CAMOLO GEEK MG-02

CAMOLO GEEK MG-02 Dual Magnetic Phone Holder Instruction Manual

Model: MG-02

1. INTRODUCTION

The CAMOLO GEEK MG-02 Dual Magnetic Phone Holder is a versatile accessory designed to securely hold your smartphone using strong magnetic connections. It features a foldable design, adjustable angles, and compatibility with various mounting options, making it suitable for diverse environments such as vehicles, gyms, and creative content production.

2. WHAT'S IN THE BOX

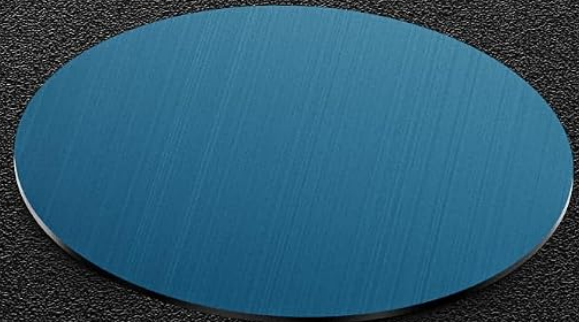

- 1x MG-02 Dual Magnetic Phone Holder
- 1x Metal Ring (3M sticker)
- 1x Round Metal Plate (3M Thick sticker)
- 1x User Manual

METAL RING

Use on phone or phone case.
This must be applied if your are using phone case

Figure 2.1: The package includes the MG-02 Dual Magnetic Phone Holder, a metal ring with 3M adhesive, a round metal plate with 3M adhesive, and a user manual.

3. SETUP AND INSTALLATION

3.1. Attaching to MagSafe Compatible Phones (iPhone 12-16 Series)

For iPhone 12, 13, 14, 15, and 16 series, the MG-02 holder can be directly attached to the back of the phone or a MagSafe-

compatible case. The strong magnets will align and secure the device.

3.2. Attaching to Non-MagSafe Phones or Cases (iPhone 11 and below, Android)

For phones without MagSafe compatibility or cases that are not MagSafe-enabled, use the included metal ring:

1. Clean the back surface of your phone or phone case thoroughly.
2. Peel off the protective film from the adhesive side of the metal ring.
3. Carefully center and press the metal ring onto the desired location on your phone or case.
4. Apply firm pressure for a few seconds to ensure strong adhesion.
5. Wait for 24 hours before attaching the magnetic phone holder to allow the adhesive to fully cure.

The round metal plate can be used on non-iron surfaces like bathroom tiles or car dashboards to create a magnetic attachment point for the holder.

4. OPERATING INSTRUCTIONS

4.1. Adjusting Angles and Orientation

The MG-02 features two rotating shafts, allowing for multi-dimensional adjustment. You can easily switch between horizontal and

vertical screen orientations and set the phone at various viewing angles. The anti-loose screw design enhances weight bearing and durability.

Figure 4.1: The phone holder can be adjusted to various positions for optimal viewing, including horizontal and vertical orientations.

4.2. Using with Tripods and Accessories

The holder includes a 1/4" screw hole and a cold shoe mount, making it compatible with standard tripods, selfie sticks, fill lights, and ring lights. Simply tighten the holder to the screw mount of your accessory.

EXTENSIONS & VERSATILITY

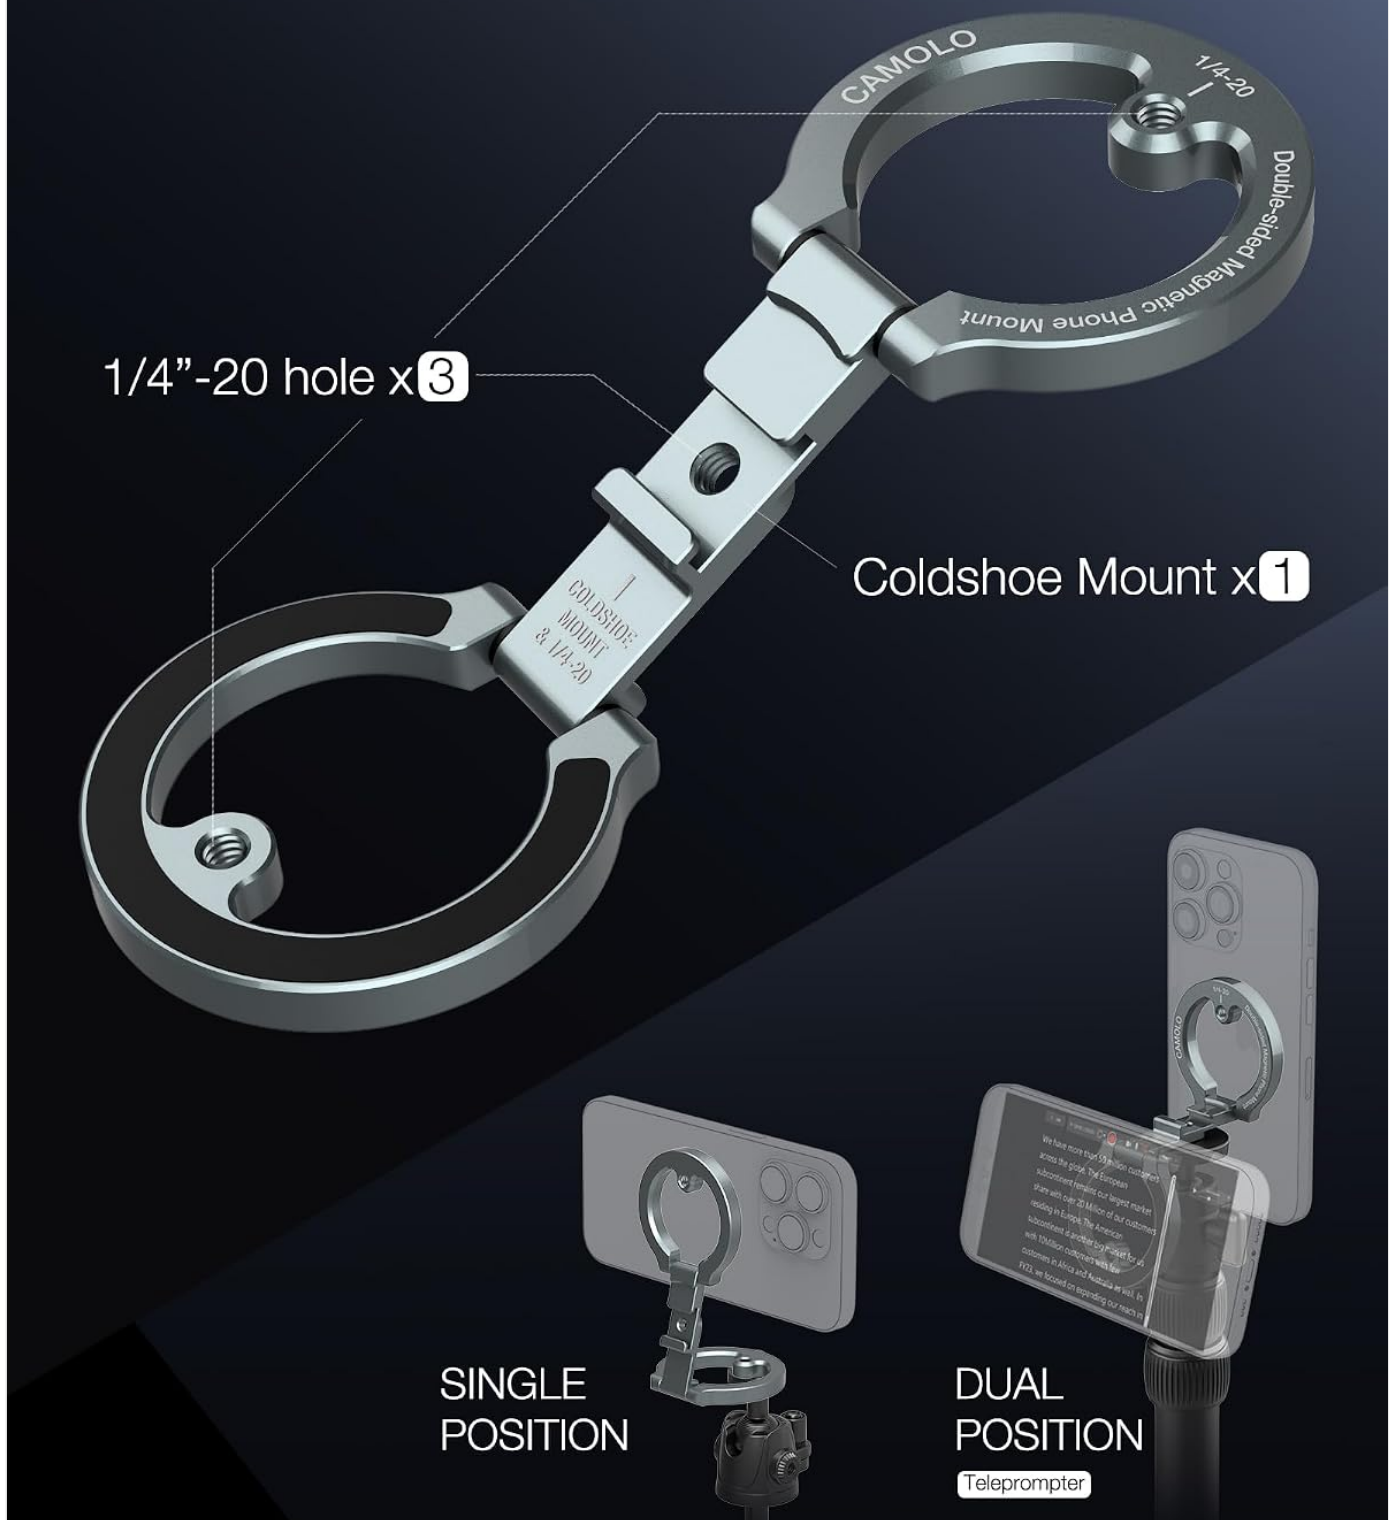

Figure 4.2: The holder features multiple 1/4"-20 screw holes and a cold shoe mount for attaching to tripods and other photographic accessories.

4.3. Attaching to Metal Surfaces

The dual-sided N52 super strong magnets (2800Gs, 30N/6LB+ magnetic power) allow the holder to stick to various metal surfaces. This is ideal for use on gym equipment, refrigerators, metal fire doors, metal racks, and other magnetic surfaces.

FREE SUSPENSION

AT ANY ANGLE, IN ANY POSITION

Figure 4.3: The holder can be freely suspended on metal surfaces, such as a refrigerator or gym equipment, providing hands-free viewing.

4.4. Vehicle Use

When used with the included round metal plate, the holder can serve as a stable car mount for navigation or entertainment.

Figure 4.4: The holder's versatility is shown in different applications, including tripod mounting, dual-position setups, and as a car dashboard stand.

4.5. Product Videos

Video 4.1: This video demonstrates the CAMOLO GEEK MG-02 Dual Magnetic Phone Holder's features, including its compact design, strong magnetic attachment, and adjustable angles for various uses like watching videos or taking photos. It highlights its compatibility with MagSafe iPhones and other phones using the included metal ring, as well as its ability to attach to tripods and metal surfaces.

Video 4.2: This video provides a detailed look at the MG-02 Double Magnetic Ring Mount Phone Holder, showcasing its adjustable design,

strong magnetic hold, and versatility for different camera moves and attachments. It emphasizes its compact size and ease of use for both photography and general phone usage.

5. FEATURES

- **Dual Magnetic Ring Mount:** Features dual-sided N52 super strong magnets with 2800Gs power, capable of withstanding over 30N/6LB, equivalent to 10 iPhone 15 Pro Max devices.
- **Free Adjustment:** Equipped with two rotating shafts for multi-dimensional angle and height adjustments, allowing seamless switching between horizontal and vertical screens.
- **1/4"-20 Phone Tripod Mount:** Includes a 1/4" screw hole and cold shoe for compatibility with tripods, selfie lights, fill lights, and ring lights.
- **Compact & Portable:** Foldable design (2.4 inches diameter, 0.6 inches thick, 85g/3oz weight) for easy transport in a backpack or magnetic attachment to the phone's back.
- **Ultra Sturdy Construction:** Precision machined from aircraft-grade aluminum with anodized treatment for high durability and beveled edges to prevent snagging.
- **Wide Compatibility:** Directly compatible with iPhone 12, 13, 14, 15, 16 Pro Max Plus Series and magnetic cases. Includes a metal ring for iPhone 11 and below, Android phones, and non-magnetic cases.

6. MAINTENANCE

- Clean the holder regularly with a soft, dry cloth to remove dust and fingerprints.
- Avoid using abrasive cleaners or solvents, as these may damage the finish.
- Ensure the magnetic surfaces are free of debris for optimal grip.
- Store the holder in a cool, dry place when not in use.

7. TROUBLESHOOTING

7.1. Phone Not Sticking Securely

- **Check Compatibility:** Ensure your phone is a MagSafe-compatible iPhone (12 series or newer) or that you have correctly installed the included metal ring on your phone/case.
- **Surface Cleanliness:** Make sure both the phone holder's magnetic surface and your phone/case are clean and free of dust or oils.
- **Case Thickness:** Very thick or non-magnetic cases may interfere with the magnetic connection. Consider using a thinner case or applying the metal ring to the outside of the case.

7.2. Holder Feels Loose/Wobbly

- **Adjust Screws:** The hinges are designed with anti-loose screws. If the holder feels wobbly, check if any screws need tightening.
- **Proper Placement:** Ensure the phone is centered on the magnetic surface for balanced support.
