MageGee LIGHT100

MageGee LIGHT100 Wireless Creamy Keyboard

User Manual

1. Introduction

Thank you for choosing the MageGee LIGHT100 Wireless Creamy Keyboard. This mechanical keyboard is designed for versatility and comfort, featuring a gasket structure, hot-swappable switches, and multi-mode connectivity. This manual provides essential information for setting up, operating, and maintaining your new keyboard to ensure optimal performance and longevity.

2. Key Features

- **Three Mode Connection:** Supports Bluetooth 5.0, 2.4GHz wireless, and USB-C wired modes for versatile connectivity across multiple devices.
- **Creamy Thock Sound Gasket Structure:** Features a gasket-mounted design with five layers of sound-absorbing foams for reduced noise and a softer, more comfortable typing experience.
- **Hot Swappable Prebuilt Custom Switch:** Equipped with quiet linear Blue Whale switches that are

individually removable and compatible with 3-pin/5-pin configurations for easy customization without soldering.

- **16.8 Million Cool RGB Backlight:** Offers a wide range of static and dynamic backlight effects and colors to personalize your setup and enhance your gaming experience.
- **8000mAh Large Battery and PBT Keycaps:** Features a high-capacity battery for extended use and durable, unique side-printed PBT keycaps. The 96% layout saves desktop space while retaining essential keys.

3. Setup

The MageGee LIGHT100 keyboard offers three convenient connection modes:

1. **Wired Mode (USB-C):** Connect the detachable USB-C cable from the keyboard to your computer's USB port. The keyboard will automatically be recognized and ready for use.
2. **2.4GHz Wireless Mode:** Toggle the switch on the keyboard to the '2.4G' position. Insert the 2.4GHz USB receiver into an available USB port on your device. The keyboard will connect wirelessly.
3. **Bluetooth 5.0 Mode:** Toggle the switch on the keyboard to the 'BT' position. Press**Fn + 1/2/3** to select one of three Bluetooth channels. On your device, search for Bluetooth devices and select 'MageGee LIGHT100' to pair. You can connect up to three devices and switch between them using **Fn + 1/2/3**.

4. Operating Instructions

4.1 RGB Backlight Control

The LIGHT100 keyboard features dynamic RGB backlighting with 16.8 million colors. Use the following key combinations to customize the lighting:

- **Fn + Enter:** Toggle between approximately 20 different backlit modes.
- **Fn + ←/→:** Adjust backlit colors.
- **Fn + ↑/↓:** Control backlit brightness (increase/decrease).
- **Fn + =+/_-:** Control backlit speed (increase/decrease).

Figure 5: RGB Backlight control functions.

4.2 Battery Information

The keyboard is equipped with an 8000mAh large-capacity battery for extended usage. Battery life varies depending on backlight usage:

- Approximately 53 hours with RGB backlight ON.
- Approximately 400 hours with RGB backlight OFF.
- Sleep standby time: Approximately 450 hours.

To check the battery status, press **Fn + Ctrl**.

5. Maintenance

5.1 Hot-Swappable Switches

The MageGee LIGHT100 keyboard features hot-swappable switches, allowing you to easily replace individual switches without soldering. This provides flexibility for customization and repair. The keyboard supports both 3-pin and 5-pin switches.

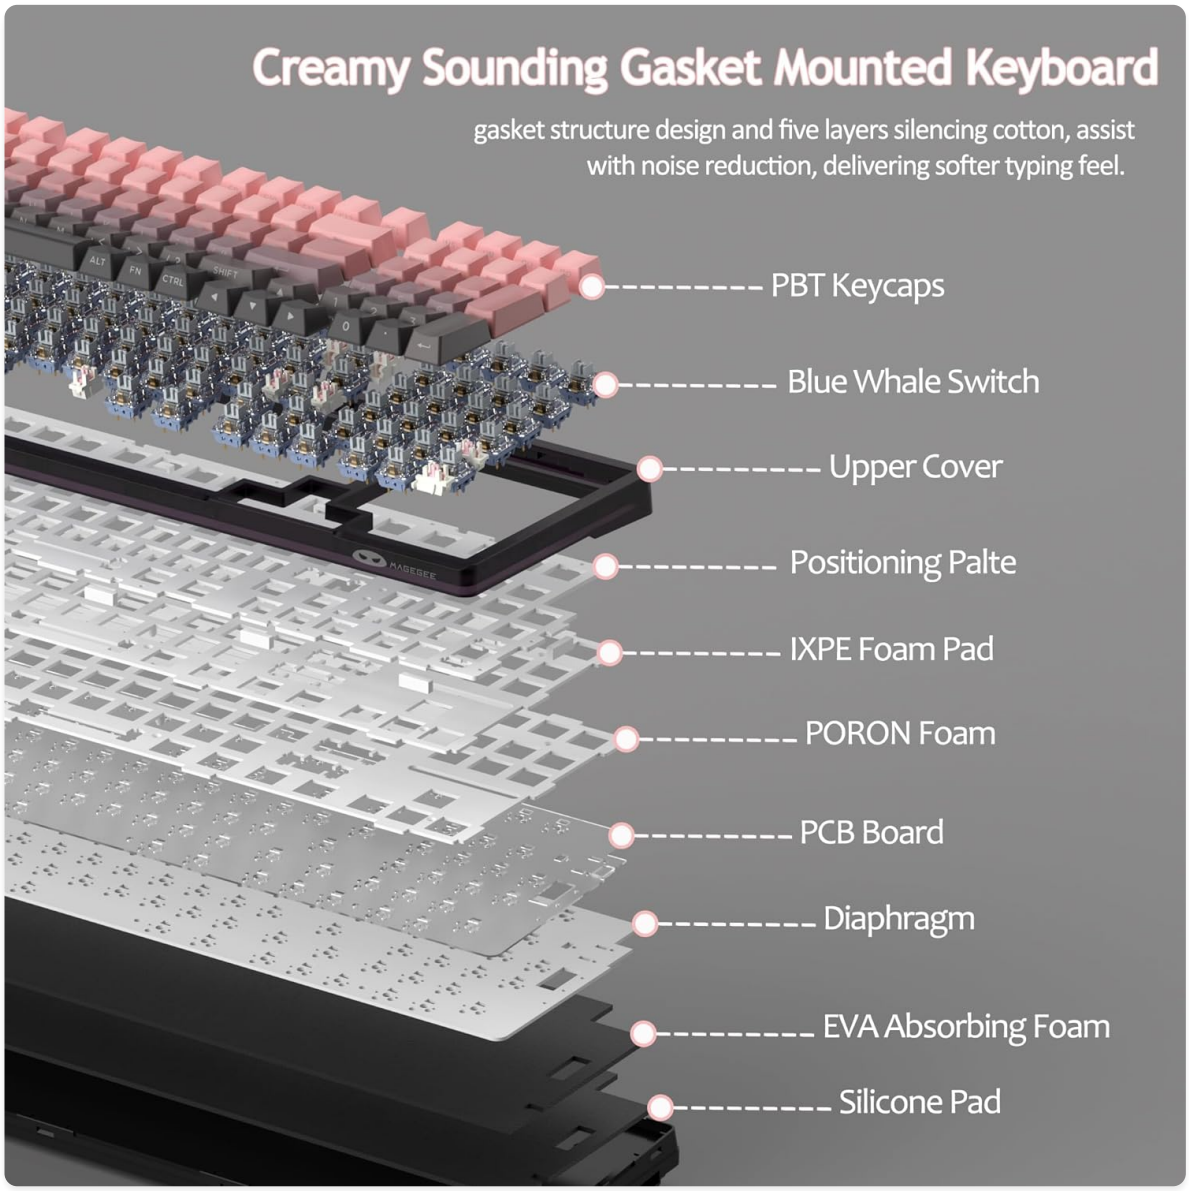

Figure 7: Hot-swappable switch mechanism.

5.2 PBT Keycaps

The keyboard comes with durable PBT keycaps, which are known for their resistance to shine and wear over time. The unique side-printed legends ensure longevity and a clean aesthetic. To clean the keycaps, gently wipe them with a soft, damp cloth. For deeper cleaning, you can use the included keycap puller to remove them and clean individually.

6. Troubleshooting

If you encounter any issues with your MageGee LIGHT100 keyboard, please try the following common troubleshooting steps:

- **Connectivity Issues:** Ensure the keyboard is in the correct mode (wired, 2.4GHz, or Bluetooth) for your connection type. For wireless modes, check battery level. For Bluetooth, ensure your device's Bluetooth is enabled and try re-pairing.
- **Keys Not Responding:** Check if the keyboard is properly connected. If in wireless mode, ensure it's charged. If individual keys are not responding, the switch might be faulty and can be replaced due to the hot-swappable design.
- **Backlight Problems:** Verify that the backlight is turned on using **Fn + Enter**. Adjust brightness with **Fn +** ↑/↓.
- **Lag or Delay:** For wireless connections, try moving closer to the receiver or device. Ensure there are no strong interferences from other wireless devices.

For further assistance, please refer to the support information in Section 8.

7. Specifications

Brand	MageGee
Model Number	Rosa - 8000mAh
Connectivity Technology	USB-C, 2.4GHz, Bluetooth 5.0
Keyboard Description	Ergonomic, Mechanical
Number of Keys	99 (96% Layout)
Backlighting	RGB (16.8 Million Colors)
Switch Type	Linear (Blue Whale Switch)
Battery Capacity	8000mAh
Item Weight	2.97 pounds
Package Dimensions	16.85 x 8.78 x 2.44 inches
Compatible Devices	Computers, Laptops, Tablets, Smartphones (Win/Mac Dual System)

8. Warranty and Support

MageGee products are backed by a limited warranty. For detailed warranty information, product support, or to contact customer service, please visit the official MageGee website or refer to the warranty card included in your product packaging.
