TORRAS PB12

TORRAS 0.3" Ultra Slim MagSafe Portable Charger (Model PB12) User Manual

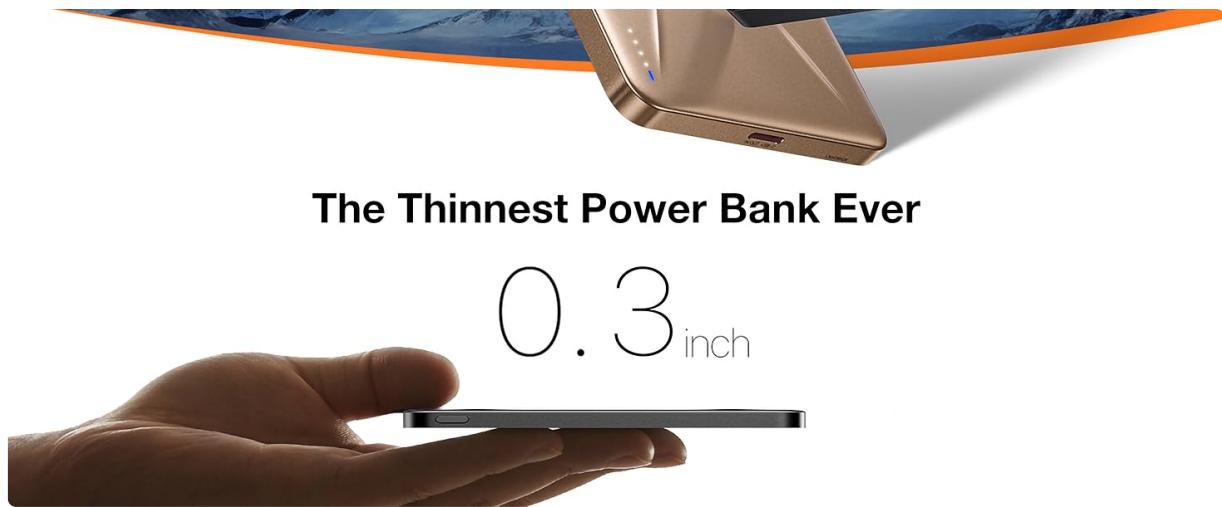

Essential Guide for Your Magnetic Power Bank

1. INTRODUCTION AND OVERVIEW

The TORRAS 0.3" Ultra Slim MagSafe Portable Charger (Model PB12) is a compact and lightweight 5,000mAh magnetic power bank designed for convenient on-the-go charging. It features strong magnetic attachment, fast charging capabilities, and advanced safety protections to ensure reliable performance.

2. WHAT'S IN THE Box

- 1 x 5000mAh Magnetic Portable Charger
- 1 x USB-C Charging Cable
- 1 x User Manual

3. SETUP

1. **Charge the Power Bank:** Before first use, fully charge your portable charger using the provided USB-C cable and a compatible power adapter. The LED indicators will show the charging status.
2. **Attach to Device:** Align the portable charger with the MagSafe area on the back of your iPhone 12 series or newer (or a MagSafe-compatible case). The strong magnets (13N) will securely snap it into place.
3. **Begin Charging:** Once attached, the portable charger will automatically begin wirelessly charging your device. The LED indicators on the power bank will illuminate to show its remaining battery level.

4. OPERATING INSTRUCTIONS

The TORRAS portable charger is designed for simple operation. Once magnetically attached to your compatible iPhone, it will automatically initiate wireless charging. You can continue to use your phone normally while it charges.

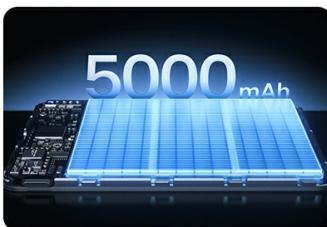

- **Checking Battery Level:** Press the power button on the side of the power bank to view the current charge level indicated by the LED lights.
- **Wired Charging:** For devices that do not support MagSafe or for faster charging, use the USB-C port on the power bank with a compatible cable to charge your device.
- **Dual Device Charging:** The power bank supports 7.5W magnetic charging and 15W wired charging simultaneously, allowing you to charge two devices at once.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the power bank. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the power bank frequently. Recharge it regularly, even if not in constant use.

6. TROUBLESHOOTING

- **Device Not Charging:**
 - Ensure the power bank is charged.
 - Verify proper magnetic alignment between the power bank and your device/MagSafe case.
 - Remove any magnetic or metal attachments (cards, keys, pop grips) from your phone during charging to prevent interference.
 - Confirm your phone or case is MagSafe compatible. Non-magnetic cases (e.g., Otterbox Defender) are not compatible.
- **Power Bank Getting Warm:** It is normal for the portable charger to generate some heat during

charging or discharging due to energy loss during transmission. If it becomes excessively hot, discontinue use and contact support.

- **Slow Charging:** Ensure both the power bank and your device are capable of fast charging. Check the charging cable for damage.
