2. IMPORTANT SAFETY INSTRUCTIONS

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury to persons.

- Read all instructions before operating the appliance.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against fire, electric shock, and injury, do not immerse cord, plugs, or the appliance in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may result in fire, electric

shock, or injury to persons.

- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to 'off', then remove plug from wall outlet.
- Do not use appliance for other than intended use.

4. INITIAL SETUP

Before using your coffee machine for the first time, follow these steps:

1. **Unpacking:** Remove all packaging materials and ensure all components are present and undamaged.
2. **Cleaning:** Wash the water tank, milk container, portafilter, and drip tray with warm soapy water, then rinse thoroughly and dry.
3. **Fill Water Tank:** Remove the water tank from the back of the machine. Fill it with fresh, cold drinking water up to the MAX level. Reinsert the tank securely.
4. **First Rinse Cycle:** Place a large container under the coffee spouts. Turn on the machine. Perform a rinse cycle without coffee to prime the system and clean any manufacturing residues. Refer to the operating section for how to dispense water.
5. **Milk System Rinse (Optional):** If using the milk frother, fill the milk container with water and perform a milk frothing cycle to clean the milk system.

For Ground Coffee:

1. Insert the appropriate filter basket (single or double shot) into the portafilter.
2. Add finely ground coffee to the filter basket. Use the measuring spoon to ensure correct dosage and gently tamp the coffee.
3. Attach the portafilter to the brewing head by aligning it and turning it to the right until secure.
4. Place your cup(s) under the coffee spouts. The machine features a dual nozzle for two cups.
5. Select 'Espresso' or 'Double' on the touch display. The machine will automatically brew your coffee.

For Coffee Capsules/Pads:

1. Insert the specific filter basket for capsules or pads into the portafilter.
2. Place one coffee capsule or pad into the filter basket.
3. Attach the portafilter to the brewing head.
4. Place your cup under the coffee spout.
5. Select 'Espresso' or 'Double' as desired.

5.3 Preparing Milk-Based Beverages (Latte, Cappuccino)

The integrated milk frother allows for convenient preparation of milk-based drinks.

1. Fill the milk container with cold milk up to the desired level (MIN/MAX indicators).
2. Ensure the milk container is securely attached to the machine.
3. Prepare your espresso shot as described above, but do not brew yet.
4. Place your cup under both the coffee spout and the milk frother nozzle.
5. Select 'Latte' or 'Cappuccino' on the touch display. The machine will first froth the milk, then brew the espresso

into the same cup.

6. CLEANING AND MAINTENANCE

Regular cleaning ensures optimal performance and extends the lifespan of your machine.

6.1 Daily Cleaning

- **Drip Tray:** Empty and clean the drip tray daily. It can be removed by pulling it forward. Wash with warm soapy water.
- **Portafilter:** After each use, remove the portafilter and discard the used coffee grounds/capsule/pad. Rinse the portafilter and filter basket under running water.
- **Milk Container:** After preparing milk-based drinks, detach the milk container and rinse all parts that came into contact with milk. The milk container can be stored in the refrigerator.
- **Exterior:** Wipe the exterior of the machine with a soft, damp cloth. Do not use abrasive cleaners.

6.2 Descaling

The GRUNDIG KSM 6430 features an automatic descaling function. The machine will indicate when descaling is required. Follow the instructions in the display or refer to the detailed descaling procedure in the full manual (if available).

- Use a suitable descaling solution recommended for espresso machines.
- Follow the instructions on the descaling solution packaging carefully.
- Ensure the water tank is filled with the descaling solution as instructed.
- Run the descaling program until complete, then perform several rinse cycles with fresh water.

Zahmetsiz Temizleme

Otomatik kireç temizleme özelliğiyle hem su tankını hem de süt haznesini kolayca temizler.

Kolaylığı tasarımından gelir

7. TROUBLESHOOTING

If you encounter issues with your GRUNDIG KSM 6430, consult the following table for common problems and solutions:

Problem	Possible Cause	Solution
No coffee is dispensed.	Water tank empty; machine not primed; coffee too finely ground or tamped too hard.	Fill water tank; perform a rinse cycle; use coarser grind or less pressure when tamping.
Coffee is too weak.	Insufficient coffee grounds; coffee too coarsely ground; brewing time too short.	Increase coffee amount; use finer grind; check selected coffee program.
No milk foam or poor foam quality.	Milk container not clean; milk type unsuitable; milk too warm; frother nozzle blocked.	Clean milk container and nozzle; use cold, fresh, full-fat milk; ensure milk is cold.
Water leaks from machine.	Water tank not correctly inserted; drip tray full; seals damaged.	Ensure water tank is secure; empty drip tray; contact customer support if seals are damaged.
Machine not turning on.	Power cord not plugged in; power outlet faulty.	Check power connection; try a different outlet.

If the problem persists after attempting these solutions, please contact Grundig customer support.
