Swann EVO 2K Indoor Wi-Fi Security Camera Instruction Manual

Model: SWIFI-SE2KIC-US

INTRODUCTION

The Swann EVO Indoor Camera provides comprehensive home monitoring with 2K HD video, night vision up to 32 feet, and a 90-degree field of view. It features 2-way audio, instant motion and sound detection alerts, and flexible storage options including local MicroSD card support (up to 128GB) and cloud storage. Designed for easy setup and adjustable mounting, this camera helps you stay connected to your home environment.

WHAT'S IN THE BOX

- EVO Indoor Wi-Fi Security Camera
- Power Adapter
- Cable
- Wall Mount
- Mounting Screws & Plugs
- Operating Instructions (this manual)
- Theft Deterrent Sticker

SETUP GUIDE

Initial Setup

1. **Plug in the camera:** Connect the provided power adapter to the camera and a power outlet.
2. **Download the Swann Security App:** Search for "Swann Security" in your device's app store (available on iOS and Android).
3. **Scan the QR code and connect:** Follow the in-app instructions to pair your camera by scanning the QR code located on the camera or its packaging.

Mounting Options

The Evo Indoor Camera offers adjustable mounting options. It can be placed on a flat surface like a table or shelf, or mounted to a wall using the included wall mount, screws, and plugs. Ensure the camera is positioned to capture the desired area effectively.

OPERATING YOUR CAMERA

Live View and Two-Way Talk

Access a live feed of your camera's view through the Swann Security App. The integrated two-way audio allows you to hear what's happening and speak through the camera, enabling communication with people or pets in the room.

Dual Storage Options

Local

MicroSD Card

(up to 128GB, not included)

Insert a MicroSD card, and video clips are automatically stored. Access and view your footage anytime via the Swann Security app—no subscription required.

Cloud

Swann Security Subscription

Store footage in the cloud for easy access anywhere via the Swann Security app. 1 day of rolling storage included. Activate your 3-month trial for the full app experience.

Motion and Sound Detection

The camera is equipped with instant motion and sound detection capabilities. You will receive real-time alerts on your smartphone when activity is detected. Customize detection zones and sensitivity settings within the app to minimize unwanted notifications and focus on important events.

Live View Features

Live Snapshot

Instantly save snapshot to your photo album

Live Video Clip

Instantly save video clip to your photo album

2-Way Audio

Speak through the camera from your phone

Security Siren

Sound the camera alarm

Mute/Unmute

Turn audio on/off

Stream Quality

Change live view playback quality

View Format

Change live view aspect ratio

Storage Options

The Evo Indoor Camera supports two primary storage methods for recorded video:

- **Local Storage:** Insert a MicroSD card (up to 128GB, not included) into the camera for local recording. This allows you to access and view footage directly from the Swann Security app without a subscription.
- **Cloud Storage:** Subscribe to the Secure Plus Plan for cloud storage. A 90-day free trial is available to experience the full benefits of cloud recording and remote access.

MAINTENANCE

Cleaning

To ensure optimal performance, periodically clean the camera lens and body with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials that could damage the camera's surface or lens.

Software Updates

Keep your Swann Security App and camera firmware updated to the latest versions. Updates often include performance improvements, new features, and security enhancements. Check the app regularly for update notifications.

Power Supply

Ensure the camera is connected to a stable power source. Avoid using unapproved power adapters or cables, as this may damage the device or affect its operation.

TROUBLESHOOTING

Camera Not Connecting to Wi-Fi

- Ensure your Wi-Fi network is 2.4GHz, as the camera may not support 5GHz networks.
- Verify that your Wi-Fi password is entered correctly in the app.
- Move the camera closer to your Wi-Fi router to improve signal strength.
- Restart your Wi-Fi router and the camera.

No Live View or Recording

- Check the camera's power connection.
- Ensure your internet connection is stable.
- Verify that the camera is properly connected to the Swann Security App.
- If using a MicroSD card, ensure it is inserted correctly and not full.

Poor Video Quality

- Clean the camera lens.
- Ensure adequate lighting in the monitored area, especially for night vision.
- Check your internet speed; a slow connection can affect streaming quality.

Frequent False Alerts

- Adjust the motion and sound detection sensitivity settings in the Swann Security App.
- Define specific activity zones to exclude areas with frequent, irrelevant movement (e.g., pets, moving curtains).
