# Instruction Manual for Marg AC Adapter

Model: B1681626198

## INTRODUCTION

This manual provides essential information for the safe and effective use of your Marg AC Adapter, designed for Skil Electric Screwdriver Model 2106 130/min F012210601 Cordless Screwdriver. This high-quality power charger adapter converts AC power to DC power, providing a reliable charging solution.

Key features include a wide input voltage range (AC 100-240V), built-in safety mechanisms, and a compact design for portability.

## SAFETY INFORMATION

Please read all safety instructions carefully before using the AC adapter. Failure to follow these instructions may result in electric shock, fire, or damage to the product or connected device.

- Ensure the output voltage and tip size of the adapter match the requirements of your device (Skil Electric Screwdriver Model 2106).
- Do not expose the adapter to water, moisture, or extreme temperatures.
- Do not disassemble or modify the adapter.
- Unplug the adapter from the power outlet when not in use or during electrical storms.
- Keep out of reach of children.
- The adapter features built-in protection mechanisms to prevent overheating, overcurrent, and short circuits.

## SETUP

Follow these steps to set up your AC adapter:

1. **Inspect the Adapter:** Before first use, visually inspect the adapter and its cable for any signs of damage.
2. **Verify Compatibility:** Confirm that the adapter's output specifications (voltage and connector size) are compatible with your Skil Electric Screwdriver Model 2106.
3. **Connect to Device:** Insert the DC output plug of the adapter firmly into the charging port of your Skil Electric Screwdriver.
4. **Connect to Power Outlet:** Plug the AC input prongs of the adapter into a standard AC 100-240V wall outlet.

## **OPERATING INSTRUCTIONS**

Once the adapter is properly connected, it will begin charging your device. The charging process is automatic.

- The adapter is designed for continuous use during charging.
- Monitor your device's charging indicator to determine when it is fully charged.
- Disconnect the adapter from the device and the power outlet once charging is complete or if the device is not in use for an extended period.

## MAINTENANCE

---

Proper maintenance ensures the longevity and optimal performance of your AC adapter.

- **Cleaning:** Disconnect the adapter from all power sources and devices before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and extreme temperatures. Avoid tightly coiling the cable to prevent damage.
- **Cable Care:** Do not bend, twist, or pinch the cable excessively. Avoid placing heavy objects on the cable.

## TROUBLESHOOTING

If you encounter issues with your AC adapter, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Adapter not charging device.	Loose connection, faulty outlet, incompatible device, damaged adapter.	<p>Ensure all connections are secure.</p> <p>Try a different power outlet.</p> <p>Verify device compatibility with adapter specifications.</p> <p>Inspect adapter and cable for visible damage.</p>
Adapter feels hot during use.	Normal operation, excessive load, poor ventilation.	<p>A slight warmth is normal.</p> <p>Ensure the adapter is in a well-ventilated area.</p> <p>If excessively hot, disconnect immediately and contact support.</p>
Device not recognizing adapter.	Incorrect connector size, device issue.	<p>Double-check the connector size against your device's port.</p> <p>Test the device with another known-good charger if available.</p>

## SPECIFICATIONS

Detailed technical specifications for the Marg AC Adapter:

<b>Model Number</b>	B1681626198
<b>Input Voltage</b>	AC 100-240V, 50-60Hz
<b>Output Voltage</b>	DC (Specific voltage not provided in input, typically matches device requirement)
<b>Connector Type</b>	Barrel Connector (as shown in images)
<b>Color</b>	Black
<b>Material</b>	Plastic
<b>Safety Features</b>	Over Voltage Protection, Over Heat Protection, Short Circuit Protection
<b>Certifications</b>	CE, CCC (as per product specifications)
<b>Dimensions (Adapter Unit)</b>	Approx. 1.82 in (W) x 3.66 in (H) x 1.29 in (D) (based on image)
<b>Cable Length</b>	Approx. 3.3 FT / 1 M (based on image)
