SETUP AND CONNECTIVITY

The TK950 keyboard offers three versatile connection modes: Bluetooth 5.0, 2.4GHz wireless, and USB Type-C wired. It supports simultaneous connection to up to 5 devices, allowing seamless switching.

1. Powering On/Off

Locate the power switch on the back of the keyboard. Slide it to the "ON" position to power on the device. Slide it to "OFF" when not in use to conserve battery.

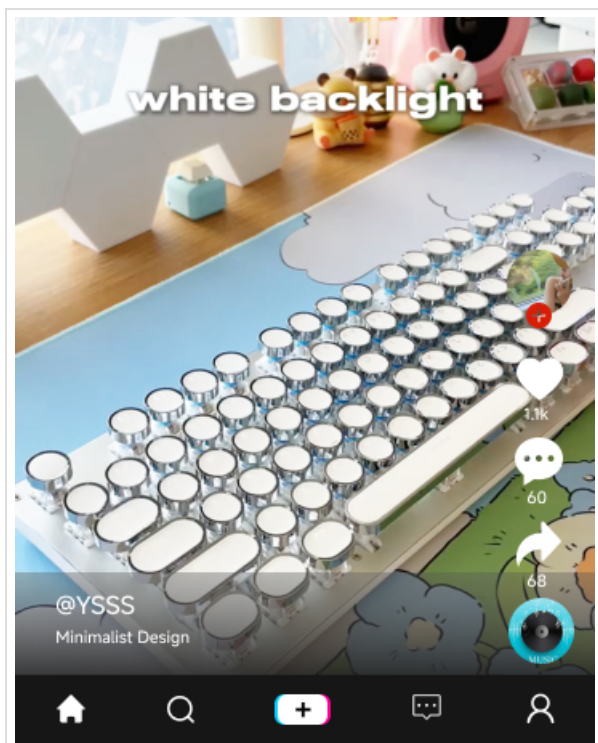

Image: The back of the TK950 keyboard, highlighting the power switch and the storage slot for the 2.4GHz USB receiver.

2. Connection Modes

- **Bluetooth Mode (BT1/BT2/BT3):** Press and hold **FN + 1**, **FN + 2**, or **FN + 3** to enter Bluetooth pairing mode for BT1, BT2, or BT3 channels respectively. The indicator light will flash, indicating it's ready to pair. Search for "TK950" on your device's Bluetooth settings and connect.
- **2.4GHz Wireless Mode:** Insert the USB receiver into an available USB port on your computer. Press and hold **FN + 4** to activate 2.4GHz wireless mode. The keyboard should connect automatically.
- **USB Type-C Wired Mode:** Connect the provided USB Type-C cable from the keyboard to your computer. Press and hold **FN + 5** to switch to wired mode. This mode also charges the keyboard.

OPERATING INSTRUCTIONS

1. Backlight Control

The TK950 features a white backlight with 19 preset lighting effects, 5 brightness levels, and adjustable breathing speed.

- **Change Lighting Effect:** Press **FN + INS** or **FN + 6/7/8/9/0** to cycle through the 19 preset lighting effects (14 basic, 5 game-specific).
- **Adjust Brightness:** Press **FN + Up Arrow** to increase brightness, **FN + Down Arrow** to decrease brightness.
- **Adjust Breathing Speed:** Press **FN + Left Arrow** to decrease speed, **FN + Right Arrow** to increase speed.

2. Multimedia and Function Keys

The keyboard includes dedicated multimedia keys and function key combinations for enhanced control:

- **FN + F1-F12:** Access various multimedia functions (e.g., volume control, media playback).
- **FN + Win:** Lock/unlock the Windows key to prevent accidental presses during gaming.
- **FN + ESC:** Reset lighting effects to default.

3. Anti-Ghosting

The 104-key anti-ghosting technology ensures that multiple key presses are registered simultaneously without conflict, improving efficiency for typing and gaming.

4. Ergonomic Design

The keyboard features adjustable two-stage tilt feet for a comfortable typing angle and anti-slip silicone pads for stability. The stepped floating keycaps are designed to fit fingertips for precise positioning.

MAINTENANCE

1. Cleaning

To clean the keyboard, power it off and disconnect it from all devices. Use a soft, damp cloth to wipe the surface. For keycaps, a mild cleaning solution can be applied to the cloth. Avoid spraying liquids directly onto the keyboard. The metal panel is designed for easy cleaning and scratch resistance.

2. Battery Care

The TK950 is equipped with a rechargeable 2000mAh Lithium Ion battery. To prolong battery life, avoid fully discharging the battery frequently. Charge the keyboard using the provided USB Type-C cable when the battery indicator shows low power. The keyboard features smart power-saving chips to optimize battery usage.

TROUBLESHOOTING

- **Keyboard not connecting:**
 - Ensure the keyboard is powered on.
 - Verify the correct connection mode (Bluetooth, 2.4GHz, or Wired) is selected using FN key combinations.
 - For Bluetooth, ensure your device's Bluetooth is enabled and the keyboard is in pairing mode.
 - For 2.4GHz, ensure the USB receiver is properly inserted and the keyboard is in 2.4GHz mode.
 - For wired, ensure the USB Type-C cable is securely connected to both the keyboard and the computer.
 - Try restarting the keyboard and your device.
- **Keys not responding or double-typing:**
 - Check battery level; low battery can affect performance.
 - Clean under the keycaps for any debris that might be obstructing the switches.
 - If using wireless modes, ensure there is no interference and the keyboard is within range.
 - Try connecting via wired mode to rule out wireless connectivity issues.
- **Backlight not working or flickering:**
 - Ensure the backlight is turned on and brightness is adjusted using FN key combinations.
 - Check battery level; backlighting may be reduced or disabled on low battery.
 - Try resetting the lighting effects using **FN + ESC**.

If issues persist, please refer to the warranty and support section for further assistance.
