CASO Power Blender B 2000 Instruction Manual

Model: B 2000 (Item Model Number: 03621)

1. INTRODUCTION

Thank you for choosing the CASO Power Blender B 2000. This professional-grade kitchen appliance is designed for efficient blending of various ingredients, from fruits and vegetables to ice and nuts. To ensure safe operation and optimal performance, please read this instruction manual thoroughly before first use and retain it for future reference.

Image Description: A black CASO Power Blender B 2000 with a clear Tritan jug filled with strawberries, blueberries, and raspberries. The control dial is visible on the front of the base.

2. SAFETY INSTRUCTIONS

- Always unplug the appliance from the power outlet before cleaning, assembling, or disassembling parts.
- Do not immerse the motor base in water or any other liquid. Clean with a damp cloth only.
- Keep hands and utensils out of the blending container while blending to prevent injury. Use the tamper only when the lid is securely in place.
- Ensure the lid is properly closed and locked before operating the blender. The intelligent safety lock (EK1 standard) prevents operation if the lid is not correctly positioned.
- The blades are sharp. Handle with extreme care during cleaning and assembly.
- Do not operate the blender with an empty container.
- This appliance is for household use only. Do not use outdoors.
- Do not allow children to operate the blender. Close supervision is necessary when the appliance is used near children.

3. PACKAGE CONTENTS

Verify that all components are present and in good condition upon unpacking:

- CASO Power Blender B 2000 Motor Base
- 2-Liter Shatterproof Tritan Mixing Container
- Lid with integrated measuring cup
- Tamper
- Instruction Manual

Image Description: An overhead view showing all disassembled components of the CASO Power Blender B 2000: the black motor base, the clear Tritan mixing container with blades, the black lid with a measuring cup, and the black tamper.

4. SETUP

1. Place the motor base on a clean, dry, and stable surface. Ensure there is adequate ventilation around the unit.
2. Position the Tritan mixing container onto the motor base. The container is designed to fit securely in any orientation (for both right-handed and left-handed users).
3. Add your ingredients to the mixing container. Do not exceed the maximum fill line indicated on the container.
4. Place the lid securely onto the mixing container. Ensure it clicks into place to activate the safety lock. Insert the measuring cup into the lid opening.
5. Plug the power cord into a suitable electrical outlet.

5. OPERATING INSTRUCTIONS

General Operation

The CASO Power Blender B 2000 features a central control dial with three pre-programmed functions and a variable speed setting. Turn the dial to select your desired function or speed.

Image Description: A close-up view of the black control dial on the CASO Power Blender B 2000 base. The dial has settings for 'PULSE', 'SHAKE', and 'SMOOTHIE' functions, with an illuminated ring around it.

Functions

- PULSE Function:** For short, powerful bursts of blending. Turn the dial to 'PULSE' and hold, then release. This is ideal for chopping, crushing ice, or when you need precise control over consistency.
- SHAKE Function:** A pre-programmed setting optimized for preparing milkshakes, frozen cocktails, and crushing ice.
- SMOOTHIE Function:** A pre-programmed setting designed for blending fruits, vegetables, and liquids into smooth, consistent smoothies.
- Variable Speed:** Beyond the pre-set functions, you can manually adjust the blending speed by rotating the dial. The powerful 2000W motor can reach speeds up to 30,000 RPM.

BRUCHSICHERER TRITAN-MIXBEHÄLTER 2 L FASSUNGSVERMÖGEN

Image Description: An image illustrating the multifunctional capabilities of the blender. It shows examples for 'PULSE-Funktion' (sorbets, soups, sauces), 'SHAKE-Funktion' (ice cubes, milkshakes), and 'SMOOTHIES-Funktion' (fruit and vegetable smoothies).

Blade System and Interior Design

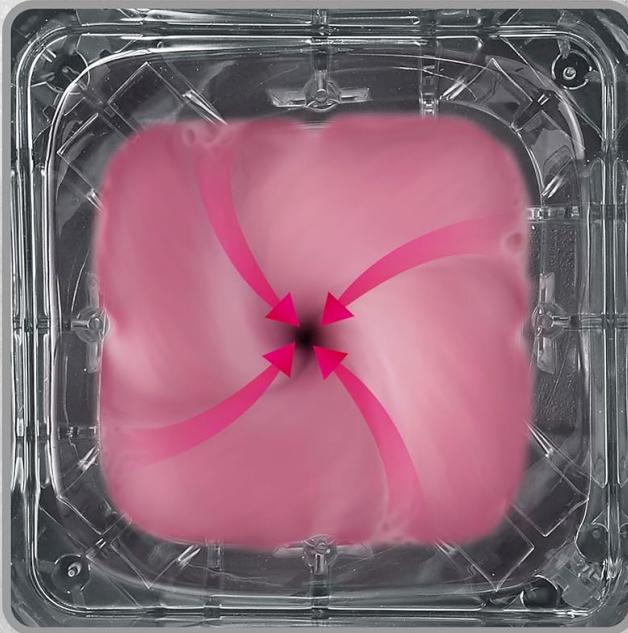

The blender features a robust 8-position knife system with a gold titanium coating for efficient and durable blending. The clever CASOTEK® interior base design promotes a more efficient and finer mixing result by optimizing the flow of ingredients.

8-FACHE TITAN-VEREDELTE KLINGE

Leistungsstarke 2000 Watt mit Geschwindigkeitseinstellungen
bis zu 30.000 U/min

Image Description: A top-down view of the 8-blade system within the blender jug, highlighting the gold titanium coating and the powerful rotation indicated by red lines.

CLEVERES CASOTEK® INNENBODEN-DESIGN

Für ein effizienteres und feineres Mixergebnis von Obst, Gemüse und Faserstrukturen etc.

Image Description: An illustration showing the CASOTEK® interior base design of the blender jug, with arrows indicating the optimized flow for efficient blending of fruits, vegetables, and nuts.

6. MAINTENANCE AND CLEANING

Regular cleaning ensures the longevity and hygiene of your blender.

- Unplug:** Always unplug the blender from the power outlet before cleaning.
- Mixing Container:** For easy cleaning, fill the container halfway with warm water and a drop of dish soap. Secure the lid and run the blender on the 'PULSE' setting for a few seconds. Rinse thoroughly. For stubborn residue, use a brush.
- Important:** Do not place the mixing container or its blade assembly in a dishwasher, especially the cog at the bottom, as this can lead to rust and damage. Hand wash only.
- Motor Base:** Wipe the motor base with a damp cloth. Do not immerse it in water.
- Lid and Tamper:** Wash the lid and tamper with warm, soapy water and rinse thoroughly.
- Ensure all parts are completely dry before reassembling or storing.

7. TROUBLESHOOTING

- **Blender does not turn on:**

- Ensure the power cord is securely plugged into a working outlet.
- Verify that the mixing container is correctly seated on the motor base.
- Check that the lid is properly closed and locked. The intelligent safety lock prevents operation if the lid is not secure.

- **Ingredients are not blending smoothly:**

- Add more liquid to the mixture.
- Use the tamper through the lid opening to push ingredients towards the blades.
- Process ingredients in smaller batches.

- **Loud noise or unusual odor:**

- Turn off the blender immediately and unplug it.
- Check for any foreign objects in the container.
- Ensure the container is properly seated. If the issue persists, contact customer support.

8. SPECIFICATIONS

Brand	Caso Design
Model Number	03621
Power	2000 W
Max RPM	30,000 rpm
Capacity	2 Liters
Container Material	Shatterproof Tritan (BPA-Free, heat resistant up to 100°C)
Blade Material	Titanium-coated
Dimensions (D x W x H)	8.27" x 7.48" x 18.11"
Item Weight	2.2 pounds
Special Features	Pulse Technology, Smart Safety Lock, CASOTEK® Interior Design

Image Description: A clear Tritan mixing container with volume markings in milliliters and ounces, highlighting its 2-liter capacity and shatterproof quality. A red cross-out symbol indicates it should not be filled beyond the maximum line.

9. WARRANTY AND SUPPORT

The CASO Power Blender B 2000 comes with a limited warranty. Please refer to the warranty card included in your packaging for specific terms and conditions.

For technical support, spare parts, or any questions regarding your appliance, please contact Caso Design customer service. Contact information can typically be found on the Caso Design website or on your purchase documentation.
