.

- **Slow Charging:**

- Ensure your device and charging cable support fast charging protocols (PD/QC).
- Check if the cable is securely connected to the charging port.

SPECIFICATIONS

Feature	Detail
