4.4 Firmware Update

It is highly recommended to update the firmware of your Arctis GameBuds immediately after purchase for optimal performance and to resolve potential issues. Download the SteelSeries GG software on a PC, connect the charging case (with earbuds inside) via USB, and follow the on-screen instructions to update the firmware.

5. OPERATING

5.1 Quick-Switch Dual Wireless

The Arctis GameBuds allow seamless switching between 2.4GHz wireless (for gaming) and Bluetooth 5.3 (for mobile audio). Refer to the Quick Start Guide for the specific touch control gesture to switch between these modes.

5.2 Active Noise Cancellation (ANC) and Transparency Mode

Regularly clean your earbuds and charging case to maintain performance and hygiene. Use a soft, dry cloth. For ear tips, remove them and clean with mild soap and water, then dry thoroughly before reattaching.

6.2 Storage

When not in use, store the Arctis GameBuds in their charging case to protect them and ensure they remain charged.

6.3 Water Resistance

The earbuds are rated IP55 for water resistance, meaning they are protected against dust and low-pressure water jets. They are not designed for submersion. Ensure earbuds are dry before placing them back in the charging case.
