BELIBUY XCQ-808

Mini Car Vacuum Portable Cordless Handheld Vacuum Cleaner and Air Duster

Model: XCQ-808 | Brand: BELIBUY

PRODUCT OVERVIEW

The BELIBUY Mini Car Vacuum is a versatile 2-in-1 cordless handheld device designed for both vacuuming and air dusting. Its compact and lightweight design makes it ideal for cleaning various spaces, including cars, computers, sofas, offices, and homes. Equipped with a powerful motor and multiple nozzles, it offers efficient cleaning for both fine dust and larger debris.

PACKAGE CONTENTS

Upon opening the package, verify that all components are present:

- Mini Car Vacuum Unit
- Accessory Kit (various nozzles)
- USB-C Charging Cable
- HEPA Filter (pre-installed or separate)
- User Manual

9500Pa Strong Suction

Superior suction power when fully charged

Coffee powder

food crumbs

gravel

Pet hair

dust

Image: The vacuum in action, illustrating its strong suction power (9500Pa) and high motor speed (50000 RPM) effectively picking up various types of debris like coffee powder, food crumbs, gravel, pet hair, and dust.

SETUP

- 1. Initial Charge:** Before first use, fully charge the vacuum using the provided USB-C charging cable. The built-in 4000mAh battery includes a protective plate for safe charging. A full charge typically takes 2.5-3 hours.
- 2. Attach Nozzle:** Select the appropriate nozzle for your cleaning task.
 - For vacuuming, attach the desired suction nozzle to the front intake.
 - For air dusting, attach the blow nozzle to the rear air outlet.

INSTRUCTIONS FOR USE OF ACCESSORIES

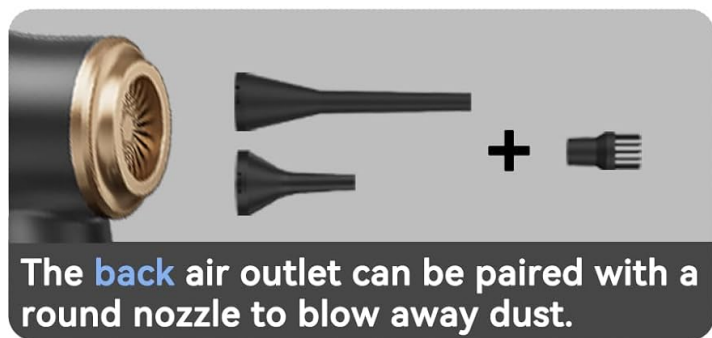

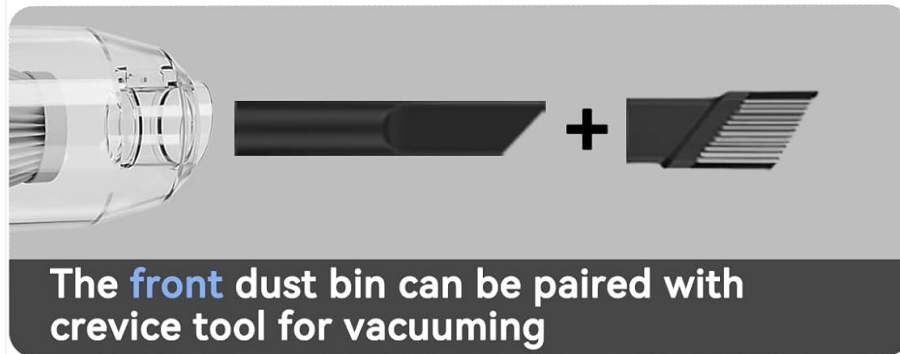

Image: A visual guide demonstrating how to attach different nozzles for both vacuuming (front dust bin) and blowing (back air outlet). It also includes a warning not to blow and vacuum simultaneously.

OPERATING INSTRUCTIONS

The device features a simple push-button control for operation.

- 1. Power On/Off:** Press the power button to turn the unit on. Press again to turn it off.
- 2. Vacuum Function:**
 - Ensure a suction nozzle is attached to the front.
 - Direct the nozzle towards the area to be cleaned. The powerful suction (9500Pa) will effectively pick up dirt, dust, and debris.
 - Use the crevice tool for hard-to-reach areas like between sofa cushions or narrow car interiors.
 - Use brush head nozzles for surfaces requiring gentle agitation, such as keyboards or delicate furniture.
- 3. Air Duster Function:**
 - Ensure a blow nozzle is attached to the rear air outlet.
 - Direct the airflow to blow away dust, crumbs, or other particles from surfaces. This is particularly useful for electronics, keyboards, and tight spaces.
 - The short blow nozzle can also be used for inflation tasks.

Important: Do not attempt to use both vacuum and blow functions simultaneously.

Image: Demonstrates the wide range of applications for the vacuum, including cleaning car interiors, keyboards, sofas, toys, plants, and even for use as a barbecue blower, highlighting its versatility with different nozzle accessories.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your device.

1. **Emptying the Dirt Bowl:** The semi-transparent dirt bowl allows you to monitor the fill level. When full, twist the dirt bowl downwards to detach it from the main unit and discard the collected debris.
2. **Cleaning the HEPA Filter and Dirt Bowl:** Both the dirt bowl and the HEPA filter are washable. Rinse them directly under running water.
3. **Drying:** After washing, ensure the HEPA filter and dirt bowl are completely dry before reassembling. Air dry them naturally to prevent moisture buildup and maintain effective suction.

EASY TO ASSEMBLE & CLEAN

Disassembly Steps

Image: A step-by-step visual guide showing how to disassemble the vacuum (twist downwards), discard garbage, rinse the HEPA filter, and allow for natural drying, emphasizing the ease of cleaning and reuse.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Low Suction Power	Full dirt bowl, clogged filter, low battery.	Empty dirt bowl, clean/dry HEPA filter, recharge battery.
Device Not Turning On	Low or no battery charge.	Charge the device fully.
Weak Airflow (Duster)	Clogged nozzle or internal blockage.	Check and clear any blockages in the nozzle or air outlet.

SPECIFICATIONS

Brand: BELIBUY

Model Name: XCQ-808

Color: Black

Special Feature: Portable

Filter Type: HEPA Filter

Is Cordless?: Yes

Capacity: 80 Cubic Centimeters

Wattage: 100 watts

Runtime: 30 minutes

Recommended Uses: Car, Home, Office, Furniture, Sofa, Computer

Form Factor: Handheld

Product Dimensions: 1"L x 1"W x 1"H

Battery Description: Lithium-Ion (1 A battery included)

Noise Level: 70 dB

Connectivity Technology: USB

Control Method: Push Button, Touch

WARRANTY AND SUPPORT

For any questions, technical support, or warranty claims, please contact BELIBUY customer service through the retailer's platform or refer to the contact information provided in the original product packaging.

Please retain your proof of purchase for warranty validation.
