AMERLIFE BHB007-2

AMERLIFE King Size Upholstered Bed Instruction Manual

Model: BHB007-2

IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before assembly and use. Keep this manual for future reference.

- Ensure all parts are present and undamaged before beginning assembly.
- Assemble the bed on a soft, clean surface to prevent scratches.
- Do not overtighten screws during assembly.
- The maximum weight capacity for this bed frame is 1000 lbs. Do not exceed this limit.
- Regularly check and tighten all connections to maintain stability.
- Keep small parts away from children during assembly.

For any missing parts or assembly assistance, contact customer service within 12 hours.

PACKAGE CONTENTS

Before starting assembly, verify that all components are included in your package. Refer to the parts list provided in your physical instruction manual for detailed identification.

KING

SIZE

LxWxH: 82.3"Lx77.6"Wx65.4"H

Max Capacity: 1000 lbs
Recommend Mattress: 10"-20"

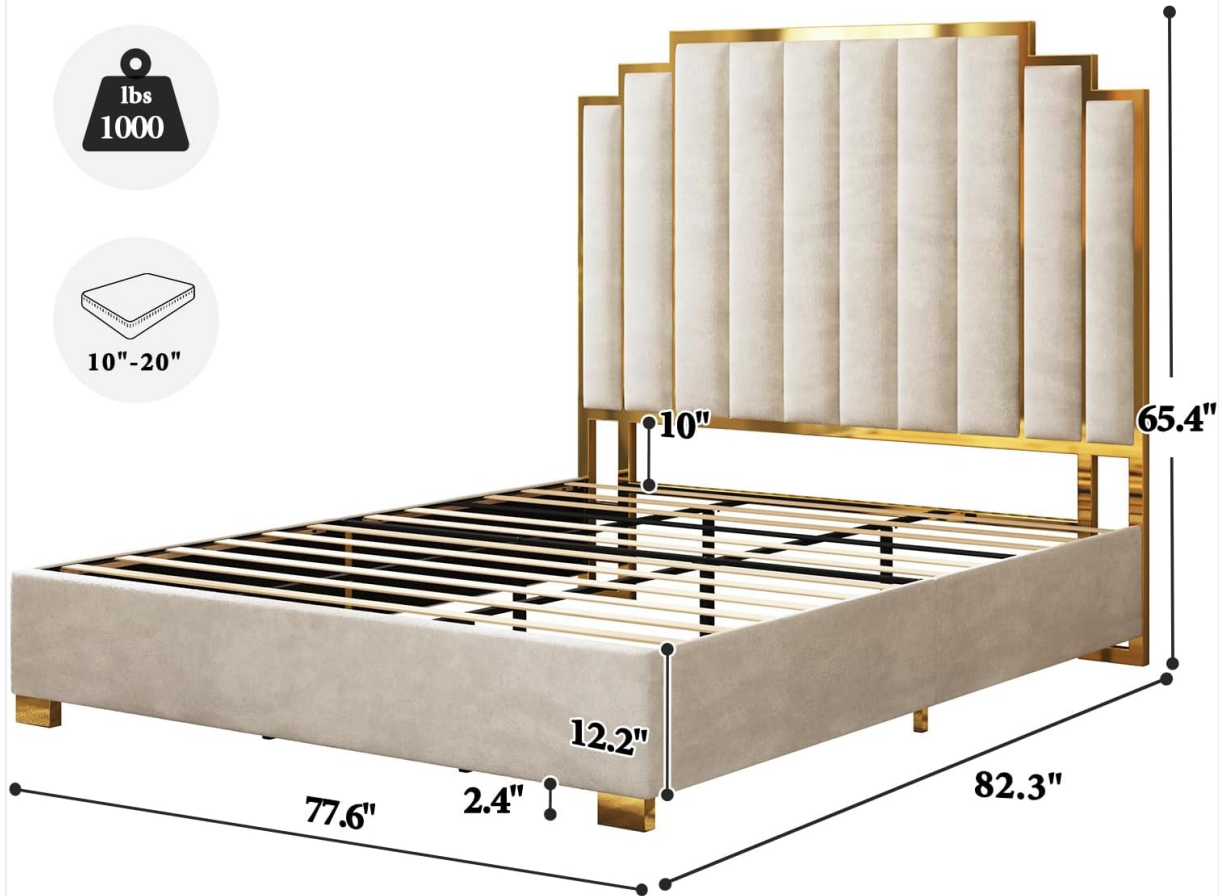

Image: Diagram illustrating the dimensions (82.3"L x 77.6"W x 65.4"H) and key components of the King size bed frame, including the headboard, frame, and slats. It also indicates a maximum weight capacity of 1000 lbs and recommended mattress thickness of 10"-20".

SETUP AND ASSEMBLY

Assembly of the AMERLIFE King Size Upholstered Bed typically takes approximately 45 minutes for two adults. Follow these general steps:

1. **Unpack and Organize:** Carefully unpack all components and lay them out on a soft, clean surface. Group similar parts and hardware together.
2. **Assemble the Headboard:** The headboard requires assembly. Attach the upholstered panels to the gold metal frame as per the detailed instructions in your physical manual.
3. **Construct the Bed Frame:** Connect the side rails and footboard to the assembled headboard. Ensure all connections are secure but do not fully tighten until the entire frame is aligned.
4. **Install Slats:** Place the wooden slats across the bed frame. The slats are designed with a 4.3" spacing for optimal mattress support and ventilation. Secure them using the provided hardware.
5. **Final Tightening:** Once all components are in place and aligned, fully tighten all screws and bolts.
6. **Add Mattress:** Position your mattress on the installed slats. No box spring is needed.

OPERATING INSTRUCTIONS

The AMERLIFE King Size Upholstered Bed is designed for comfortable and stable use. Follow these guidelines for optimal performance:

- **Mattress Compatibility:** This bed frame is compatible with most mattresses and does not require a box spring. The recommended mattress thickness is between 10 and 20 inches.
- **Noise Reduction:** The bed frame incorporates an innovative center support system and upgraded locking mechanisms, along with EVA sponge and foam tape, to minimize noise and provide a quiet sleeping environment.
- **Weight Distribution:** Distribute weight evenly across the bed surface to prevent undue stress on the frame

and slats.

Noise-free

EVA Sponge for Noise-free
Foam Tape for Quiet Sleep

MAINTENANCE

Proper maintenance will extend the life and appearance of your AMERLIFE bed frame:

- **Velvet Upholstery Care:**

- Gently vacuum the velvet upholstery regularly using a soft brush attachment to remove dust and debris.
- For spills, blot immediately with a clean, dry cloth. Do not rub.
- For stubborn stains, consult a professional upholstery cleaner or use a velvet-safe cleaning product according to its instructions. Test on an inconspicuous area first.
- Avoid direct sunlight to prevent fading.

- **Metal Frame and Trim Care:**

- Wipe the gold metal trim and frame with a soft, damp cloth.
- Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- Periodically check all bolts and screws and tighten them if necessary to ensure the bed remains sturdy.

TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common troubleshooting tips:

Problem	Possible Cause	Solution
Bed frame is squeaking or unstable.	Loose bolts or connections.	Check all bolts and screws, especially those connecting the side rails to the headboard and footboard, and tighten them securely. Ensure the center support system is properly engaged.
Headboard feels wobbly.	Headboard components not fully secured.	Re-check all connections within the headboard assembly. Ensure all panels and trim pieces are firmly attached.
Mattress slides on the frame.	Insufficient friction between mattress and slats.	Ensure the Velcro strips on the slats are clean and making good contact with the mattress. If necessary, consider adding a non-slip mattress pad.

Problem	Possible Cause	Solution
Difficulty during assembly.	Misinterpretation of instructions or missing parts.	Refer to the detailed assembly instructions in your physical manual. Lay out all parts before starting. If parts are missing or you require further assistance, contact customer service.

SPECIFICATIONS

Feature	Detail
